For the first time in the history of the service, it is said, the deficit in the post-office department has been entirely wiped out and \$1,000,000 surplus for the current fiscal year, ending June 30 next, is in the treasury to the department's credit.

HON. PETER M. SPEER, member of congress from this district, says the Ridgway Record, on the 18th inst., introduced a bill appropriating not more than \$75,000 for the erection of a building at Ridgway for the accommodation of the postoffice and other government offices.

The lot owned by the government of the United States is situated at the northwest corner of Center and Mill streets. Mr. Speer proposes to push the matter lively, although he may not be able to get it through at the special session. However, it will probably go through next winter and next summer Ridgway should look for a new Federal building.

THE Pennsylvania legislature which adjourned last Thursday left 700 or more bills in the hands of Gov. Tener which he has thirty days to consider. Most of these being appropriation bills which were passed the day before being finally passed the day before.

Something About New School Code. The following features of the new school code apply to country school districts, which come under the head of fourth class districts:

The annual district reports and certificate and affidavits to be forwarded to the county superintendent, who will approve the same

and forward to the department of public instruction.

"At this meeting on the first Monday in June, or within ten days, the several school boards shall reorganize by electing a president, secretary and treasurer to continue until the organization of the new school board on the first Monday in December, 1911.

"All directors whose terms would expire on first Monday in June, 1911, will continue in office until first Monday of December, 1911.

"Under the new code the election of directors will be as follows in all fourth class districts:

"In each school district of the fourth class there shall be five school directors elected at large at the municipal election held in November, 1911, in the following manner, two directors for two years, two for four years, and one for six years. Thereafter they shall be elected as follows. At each of the first two municipal elections, two school directors shall be elected at the third municipal election, one shall be elected. All for terms of six years. Their terms of office shall begin on the first Monday of December following their election.

"Municipal elections will occur in odd numbered years.

The board of school directors in each district shall, when they are not otherwise provided, purchase a United States flag, flagstaff and the necessary appliances therefor and shall display said flag upon or near each public school building in clement weather during school hours and at such other times as the said board may determine.

No teacher shall be employed in this commonwealth by any board of school directors who is related to any member of the board as father, mother, brother, sister, husband, wife, son, daughter, step son, step daughter, grandchild, nephew, niece, first cousin, sister in law, brother in law, uncle or aunt unless such teacher receives the affirmative vote of three fourths of all the members of the board.

The minimum salary of teachers as herein before fixed shall be increased from fifty to fifty-five dollars and from forty to forty-five dollars per month; provided the General Assembly increases the appropriation for public schools to provide necessary funds for such increase in minimum salaries under the provisions of this act.

The provision which applies to the granting of professional certificates is as follows: Teachers in the public schools who have taught successfully under the supervision of any county superintendent in this commonwealth for not less than two full school terms and who have in the examinations of such county superintendent for a professional certificate passed a thorough examination in the branches of study required for a provisional certificate as well as in any two of the following subjects, namely, vocal music, drawing, English literature, plane geometry, general history, physical geography, elementary botany, elementary zoology or elements of physics and shall satisfy said superintendent by written or oral tests that they have carefully and intelligently read two of the books on pedagogy approved for such purposes by the Superintendent of Public Instruction shall receive professional certificates, which certificates shall be valid for three years in the schools under the supervision of the county superintendent by whom they were issued.

In every school district of the fourth class in this commonwealth the State Department of Health shall provide in such manner as it may determine medical inspection for all the pupils in the public schools by proper medical inspectors to be appointed by the State Commissioner of Health at the expense of said department. All such medical inspectors shall be legally qualified physicians who have had not less than two years in the practice of their profession. Such medical inspection shall be made in the presence of the parent or guardian of the pupil when so requested by parent or guardian. Provided, that if the board of school directors of any school district of the fourth class shall decide by a majority vote of the members thereof not to have medical inspection of the pupils in a part or in all of the schools of such district and the Commissioner of Health is officially notified thereof in writing before the first day of July, such medical inspection shall not be made in such schools during the following school year.

The ball game on the famous ball ground in the rear of some vacant lot somewhere was hardly worth mentioning. HEALTH HINT FOR TODAY.

Deep Breathing For Drooping Shoulders.

Full and deep breathing will do more to straighten drooping shoulders than the wearing of braces, and if every one would take special pains to lift and hold the chest in its proper position round shoulders would disappear. Lifting the chest does not include any other exercise and is one of the simplest when once it is understood, but for some reason is one of the hardest ones to comprehend. It consists simply in the muscular movement of lifting up the chest, as though you were trying to lift it high enough to touch the chin. The arms and shoulders should be left in their natural position, and on no account should the shoulders be lifted at the same time you are lifting up the chest. Try the exercise. Stand perfectly easy and relaxed. Avoid tense muscles or any undue exertion, and see if you can accomplish the feat. You will readily understand that when the chest is no longer hollow, but is well up in its normal position, the shoulders cannot be rounded, but will naturally settle into their normal place.

WHEN YOU GET TO THE ROOF ON THE NEW BARN INSIST ON Amatite

A little problem in arithmetic will always settle the roofing question for both new and old buildings.

First—If your roofing costs 2c. a square foot and to paint it costs 1c. per square foot, how much does your roofing cost you in ten years?

Second—If Amatite costs you 2c. a square foot or less and you won't have to paint it at all, how much does an Amatite Roof cost you?

Just compare the prices of painted roofing with Amatite, taking into consideration the fact that you must paint the old-fashioned roofs every two years, while Amatite with its mineral surface needs no painting at all. You will find

that Amatite is so much more economical that you cannot afford to buy anything else.

Amatite is rapidly replacing painted roofings. Most of the manufacturers of painted roofings are trying to imitate the Amatite mineral surface. The time will come when nobody will think of buying ready roofings that need regular painting. They will insist on having Amatite, which thus far is the only successful well-proven mineral surface no-paint roofing.

Amatite costs no more than the other kinds; it is just as easy to lay. Nails and cement are supplied free. We will send you a sample of Amatite with booklet free on request.

Everjet Elastic Paint. Low in price. Great in durability. Irresistible about the farm for prolonging the life of ready roofings, fences, iron work, machinery, tanks, etc.

Creonoid Lice Destroyer and Cow Spray. Spray the hen house with Creonoid, and mites and lice will be killed and disease germs will be destroyed. Spray it on the cows and the flies will not bother them.
