Serge Suits In Splendid Style Assortments.

Suit and fabric displays this season have emphasized serges and their popularity is unquestioned.

Today "serge" is a great deal broader term than it was a few years ago. When we say "serge suits" we are not drawing a circle around a handful of garments each like every other as to materials and their only difference being in color and fashioning. Serges vary all the way from the fine smooth diagonals to the heavy rough corded effects.

So when we ask you to see the splendid collection of serge suits at \$15 to \$35, it is not a limited aggregation by any means, but a showing of all that is wanted in a practical, wearable street costume.

Many New Ideas in Millinery.

As the season advances the styles grow more summery. Every day brings many additions to the collection—and they disappear quickly—for the product of our work room this season is much sought after. Very pretty street hats are here at \$4, \$5 and \$7, all of them more or less distinctive in character and out of the commonplace in style. Dressy hats, too, any number them.

Making Skirts to Your Measure, \$1.50.

Walking Skirts to your own individual measurement is about the most popular feature of our dress goods store these days. It's as simple as A, B, C. All you have to do is select any piece of dress goods in our stock priced at \$1 or over. We take your measurements and in about two weeks' time your skirt comes back, perfect in fit and style. This offer can only hold good a few weeks more.

VALUE.

What It Is and How to Get It.

When you lay down a dollar for a Shirt, it's wrong TO THINK that you have made a satisfactory trade. IT'S RIGHT TO BE SURE OF IT.—There is only one way to convince yourself, that is by comparisons. You may feel that you don't know enough about merchandise and to take the dealer's word for it. That method is all right. But in order to be sure, why not compare what each dealer offers, and buy where the values are best. You won't need to know much about merchandise to distinguish our values from those offered elsewhere. In any test on any article we know of, on the question of value, our merchandise is unbeatable. A great many Oil City people are finding it out every day.

By the Way,

If you are going to stock up on Shirts for the Summer, now is the time to do it and this is the store to do it safely.

HUSBAND MURDERED

Young Wife Takes Carboic Acid a Few Hours After She Is Widowed.

Elmira, N. Y., May 9.—Enraged when William Milard struck him in the face during a quarrel in the saloon of H. W. Paakau last night, John Nowak hurried to his boarding house, got a revolver and, returning to the saloon, shot Milard through the heart. He then went back to his boarding house and called up the police by telephone, announcing his readiness to be taken to jail.

Milard was 23 years old, and lived with his young wife, whom he married a year ago. Mrs. Milard was distracted by the news of her husband's death, and her despondency increased. She went to her room and drank carboic acid and was found dead soon afterward.

Nowak told the police that he shot Milard for having struck him. He showed a bruised mouth, which he laid to Milard's blow. Nowak, who speaks five languages, came here from Chicago two years ago.

TO BREED STINGLESS BEES

Will Produce Three Times as Much Honey, if Professor Gates Realizes Hope.

Boston, May, 9.—To produce a bee that will not sting and that at the same time will be twice or three times as industrious as the bee today, is one of the most important problems to be met by the new Bee Keeping bureau of the Massachusetts agricultural college at Amherst.

Professor Burton N. Gates, state inspector of apiaries, is in charge of the work.

"We find on the Island of Cyprus an exceptionally irritable and vicious bee," said Professor Gates. In the Russian Caucasus there is a bee that is very gentle. As to the possibility of finding the ideal in the Russian bee I cannot say, because its comparative productiveness has not been determined.

"Still I think some day we will breed bees that will be great honey or wax producers and at the same time be gentle and stingless."

WEALTHY MAN SAYS WOMEN SUITORS ONLY WANT MONEY.

Canton, O., May 9.—Samuel Rudy, a wealthy bachelor, aged 86, who gave \$1,000 each to 12 young women employed at the courthouse for little favors shown him, said yesterday in discussing letters from women offering him their hearts and hands. "No wedding bells for me."

"I guess they want my money," chuckled the octogenarian at the courthouse, where he was called by the suit of a niece, Letitia Rudy, who has sued him for \$9,000, claiming pay for services rendered him during the last 19 years.

"Why, I never heard of any of the women who want to marry me, and I won't exchange pictures with them, either."

Rudy has received more than 200 tender missives, which came from nearly every state in the Union.

WOOL QUESTION IS PESTERING DEMOCRATS

Ways and Means Committee May Report Free Wool Bill.

Washington, May 9.—The wool question is still pestering the Democratic side of the house. It seems possible now that the ways and means Democrats may decide to report out a bill providing for free raw wool despite the opposition of Speaker Clark, Majority Leader Underwood and their followers and there is much worry in consequence.

The existing wool tariff brings in about \$40,000,000 a year and the responsible Democrats of the house are scratching their heads over what will happen if the free wool bill is reported and passed without some provisions being made for an augmented income from other sources.

When the Democrats of the New York delegation met in the rooms of the foreign committee of which Representative Sulzer is chairman, they very soon discovered an overwhelming sentiment for free wool. Only four representatives, Ferrer, Ayres, Connell and Underhill opposed the proposition. They did so after declaring themselves in favor of a 50 per cent cut in the import rates on the raw material and an equal or even greater cut in duties on the manufactured product.

Mr. Underwood, when seen last night, would not admit that a free wool bill would be reported. He did acknowledge, however, that there was a preponderance of sentiment on his side of the house for free wool. The New Jersey Democrats also censured and voted unanimously for free wool.

CIRCUS JOB DENIED, SHE DIES

Girl Apples After Sunday School Then Exds Life.

Charleroi, Pa., May 9.—Sarah Ague, 8 years old, ended her life by jumping into the Monongahela river yesterday because the manager of the Hatch Carnival company refused her a position and told her to go back to her parents in Monessen, just across the river.

Before going to see the manager Miss Ague had attended the Christian Church Sunday school. Her father, James Ague, is a teacher there. According to Mr. Ague, the girl had been at home every night last week, when the carnival company played in Charleroi.

Dresses of Linen, Linene, Madras, Percale, Voile and Swiss.

Revealing the wonderful progress of woman's wash dresses and the state of perfection attained—viewed ever so critically and by the most exacting it is at once apparent that no slightest essential of perfect dress is lacking in these dresses.

If it is possible to arrive at a state of faultless construction in "ready to wear dresses," the dresses shown here at prices quoted may be classed as such. Now we expect you to submit these dresses to the most careful scrutiny, particularly with reference to the little details you would insist on in a dress made to your order. These dresses were bought with the knowledge that to sell them would require that they meet with the approval of the most discriminating.

Confident that they will and that insures quick sale of these dresses.

WHY WE ADVERTISE IN THE NEWSPAPERS

Because we want you to know of the class of work turned out in our establishment.

Because we cater to the intelligent class and they read the papers.

Because we can talk to more people through the newspapers, at a greater distance, in less time and at a more reasonable price than in any other way.

Because newspaper advertising brings the best results when placed in a first-class medium.

Because we know it is seen and read by almost everyone in the house where the paper goes.
