Tailored Suits and Gowns.

Exquisite models just arrived give us the best array of moderate priced suits we have ever shown. Noticeable are the wide braid effects at bottom of coats and used as bands on skirts. Skirts are the popular one and three-quarter and two-yard lengths, although we have them two and three-quarter yards. All are semi-fitted and lined with a superior quality satin. These are without doubt the smartest styles at the prices shown.

Beautiful Gowns of Voile and Marquessette.

These dresses have created a real furore. The styles are those that are usually found in gowns of much higher price, and are really remarkable values at the prices quoted. Do not fail to see them if you want a gown that has all the characteristics of high quality and yet costs comparatively little.

Girls' Charming Confirmation Dresses.

It is no idle boast when we declare that nowhere else in this vicinity can you find such a vast variety of these most exquisite dresses, or so many beautiful styles from which to choose. The prices are remarkably reasonable. It surely does not pay to make them up.

A Silk Sale that Will Set Women's Tongues Awagging.

In the daily papers this week we will give you the particulars of a truly remarkable sale of silks. Watch for them. Exactly 2,500 yards are now on the way to us, this quantity representing our share of the largest and most surprising silk deal brought about in the New York market this year, and by the syndicate of which we are members.

P. S.—This sale begins today, Wednesday, 35 pieces of Genuine Talma Silk, 25 different shades, the retail price of which has always been \$1.35 yard. Manufacturer was forced to unload and we are enabled to offer them at 59c. Don't miss this rare event. Send for samples if you cannot attend.

Doing Very Well.

"How's your son making out in business?" asked the first capitalist.
"Very well, indeed," replied the other; "he's got a quarter of a million."
"Why, you started him with a million, didn't you?"
"Yes, and it's two months now since he started operations in Wall street."

Too many to count them. But you could tell every one of them in the Easter procession. The clothes they wore looked different and better.

The Gospel of Doing Right.

The average man is never looking for something for nothing. He usually wants just a square deal and is satisfied. The man who trades here for his wearables is the man who don't want and won't stand imposition. He won't trifle and don't want to be trifled with. With this knowledge in our possession, gained after many years of personal services to men, we endeavor and are succeeding in pleasing a great many men who heretofore have been getting only the bit or miss kind of clothes satisfaction. We want to thank, with all sincerity, the great many customers who favored us with their Easter patronage. We assure them now, as we did at the time of purchase, that they have the best values for their money obtainable, and we stand ready and willing to refund the money if for any reason they are not satisfied.

WHO IS THE F. S. ROYSTER GUANO COMPANY?

TRADE MARK **F.S.R.** REGISTERED

The F. S. Royster Guano Company is the largest independent manufacturer of Fertilizers in the United States. The business was founded twenty-seven years ago by Mr. F. S. Royster, who is still at the head of the Company, and gives the business his personal attention. It requires eight large Factories to supply the demand for Royster goods in the South alone. Being desirous of extending our territory, we have built in Baltimore one of the largest and most modern fertilizer and Sulphuric Acid plants in existence. Ask your dealer for ROYSTER goods and see that the trade-mark is on every bag. If he does not handle them, write and give us his name and we will arrange with him, or some one else, to supply you.

WAY TO STOP JAP WAR TALK

Grant the Philippines Independence, Says Prominent Filipino.

Washington, April 18. — "The best way for the United States to stop discussion of the probability of war with Japan is to grant immediate independence to the Philippines, the weak spot in Uncle Sam's military strength" was the reply of Manuel L. Quezon resident commissioner of the Philippine Islands to the United States, when questioned in regard to the Japanese war talk.

"No country on earth," continued Mr. Quezon, "would dare to provoke the United States into war if it did not have this outlying dependency in the Far East. All naval authorities agree that the United States could not hold the Philippines safe from invasion by Japan."

Mr. Quezon was asked if he had hopes of independence from the Democratic party.

"Yes," he answered, "because in the last three national platforms the Democratic party pledged itself to take some definite step looking towards the granting of independence to the Philippines."

The Hardest Thing.
"What's the hardest thing about roller skating when you're learning?" asked a hesitating young man of the instructor at a rink.
"The floor," answered the attendant.
