BOY KILLS HIS SISTER

Shoots Her Through the Temple While Playing With Rifle.

During the Absence of His Parents He Finds a Gun and Cartridges and While Playing With It Accidentally Pulls the Trigger and Badly Wounds the Girl From the Effects of Which She Dies Later - Other Items of General Interest.

Margery Pratt, the 13-year-old daughter of William M. Pratt, who lives about a mile outside of Warsaw, N. Y., died Sunday morning from the effects of a rifle wound inflicted by her 2-year-old brother Lloyd the night before. The lad accidentally shot his nister through the temple and she died without regaining consciousness.

During the absence of his parents in the village the boy managed to get possession of an unloaded rifle and a cartridge. Besides himself and Margery there was an older sister in the home at the time and she cautioned the boy to be careful how he handled the gun.

Notwithstanding the advice of the older girl he loaded the rifle with the cartridge and while playing with it accidentally pulled the trigger. Margery was sitting across the table from him at the time and the bullet entered her head, passing through a lamp on its way.

SOME EGG STORIES, THESE

One Man Has a Hem That Lays Two Eggs Every Day.

The approach of Easter brings forth many egg stories and an unusual crop has hatched out in the vicinity of Tarrytown, N. Y. The wonderful record of 60 hens owned by Henry Johnson of Glenville, N. Y., which laid 1.036 eggs in February, winning a bet for their owners, has been surpassed.

The hens have kept up the good work and at 6 p. m. Friday Mr. Johnson said they had laid 1,226 eggs. When the record of these hens was published last month, Mr. Johnson received as many as 200 letters a day from all parts of the country, as far West as Seattle, asking what he fed his chickens to produce such results. He had to hire a stenographer to answer all the inquiries.

Dr. N. H. Freeland came forward with a story that he owned 14 hens that produced 19 eggs a day and Alderman Irving DeRevere said he owned an Andalusian hen which laid two eggs a day, one at 5 in the morning and one at 5 in the evening. He added, however, that the hens had formed some sort of a union and had to cut out the overtime work. The outlook for the egg trust is dark.

CONGRESS IN SESSION

Called Together to Pass Canadian Reciprocity Bill.

National Lawmakers Were Promptly Called to Order at Noon Today In Both House and Senate - Speaker Clark Received an Ovation When He Ascended to His Seat - Uncle Joe Cannon Congratulates the New Presiding Officer Amid Cheers and Applause From Both Sides of the House-Similar Scenes Enacted In Upper House.

Washington, April 4.-The special session of the Sixty-second congress convened today at noon at the National Capitol. The lawmaking body of the nation was called together principally to pass on the Canadian reciprocity bill, the pet measure of President Taft, which he will again submit to congress in the hope that it will be enacted into law. Large Crowd Present.

Long before the hour of noon arrived the house and senate galleries were packed to overflowing, the public being anxious to see the first session of this congress which promises to pass into history as the most remarkable one in a great number of years.

Many prominent Democrats were given the privilege of the floor of the house, among whom were William Jennings Bryan, Governor Harmon and other men wellknown in Democratic political history.

Promptly at noon the Hon. Champ Clark, newly-elected speaker of the house, brought his gavel down with a resounding whack, after several minor details had been attended to, and declared the special session of the 62nd congress in session.

Many new faces appeared on the floor of the house and many old ones were still there ready to start to work. Uncle Joe Cannon was the most noted man on the house floor belonging to the minority. Just before Speaker heartily congratulated by the ex-speaker, who wished him all the success in the world. Speaker Clark reelved an ovation

when he reached his seat and bowe and smiled his acknowledgments. The president's message to cor

gress on the Canadian agreement will be sent to the house and senate tomorrow and will be very brief. Similar scenes were enacted in called to order and the new senators

sworn in. Vice President Sherman presided and when he gazed over the body of lawmakers he surely missed some faces which have long upheld the doctrines of the Republican party and whose seats are now occupied by Democrats. Political Complexion of Congress.

The political complexion of the two branches of congress is as fol-

House-Democrats, 228; Republicans, 160; Socialist, 1; vacancies, 2the Ninth Iowa and Second Pennsylvania districts. Senate - Republicans, 50; Demo-

erats, 41; vacancy, 1-from Colorado. Instead of the 59 Republicans who occupied seats in the senate on March 4 there were only 50 today. The ranks of the minority were increased from 32 to 41 and to 42 when the vacancy in Colorado is filled. There was one death recently - the late Senator Hughes of Colorado.

DOG SAVES NOVELIST'S HOME

Fox Terrier Awakens Robert Shackleton as Fire Rages In Author's

Library. Philadelphia, April 4.—Only the persistent efforts of a pet dog to awaken his master, Robert Shackleton, the novelist, saved his residence at Meadowbrook from destruction by fire, which had originated in a library well filed with antiques, perhaps the mas-

ter's life. Mr. Shackleton is greatly attached to the dog, which is a fox terrier, and it was permitted to sleep in the house. Shortly before dawn the dog attempted to awaken his master by scratching and whining at his door. The novelist paid no attention until a half hour late, when the dog succeeded in thoroughly arousing him. Throwing open his bedroom door, he was almost overocme by the thick volume of

smoke which filled the hallways. After sending for the Jenkintown fire company, Mr. Shackleton fought his way to the library and succeeded in extinguishing the blaze before the arrival of the fire company,
