**County Surveyor.**  
The public is informed that it costs three and a half million dollars a day to run the American government, but it is worth the money.—Punxsutawney Spirit.

**County Surveyor.**  
LORIMERISM is a disgrace to the state of Illinois and it must be uprooted even though the action hurts the beef trust and the feelings of some prominent business men.

**County Surveyor.**  
Close to \$900,000 will be distributed to townships of Pennsylvania within the next month in payment of the allowance which the state makes to those which abolish the work tax on roads under the terms of the act of 1907. The warrants are now being drawn at the state highway department, the money being made available by Governor Tener's approval of the bill carrying that sum a week ago.

**County Surveyor.**  
A new law that will be of interest to tax collectors has been signed by Governor Tener. It permits tax collectors to collect taxes for the payment of which they have become personally liable by not collecting the same before the expiration of the authority of their respective warrants or terms. The time for the collection is extended for two years from the date of approving the bill, which was Friday, March 31. If the collector is dead, his executor or administrator can make the collection, or if the collector's surety has paid the taxes the surety can make the collection.

**County Surveyor.**  
On Monday Chief Justice White handed down the decision of the Supreme Court of the United States in the case against the Standard Oil Company of New Jersey holding it to be a combination in violation of the Sherman anti-trust law and ordering its dissolution within six months. The decision is simply this: That the Standard Oil Company is a monopoly in restraint of trade. That the corporation must be dissolved within six months. Other great corporations whose acts may be called into question will be dealt with according to the merits of their particular cases. The court was unanimous in its decision favoring the government's contention, and a great victory is won for the people. The Standard must reorganize, and what the form of reorganization will be cannot now be conjectured, certain it is, however, that it must be short of all monopolistic features.

**Senator Burton** is again to the front with that silly resolution of his to prohibit the further use of Niagara Falls as a generator of electric power, on the ground that its scenic beauty is diminished. It has been shown by actual experiment that all the water that is now diverted from the Falls does not decrease the amount of water that goes over the cataract by a single inch. Twice as much more water used for power purposes would not be noticeable to the naked eye. To neglect to use the forces of nature to cheapen the necessities of life is more than folly—it is a crime. Senator Burton's effort to stop the wheels of progress should meet the fate it deserves. It should be treated as a joke, and a mighty poor one at that.—Punxy Spirit.

A BILL which has already passed the lower house at Harrisburg, should it become a law, will do away with constables going to county seats at the opening of each criminal court. The measure provides that it shall be the duty of the constables to make their returns to the district attorney of the county and make it just as soon as they have any knowledge that the law is being disobeyed. This will not only save the county a snug sum of money each year, as it cuts off the days pay and mileage, but it enables the district attorney to get evidence on matters that are reported at once, investigate the cases, and the matter can be brought up at the next term of court. The bill looks innocent enough and might be a money saver in some respects, but whether the average constable would be as vigilant in ferreting out wrongdoing under it, or whether it is not intended to aid the violator in his nefarious business, is questionable. As a rule it works better when the court interviews the constables direct, getting a better idea of what's doing in the way of observance or disobedience of the state's statutes.

**GOVERNOR TENER** has in his hands the Watson bill, which after a full and thorough discussion has passed both branches of the state legislature. This measure amends the state vaccination law in an important aspect. It provides that certificates of successful vaccination or previously having had smallpox or that the child's physical condition will not permit of successful vaccination, shall not be required in any locality in this commonwealth, when smallpox is not known to exist in the said locality. This begins to sound more like a sensible noise than any legislation in Pennsylvania previously attempted upon the subject. It admits children to the public schools with no question concerning vaccination unless smallpox is known to exist in the locality. It would mean in effect that in practically all school districts of Pennsylvania compulsory vaccination would be abolished and the precaution of vaccination required only when the disease actually existed in a community. The slaughter of the innocents by means of impure vaccine and careless surgical work has gone far enough in Pennsylvania. The bill was passed after a very careful consideration by the general assembly. It should receive the signature of the governor and become effective immediately.—Titusville Herald.

**Buy-at-Home Argument.**

The retail merchants of Charleston, South Carolina, in waging an educational campaign, issued a buy-at-home propaganda as follows:

- "BUY AT HOME"
- Because my interests are here.
- Because the community that is good enough for me to live in is good enough for me to buy in.
- Because I believe in transacting business with my friends.
- Because I want to see the goods.
- Because I want to get what I buy when I pay for it.
- Because my home dealer "carries" me when I run short.
- Because every dollar I spend at home stays at home and works for the welfare of Charleston.
- Because the man I buy from stands back of the goods.
- Because I sell what I produce here at home.
- Because the man I buy from pays his part of the town, county and state taxes.
- Because the man I buy from gives value received always.
- Because the man I buy from helps support my school, my church, my lodge, my home.
- Because when ill luck, misfortune or bereavement comes, the man I buy from is here with the kindly greetings, his words of cheer, and his pocketbook, if needs be.
- Here I live and here I buy.—Exchange.

**Mayburg.**

Carry Dale of Franklin, visited her sister, Mrs. Ward Boyd, a few days last week.  
Mrs. Wayne Harriger and son Ralph of Millstone, who were visiting the former's parents, Mr. and Mrs. Wm. Richards, returned home Saturday.

—Is there anything in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood. When the digestion fails the whole body suffers. Chamberlain's Tablets are a rational and reliable cure for indigestion. They increase the flow of bile, purify the blood, strengthen the stomach, and tone up the whole digestive apparatus to a natural and healthy action. For sale by all dealers.

—S. J. Wolcott property for sale, on Elm street, Tionesta. Ten-room house, good cellar, modern in every respect. Good barn and lots of nice fruit. Call on Mrs. Alice J. Shriver. Terms reasonable.

**Barnes a Joker.**

The Bradford Star-Record is responsible for the following story: "Frank Barnes, alias Roth, alias Conley and several other names, was recently arrested in Sheffield and taken to the county jail at Smethport, where he received a penitentiary sentence. Barnes is a noted crook. He was escorted to Smethport by a constable of that thriving borough. The officer did not propose taking any chances with Barnes and dug out a pair of strong, steel handcuffs. One was locked upon the wrist of the gent of many names and then the constable looked one of his wrists in the other end. 'I guess you won't get away now,' said the town constable, as he glared fiercely at his prisoner. The trip was made to Smethport by the constable and Barnes without incident. They were as closely fastened as the Siamese twins and Barnes made no effort to sever the tie. When the jail was reached the constable searched himself and found he had lost the key to the handcuffs. 'Come to the village blacksmith,' he said to his prisoner. 'Allow me,' snarled remarked Barnes, as he easily slipped his hand through the handcuff and left it dangling from the constable's wrist. The peace officer was never so astonished in his life and lost no time in seeing that his dangerous prisoner was placed safely behind the bars."

Some apprehension is felt on account of the forest fires which seem to be raging all around us, but as yet it is not close enough to cause one to worry.  
Miss Dona Bean of Beaver Valley and Miss Bertha Rudolph of Whig Hill were guests of Kathryn Kiffer last week.  
Elmer Berlin and Ellis Bean were Titusville visitors Saturday.  
Elva Kiffer has moved his family from Whig Hill to this place. Welcome, "Bill," we are glad to have you among us again.

Karl Range called at the home of Mr. Hunter, at Beaver Valley, Saturday evening. How is it, Karl, was it business or pleasure?  
Samuel Gilbreath spent Sunday with his family at Whig Hill.

Arthur Rudolph was a guest at his brother's home at Endeavor over the Sabbath.  
Mr. and Mrs. Archie Pettigrew and two children are spending a few days at East Hickory.

Mrs. John McCullough, who has been visiting her parents at Franklin for a few weeks, returned home Saturday, accompanied by her son Preston.  
Roy Matha was called to Kane on business, Monday.

Mr. and Mrs. R. B. Kiffer and son Vane visited Mr. K.'s parents, Mr. and Mrs. Selden Kiffer, at Beaver Valley, Sunday.

We are sorry to learn that our friend Earle Berlin is having such poor luck with his poultry. Only three "biddies" out of two hatches. Too bad, Earle, but it takes lots of grit to become a successful poultry fancier, for the road has many ups and downs. Keep a stiff upper lip and "try, try again."

John Matha has returned from a visit with his daughter, Mrs. Ed Rudolph.  
Noddie Price was a Mayburg visitor Saturday and brought down his friend, Miss Myrtle Mealy, for a short visit with her parents.

**Whig Hill.**

John Berlin visited over the Sabbath at the home of his daughter, Mrs. Chas. Hoover, of Gollina.

Mrs. C. Catlin and two children of Marienville are spending a few days on the hill.  
Mrs. C. Paul of Newtown is with her daughter, Mrs. Wm. Emert, for a week's visit.

The funeral of the late Raymond Graham of Kellettsville was held here on Tuesday afternoon. A large concourse of friends and relatives was present.  
Joseph Wortzkey was in West Hickory on business, Monday.

Mr. and Mrs. Joseph Wortzkey had a very narrow escape and miraculously escaped being killed a week ago, when their house was struck by lightning. They were sitting in the kitchen when the shock occurred. The brick chimney was torn entirely off and other damage done.

We learn of numerous fast spreading forest fires at and near Kellettsville. All is being done to keep them under control, but with little success, it being so extremely dry.

**ANOTHER CORRESPONDENT.**

Farmers are planting corn and hustling in all ways to get their spring work done, as it is growing late and seeds of all kinds ought to be in the ground. The ground seems to be cold and spring is backward. We had a hard frost Sunday morning, but don't know if pears, cherries or plums were hurt or not. Already the trees are groaning beneath their load of blossoms and if Jack Frost will just move away and nothing else sets in, we will have an abundance of fruit and lots of cider this fall with which to tickle the palates of our good people.

Will Watson has moved to Kellettsville, where he will have employment.  
Mrs. Amanda Harrington has moved from our midst to other quarters.  
A family has moved on the Clair Catlin farm, now owned by J. C. Miller of Kellettsville.

John Taft and family of East Hickory were visiting Mrs. Taft's parents, Mr. and Mrs. Joseph Wortzkey, last week.  
Delbert Decker of Tionesta is home helping his father plant his corn this week. He will return Monday evening to resume his studies at the Tionesta summer school.

The forest fires are raging all around us and reports come from across the creek that two dwelling houses have been burned. It does seem that people ought to be careful about fire, but as much as has been said and done, some will still persist in their carelessness or devilishness to make people trouble. We don't understand it, unless they expect to get ready for the great fire in the next world.

A fire was set by a man not long ago here on the hill. We understand he went off to church and just "let her flicker" and as a result a train load of about forty people from Endeavor had to come to our help or no doubt what standing timber left in Rose Run would be a thing of the past and Whig Hill would have received a scorching. Again we say, boys be careful!

Sick headache results from a disordered condition of the stomach, and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

**WOMEN UNRAPE STATUES**

Harrisburg Mob Tears Down Tents Shielding Mr. Barnard's Work From the Public.

Harrisburg, May 16.—Many women, aided by a few men, yesterday ripped into strips the tents which protect the nude statues of George Gray Barnard from the elements while the workmen are putting on the finishing touches.

The massive statues, upon which the sculptor spent several years and which have caused much discussion, are at the entrance of the new State Capitol.

When they were shipped to this country they were Mr. Barnard's conception of the perfect man and child. There was a great outcry and as a result huge blotches of plaster of paris clothing were placed upon the figures. They made the masterpieces of the sculptor look like cheap clay daubs by some amateur.

Recently Mr. Barnard came to Harrisburg, and after declaring that the American public was too whimsical to take art for art's sake devised a plan to clothe his figures and still have them retain some of their original beauty. The clothing probably will consist of vines or leaves.

Workmen erected tents around the massive groups Friday and removed the plaster clothing. It became noised about the city that any person who wished to see the masterpieces in their original form would have to do so immediately, as the reclothing process was to start today.

The city was filled with visitors as the result of the visit of President Taft, and they made their way to Capitol Hill. When some of the women saw the tents which protected the statues from the gaze of the multitude they attacked the canvas. Not only they, but almost every other person in Harrisburg, saw the groups as Mr. Barnard had originally intended them.

Hoffstot on Trial For Bribery.  
Pittsburg, May 16.—Frank N. Hoffstot of New York, the millionaire banker and car manufacturer, was placed on trial in criminal court yesterday on a charge of bribery, growing out of the councilman graft investigation. He was tried on a charge of conspiracy last week and the jury disagreed.

**WHEN YOU GET TO THE ROOF ON THE NEW BARN INSIST ON Amalite**

A little problem in arithmetic will always settle the roofing question for both new and old buildings.

First—If your roofing costs 2c. a square foot and to paint it costs 1c. per square foot, how much does your roofing cost you in ten years?

Second—If Amalite costs you 2c. a square foot or less and you won't have to paint it at all, how much does an Amalite Roof cost you?

Just compare the prices of painted roofing with Amalite, taking into consideration the fact that you must paint the old-fashioned roofs every two years, while Amalite with its mineral surface needs no painting at all. You will find

that Amalite is so much more economical that you cannot afford to buy anything else.

Amalite is rapidly replacing painted roofings. Most of the manufacturers of painted roofings are trying to imitate the Amalite mineral surface. The time will come when nobody will think of buying ready roofings that need regular painting. They will insist on having Amalite, which thus far is the only successful well-proven mineral surface no-paint roofing.

Amalite costs no more than the other kinds; it is just as easy to lay. Nails and cement are supplied free. We will send you a sample of Amalite with booklet free on request.

**Everjet Elastic Paint** Low in price. Great in durability. Invaluable about the farm for prolonging the life of ready roofings, fences, iron work, machinery, tanks, etc.
