## Aged Farmer Is Assaulted by a Highwayman.

Was on His Way Home When He Was Attacked by a Robber Who Attempted to Relieve Him of the Proceeds of the Sale of Produce on Saturday-Other News of General Interest to the Busy Reader.

Town Officials were looking for John Mariner, aged 23 years, of the western part of Canandaigua, N. Y., who is sought on a warrant charging assault sworn out by William Appleton, an aged and respected farmer.

Appleton sold a lot of produce Satarday and had started home with his money, when Mariner asked for a ride. He was taken aboard and sat in the back end of the wagon. According to Appleton, when an isolated place in the road was reached, Mariner sneaked up and delivered the old man a stunring blow upon the top of the head, probably with a stocking containing a large stone.

Appleton were a thick fur cap, and while the blow nearly fractured his skull, he swung around and gave Mariner a blow that sent him out of the wagon. Appleton was brought to this village, where his wound was dressed. It is not likely to prove serious.

San Antonio, Tex., March 14.-Seven barefooted Mexicans perched like scarecrows on the top rail of the fence surrounding the property of the San Antonio Brick company saw what there was to see in the cactus strewn and mud splattered yards of the rail-

## RECRUITS POURING IN

Every Regiment at San Antonio Will Be Raised to a War Footing.

San Antonio, Tex., March 14.-Major General William H. Carter, who is in supreme command of the divisional army now mobilizing in Texas, said that the massing of 20,000 troops within striking distance of the Mexican border, had no ulterior significance whatever and that the movement was simply pursuant of a desire on the part of the general staff at Washington to test the new field service regulations.

in making this statement General Carter broke the scrupulous silence that he had maintained since his arrival at the big camp at Fort Sam Hous-

on on Saturday morning. Within an hour of the time that General Carter thus explained the reason for the hasty assemblage of all branches of the service along the 1,800 miles of foreign border, a train load of cavalry recruits from Columbus, O., pulled in to the railroad yards a mile from the camp.

The recruits and their officers did not detrain but stayed in their cars. They left over the Southern Pacific line for Eagle Pass on the Mexican forder this morning. They go to swell the number of the Third cavalry now doing patrol duty along the fighting zone.

With the arrival of six other carloads of cavalry recruits from the same recruiting post in Ohio, the Eleventh cavalry, now on the ground at the camp, is raised to full war strength of 1,188 men and 51 officers, Over 200 recruits for the infantry and engineer corps also came in and everywhere on the great windy plain where the divisional camp has been established awkward squads were being put through their paces by drill sorgeants all day.

Although no official statement to that effect has been issued by General Carter, it was a matter of common knowledge that before the end of the week every regiment of each arm of the service represented in the division which he commands will be as nearly recruited to a war footing as the exigencies of railread transportation will permit.

not only give children false ratings and their parents false hopes, but also overthrow moral sense in the school and undermine the entire system of education."
