Edward Rogers Meets Tragic Death.

Edward Rogers, well known in this
community where much of his time has been
spent during the past ten or twelve years,
met a horrible death on the P. R. R.
track below Eagle Rock station Wednesday
night. His body was found about
2:30 o'clock Thursday morning by three
young men who were returning from a
dance at Henry's Bend. Rogers had
been employed at W. J. James' lumbering
camp near Eagle Rock, and on
Wednesday morning secured permission
from the boss, Andrew Eckroth, to visit
Oil City, and had gone down on the
morning train and made some purchases
which included a suit case, pair of shoes
and some clothing. He also had invested
in some whisky. Returning from the
city in the afternoon he did not get off
the train at Eagle Rock, but came on to
Tionesta, remaining here till 8:58 in the
evening when he boarded the train again,
getting off at Eagle Rock and walking
down the railroad track for some distance
in the direction of the lumbering camp.
This seems to have been the last seen of
him alive. It is thought he intended going
to the dance at Henry's Bend, but
finding he could not get across the river
had started back on his boarding place,
and was overtaken by a northbound
freight train. The body was picked up
at a point about midway between the
stations and had been dragged a distance
of more than 500 feet. But two blood-
drenched pieces of clothing remained upon
the mutilated semblance of a human
form when it was removed by Section
Foreman Thurnquist and his men to the
freight depot to await the arrival of the
coroner. The train had passed over him
cutting off his right arm and leg, and
disemboweling him and crushing his
head. A quart bottle of whisky was
found unbroken between the ties near
where the train had first struck him.
While in Tionesta he tried to get whisky
but was refused at the bars. Rogers'
body was taken to Osender's undertak-
ing rooms at Oil City and prepared for
burial, and sent to his parents, Mr. and
Mrs. James Rogers, residing near Gil-
foyle, Forest county, was notified. His
brother, Joseph Rogers went to Oil City
Friday and brought the remains to this
station whence they were taken overland
to the home of his parents for burial.
The deceased was aged 34 years. He was
married several years ago but had sepa-
rated from his wife some time ago. His
two children, a daughter aged 13, and a
son aged 11 years, make their home with
their grand parents at Gilfoyle. Five
brothers and three sisters also survive.
Friends of the dead man state he often
spoke of his children, and but recently
said he intended to "cut out the booze"
on their account. He had promised to go
to Gilfoyle, later in the month, and spend
the Fourth with them.

Mount Collins Cemetery Association.

The Mount Collins Cemetery Associa-
tion, having obtained their charter from
the court in the county of Franklin, Pa.,
under the same on Saturday last and adopt-
ed by-laws for the maintenance and man-
agement of the same, in a large measure
modeling and adapting those that govern
the model cemetery of Franklin, Pa.
The Trustees or Board of Managers are
as follows: Truman D. Collins, J. A.
Adams, Jas. H. Kelly, Russell Hopkins,
F. F. Whitlock. The following officers were
elected: President, T. D. Collins; Treas-
urer, L. J. Hopkins; Secretary, S. D.
Irwin. By the by-laws persons wanting
lots in the new cemetery must first ap-
ply to the secretary or treasurer, who are
authorized to contract for and sell the
same. Under the act of 1909 one-half the
proceeds of the sale of lots are set apart
for the perpetual maintenance of the
same, or rather the interest of it. This is
an excellent law. All who purchase lots
are members of the association and can
vote at the annual election for officers.
The location of the cemetery is excel-
lent, the ground being very well adapted
to the purpose to which it is dedicated.

Another Timber Deal.

According to the Jamestown (N. Y.)
Post James Forbush and associates have
sold the timber rights on 1,000 acres of
land they recently purchased from the
Clapp estate in President town-
ship, Forest county, and this virgin tim-
ber is now to be heard of in the woods-
man's axe.
It will be remembered that when For-
bush, who is a former Oil City man, and
associates purchased this land they with
other having timberlands adjacent tried
to interest the Franklin & Clearfield rail-
road to build a spur from Hession station
to the timber that it would be the more
easily marketed, but this project though
looked into it did not go forward.
That the timber will now be marketed
even by the old and slow stage now seems
likely and the land exploited for oil and
gas. The Post says of the latest deal:
A tract of 2,000 acres of land in Forest
county, Pennsylvania, was recently pur-
chased by Ziba L. Squier, George L.
Gilberds, James Forbush and Harry
Bask, of this city. The tract is in the oil
and gas territory and is now producing
between 300 and 400 barrels of oil a day.
There is a large amount of timber on the
land and the Jamestown men have just
sold it to John Coleman, of Gilmer, Pa.,
for \$140,000. The local men keep the
land and the oil and gas rights. As soon
as the timber is removed active operations
will be commenced toward developing
the land for gas and oil.

Deafness Cannot Be Cured

by local applications, as they cannot
reach the diseased portion of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed con-
dition of the mucous lining of the Eu-
stachian Tube. When this tube gets in-
flamed you have a rumbling sound or
imperfect hearing, and when it is entire-
ly closed deafness is the result, and un-
less the inflammation can be taken out
and this tube restored to its normal con-
dition hearing will be destroyed forever;
nine cases out of ten are caused by catarrh,
which is nothing but an inflamed condi-
tion of the mucous surfaces.
We will give you one hundred Dollars for
any case of Deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars, free.

MARRIED.

HILLIARD-MOWRIS.—At Endeavor,
Pa., June 7, 1911, by Rev. Albert G.
Crill, Guy M. Hilliard, Jr. and Miss
Myrtle Maude Mowris, both of En-
deavor.

Resolutions of Respect.

Whereas it hath pleased Almighty God
to remove from our presence our worthy
brother, Solomon Fitzgerald, which re-
minds us that all must die, and that now
is the time to prepare and await the final
summons,
Be it resolved, That we extend to his
bereaved family our sincere sympathy,
and that a copy of these resolutions be
given to the widow of the deceased.
Our brother has been a lifelong mem-
ber of the Order and will be greatly
missed in our councils, and be it further
resolved, that in respect to his memory
our Charter be draped in mourning for
thirty days.
"Green be his memory, in the Order's
heart."
He lived so well, through all his true
life's span.
Bless'd be his rest, who acted well his
part.
Who honor'd God in doing good to man."
W. E. HOOD,
S. D. IRWIN,
T. F. RITCHIEY,
Committee.

When You Get to the Roof on the New Barn Insist on Amatite

A little problem in arithmetic will
always settle the roofing question for
both new and old buildings.
First—If your roofing costs 2c. a
square foot and to paint it costs 1c.
per square foot, how much does your
roofing cost you in ten years?
Second—If Amatite costs you 2c.
a square foot or less and you won't
have to paint it at all, how much does
an Amatite Roof cost you?
Just compare the prices of
painted roofing with Amatite, tak-
ing into consideration the fact that
you must paint the old-fashioned
roofs every two years, while Ama-
tite with its mineral surface needs
no painting at all. You will find
that Amatite is so much more eco-
nomical that you cannot afford to
buy anything else.
Amatite is rapidly replacing
painted roofings. Most of the manu-
facturers of painted roofings are
trying to imitate the Amatite mineral
surface. The time will come when
nobody will think of buying
ready roofings that need regular
painting. They will insist on hav-
ing Amatite, which thus far is the
only successful well-proven mineral
surface no-paint roofing.
Amatite costs no more than the
other kinds; it is just as easy to
lay. Nails and cement are supplied
free. We will send you a sample
of Amatite with booklet free on re-
quest.
