The Spring Fashion Show.

While the "Formal Show Days" of Fashion ended last Saturday, it is really only the beginning of the Spring Fashion Show—for the nearer we get to Easter the greater your interest in the style fancies. There is much to see in all the things that go to complete a woman's wardrobe and the price range is sufficiently broad to accommodate all sizes of purse.

Be Sure and See the Suits, Gowns and Dresses.

So many and varied are the styles that description here is wholly out of the question. We have purposely avoided getting into many of the extreme things, or those that do not seem practical. But there is not a new style omitted, or a coloring that will not be fashionable and much worn. There is a splendid assortment of suits at \$15, \$18, \$25 and \$35—there are more exclusive ones at \$45, \$50 and so on. And so it is with the dresses. Some of the simple things are the prettiest and in many instances the least expensive.

Be Sure and See the Millinery.

The New York milliners supply us with many hats, some copies of foreign models and some original designs of their own. Then our own expert milliners contribute largely to the display—to see the hats side by side you are apt to pick our own first. It is merely a matter of choice and preference.

There are very pretty hats at \$5 and \$7.50, much handsome ones at \$10 and \$12.50; finer ones still, for more. But in every instance you'll find the millinery here distinctive in character and exceptionally reasonable in cost.

WHO IS THE F. S. ROYSTER GUANO COMPANY?

The F. S. Royster Guano Company is the largest independent manufacturer of Fertilizers in the United States.

The business was founded twenty-seven years ago by Mr. F. S. Royster, who is still at the head of the Company, and gives the business his personal attention. It requires eight large factories to supply the demand for Royster goods in the South alone.

Being desirous of extending our territory, we have built in Baltimore one of the largest and most modern fertilizer and Sulphuric Acid plants in existence.

Ask your dealer for ROYSTER goods and see that the trade-mark is on every bag. If he does not handle them, write and give us his name and we will arrange with him, or some one else, to supply you.
