—Mr. and Mrs. W. C. Sizle, of Kellettville, desire to express heartfelt thanks to the neighbors and friends who gave them aid and sympathy in their late bereavement, the death of their twin baby boy.

—The Christian Endeavor Society will serve a tureen supper next Friday evening, April 7th, beginning at 5:30, in the basement of the Presbyterian church. The price will be set at a reasonable figure. Every one cordially invited.

—County Supt. Morrison gives notice in this issue of the coming directors' convention for the election of a Superintendent of Schools of Forest county, May 24, prox. Mr. Morrison also announces himself a candidate for re-election to the aforesaid office.

—Who says a woman has nothing to do? In one year she cooks breakfast, dinner and supper each 985 times, washes dishes 1,095 times, gets the children ready for school twice a day for 180 days, and puts the baby to sleep 1,560 times, not to mention a few other jobs.—Ex.

—Alpheus Smathers, of Brocton, N. Y., cousin of Mrs. H. E. Moody and Mrs. Joseph Morgan of this place, died in the Buffalo General hospital on the 28th ult., aged 68 years. The deceased was a native of Clarion county, and is favorably remembered by many of its citizens.

—The Nebraska W. C. T. U. was very nicely entertained at the home of Mrs. Harriet Cook, by Mrs. Cook, Mrs. Chloe Walters and Miss Wilda Thompson, at a Soldiers and Sailors meeting, March 30th. Refreshments and music were very much enjoyed by all. Mrs. Tressa Young, Press Supt.

—John E. Lyons, aged 68, for many years a well known resident of Pithole, died Monday at the home of his son, John Lyons, of Pleasantville. He is survived by four children and one brother, Wash Lyons of West Hickory. Funeral services will be conducted at the Lyons home in Pleasantville, today.

—When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from leaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

—By the firing of a shotgun several times while running to a neighbor's house which was on fire, James McLaughlin of Ten Mile Bottom succeeded in waking the family and saving them from possible cremation Friday morning. The house was H. G. Reid's and the family were barely able to escape with their lives.

—Three persons were seriously burned and two dwelling houses destroyed by fire yesterday at Mill Village, Erie county. The injured are: Ruth Wilson, aged 12; Bertha Wilson, aged 16, and Meri Wilson, aged 20. Originating in the Wilson home, the fire spread to an adjoining house, consuming both of them. The Wilson children are related to Squire Leon Watson of Kellettville.

—A deal has been completed at Erie whereby that city will have trolley connection with Pittsburg. The deal involves the sale of the trolley line from Erie to Cambridge Springs, Meadville, Conneaut Lake and Linesville. The same interests have a line from Pittsburg through to Sharon and Sharpsburg. A line is being projected up the Shenango valley from Sharon through Greenville to Linesville, which will complete the connection.

—Those who have occasion to do much overland traveling report the country roads in about as bad condition as they could well be at the present time, in some cases being well nigh impassable. The alternate freezing and thawing, rain and snow, have left ruts and mudholes hub-deep where ordinarily the roads at this season of the year would be in fair condition. In consequence of this state of affairs little or no heavy hauling is being done in this section.

—While the sudden change in the weather is anything but agreeable, yet it will have a tendency to retard the buds from starting and will prove beneficial to the fruit. The indications for an abundant crop of all kinds of fruit are most encouraging and if there are no late frosts kill the buds and blast the blossoms there will be an exceptionally good fruit year, says an exchange. In other words if all conditions are just right there'll be a heap of everything needful to mankind, for all of which we'll all be devoutly thankful.

—Lowe & Welch appear to have found a good well in their No. 3 on the County Home farm, Hickory township, which tapped the fourth sand Tuesday afternoon. The well was dry in the third sand, in which the first two wells found the oil, but after being drilled three feet into the fourth sand, has over a hundred feet of oil standing in the hole. It is in the nature of a surprise, as no operator seems to have drilled to the fourth sand here heretofore. The fourth sand oil is green and the third is amber. The sand was found forty feet below the third, and at a depth of 380 feet.

—The annual congregational meeting of the Presbyterian church will be held in the church on Thursday, Thursday, evening, and it is desired that there be a large attendance, not alone of the church members, but of all who are in anyway affiliated with or attendants upon its services as well. Reports of the treasurers of the different boards and societies will be heard, and the temporal and spiritual affairs of the church taken up and discussed. After the business matters have been disposed of a social session will be held and a reception to the new members given, this to be followed by the serving of refreshments.

—The stranger who recently secured \$25 from John Steffan, of Ludlow, representing that he could return to Steffan his son who disappeared from home a year ago this month, has been identified as the notorious Frank Barnes, alias Adam Ruth, Barnes is the man who convinced officials of both Lawrence and Venango counties that he knew who had murdered the treasurer of Lawrence county, in New Castle, and took them into Elk county to dig up the body of a mythical victim of a murder. Before swindling Steffan, Barnes attempted the same swindle upon the father of the Adams lad, near Kane, missing since the time the Steffan lad disappeared. He is in jail at Smithport awaiting trial. Ruth is nearly 50 years of age and almost the half that time has been spent behind prison walls.

—Mrs. Mary A. Carringer suffered a very painful injury in the dislocation of her left shoulder in a fall at her home on Vine street, last Thursday. Shortly before the noon hour she was engaged in sweeping the snow from the side steps, when she slipped and fell headlong from the steps, alighting on her shoulder. Dr. Bovard was called to attend her. The injury was so painful that he was obliged to administer chloroform to the patient before he could replace the dislocation. Mrs. Carringer is recovering nicely and will soon be able to be out as usual.

—The belief appears to prevail that the state will not begin to carry out the plan of new highways outlined in the Sprout bill until the proposed amendment permitting a bond issue for \$50,000,000 is made. That is not the case. Section 35 of the bill provides that the Legislatures of 1911 and 1913 shall appropriate sums sufficient to carry on the work until the \$50,000,000 is available. Existing contracts will be carried independently of the Sprout bill, and the presumption is that the highway department will continue the work of road improvement throughout the commonwealth under existing laws until the new Sprout law becomes effective.

—The good roads train, operated jointly by the Pennsylvania railroad, and the Pennsylvania state college and the United States office of public roads, has completed its two months schedule. Statistics kept by the lecturers who were with the train show the great public interest that was manifested in it, and from these too, is deduced an appreciation of the great good done by the train. During the tour the gospel of good roads was spread to 52,842 persons. Many of these were interested in the construction of better highways in the Keystone state. The trip consumed sixty days and the average was four lectures a day. The biggest crowd of the trip was at New Bethlehem, where 900 people visited the special.

—Hon. J. A. Schofield argued in favor of the \$50,000,000 Sprout Good Roads Bill recently and in addition to the road from Warren to Kane, via Sheffield the following were added to the bill: Road from Rogers' Mill leading to Bradford via Kintz and Cornplanter; new road down Tionesta creek into Forest county, from Sheffield to connect with the state road running from Marleville to Tionesta. There has been no change made in the road leading to Kane from Warren via Sheffield.—Warren Times.

—No good roads project would be complete that did not include a highway along the Tionesta creek, at once the most beautiful and picturesque valley on the continent, a forty-mile driveway which could easily be made a veritable poem in sublimity and grandeur.

—Speaking of the Amann murder mystery, the Warren Times of last evening gives this much as the result of an interview with Thomas C. Cochran, a Mercer attorney who has been retained in the case: "When questioned as to whether they were not waiting for a missing witness, Mr. Cochran replied that they were following up several lines of evidence and that it was his belief that an arrest could be made within the next two or three weeks, but he did not know definitely. He further stated that in some murder cases where the evidence was apparent, an arrest could be made at once, but in the Amann case he could not state the length of time it would take. When asked as to whether the suspected man could get away, he replied that the suspect was just as safe as if he were behind the bars. He further stated that the case was progressing nicely and that in his opinion everything was being done that possibly could be to bring the murderer to justice."

—An item on the weather is never out of season, so here's what Bro. Foster says will happen next: "Next disturbance will reach Pacific coast about April 8, cross Pacific slope by close of 9, great central valleys 10 to 12, eastern section 13. Warm wave will cross Pacific slope about April 8, great central valley 10, eastern section 12. Cool wave will cross Pacific slope about April 11, great central valleys 13, eastern sections 15. This will be one of the most important disturbances of the season because it will inaugurate a splendid period of crop weather. Excessive rains will, to a large extent, cease and warm, growing weather that will make the farmers' pulse beat with regularity, will come in and hold good for most of the month. The cool wave preceding this storm will go near the front line in northern sections, following which a high temperature wave will cross continent. As that warm wave nears eastern sections the storm forces will increase and weather features become more marked. The cool wave following will be moderate"

#### Forest County's Fine Timber.

Wheeler & Dusenbury, of Endeavor, this county, are now loading an order of old growth white pine timber for England. The order calls for 713 sticks and will require 55 cars to transport the same to Quebec, where it will be transferred to an ocean vessel going direct to Liverpool. Without doubt this is the finest lot of soft cork pine ever sent out from this region. For several years this old firm has been filling orders for export timber, shipment being made early in the spring. Timber of such large size and fine grade, moving on flat cars, is a grand sight, and shows the original white pine is not quite exhausted in Pennsylvania yet.

#### Basket Ball.

The Oil City Y. M. C. A. team sprung an "April fool" surprise on us a few hours ahead of time last Friday evening, when they defeated the Tionesta Athletics on the local floor by a score of 35 to 19. The visitors outweighed and outplayed us and that's about the best excuse we can conjure up for our defeat. Tionesta led them for a time in the first half but the visitors overtook us and ended the half in the lead, the score standing 17 to 13. In the second half they left us far in the rear by better all round team work. The game was fast and clean. The line-up:

Tionesta—19 Ande.....RF.....Weaver Magee.....LF.....Lawrence Boyer, J. Harper.....C.....Blum, Craig S. Harper, Boyer.....LG.....Campbell

Field goals—Weaver 1, Lawrence 5, Flick 2, Magee 3, Boyer 4, J. Harper 2, S. Harper 2, Cohen 3. Free goals—Weaver 3 out of 7, Flick 0 out of 1, Ande 7 out of 8. Referee—W. H. Nicholson, Oil City. Umpire—R. J. Hopkins, Tionesta. Scorekeeper—J. H. Kelly. Time, two 20 minute halves.

### PERSONAL.

—Perry Beringer, of Bullion, Pa., was a guest of his sister, Mrs. Harry H. Craig, over Sunday.

—Mrs. Alice Swanson and Miss Emma Arner are spending the week with friends in Jamestown, N. Y.

—Mr. and Mrs. A. M. Douth and daughter Genevieve returned Monday from Florida where they spent the winter.

—Miss Louie Foreman and Beulah Clark spent Sunday in Oil City as guests of the former's sister, Mrs. Roy Plimpton.

—Z. S. Himes of Jenks township is this week announced as a candidate for County Commissioner, subject to Republican usages.

—Fred. W. Infield a former well known resident of Tionesta, was here a few hours yesterday and met many old friends. He is now located at Mt. Jewett, Pa., and is traveling in the interest of Dorries & Co., a Buffalo firm engaged in the manufacture of harness and saddlery.

—Dr. Glenn Henry, who will be one of the graduates from the medical department of the University of Pennsylvania this spring, was operated upon Tuesday last week at the hospital for appendicitis. His parents have word from him that he is recovering nicely and will be able to continue his studies in a short time.

—The young men of the high school planned and carried out a very enjoyable surprise party on Prof. F. W. Gill at his home Saturday evening. Not to be outdone, the young ladies counted themselves in on that party and the popular professor was given a "real surprise." The young people brought elegant refreshments as they came and these added a pleasing feature to the evening's enjoyment.

—Mrs. M. E. Abbott and son Ellison, of East Hickory, were guests of Mrs. L. J. Hopkins, Friday and Saturday. They are now visiting the former's sister, Mrs. Herman Blum, on German Hill. Mrs. Abbott and children will return to Tionesta for the summer at least and will make their home with her parents, Mr. and Mrs. H. W. Ledebur. Mr. Abbott has gone to Tarentum, Pa., where he will have charge of a new grocery store for Wilson George.

—Hon. A. R. Meehling was over from Clarington last Friday meeting old friends and attending to business matters. The Bonny Brook Oil Co., of which he is the head, has begun operations at their factory located at Ridgway, and are returning out all kinds of lubricants for every sort of machinery from the ordinary sewing machine to the ponderous locomotive, and they expect to have a large sale for their product throughout this section up to the simple score of merit.

—Ex-Congressman Wheeler, who has been enjoying the quiet of his pleasant home and the genial companionship of old friends at Endeavor since the 4th of March, and incidentally nursing an attack of sciatica, was a business visitor at the county capital yesterday. By-the-way, Mr. Wheeler has taken on grandpa airs since the 28th ult., owing to the birth of a nine-pound daughter to Mr. and Mrs. Allen Farley of Rochester, N. Y. Mrs. Wheeler has gone to make a visit to the new granddaughter.

#### Smokey Hill Picnic.

A very pleasant day was spent at the Smokey Hill school Friday, March 31st, it being the last day of the term, when the neighbors and friends gathered with well filled baskets. After each one had done his or her duty at the two long tables laden with good things to eat, the remainder of the day was spent in songs and recitations by the school. All enjoyed the many games which were played. Those present were as follows: Willie Wolfe, of Johnstown, Pearl, Fern and Forest Byers, Homer Brumbaugh, of Shriver, Mary, Joe and Mr. McWilliams, Bonnie George, Alice, Minnie and Grace Wagner, Harold, Roy, Howard, Forest, Nora and Mrs. Ida Mong, John, Myrtle and Preston Mong, Gladys, Allen, Lloyd and Mrs. G. Wentworth and son William, Mr. and Mrs. Jesse Carson, Mr. and Mrs. J. O. Harger, Dan Wilis, Jennie Thomas, Mr. and Mrs. Robert Mealy and son, Alice Hyde, Mr. and Mrs. E. Fox and three daughters, Mr. and Mrs. Charles Walter and daughter Ethel, all of Smokey Hill. Besides the sixty-six guests, there were fourteen pupils and the teacher, Miss Augusta Korb.

### Whig Hill.

Charles Kiffer is this week moving his household goods to East Hickory. Charley will bid the old farm adieu for a time at least.

Among the visitors of recent date on our hill are Mr. and Mrs. C. Tilden, of New Castle. The latter was formerly Miss Estella Ward. They arrived Monday evening for a few weeks' visit with Mrs. T.'s parents, Mr. and Mrs. Green Ward.

Mrs. T. P. Flynn and daughter Dorothea, of Newmansville, are spending a week at the home of Mrs. Berlin, during the latter's absence at Pittsburg and Coraopolis.

Clean up the door yards and premises? We would say yes! And yet some think that "over the fence is out," and so it goes. But the contents of the garbage heap and the barrel as well make excellent bonfire timber and ashes are a fine fertilizer, therefore the advice so often given, but often unheeded is, consign the contents of such to the flames and do justice to lawn and the highway as well.

Something in the nature of and often called "April fool" was pulled off on the people of this vicinity on Saturday morning, April 1st, when the U. S. mail carrier arrived almost minus the mail. We find to our amazement our boxes empty, but let us be hoping for better things in the future.

#### Whose Seeds Do We Sell?

This is a leading question, but it is so often asked that we are glad that all should know: After years of experimenting we have made selections that include only the most desirable varieties of Garden Seeds grown. No one seed house supplies all of these varieties, hence we gather our collection from the different growers who are able to furnish us just what we want, of seeds that will grow. A number of varieties are grown in this neighborhood by people who have grown seed for us for years. Box seed includes everything the seed grower chooses to send out. Our seeds are only the choicest varieties. H. C. MAPES.
