A MESSAGE FROM ERIE

When History Repeats Itself, Don't Miss the Chance.

The General Electric Company More than Doubled the Population of Schenectady in 10 Years, and Investors Made Millions in the Corresponding Rise in Real Estate. You Have a Like Chance Today at Erie, Without Increasing Your Present Expenses or Monthly Outlay. You Should Read Every Word of This Interesting Advertisement.

The General Electric Company made Schenectady a big city. It raised it from the obscurity of a quiet college town to world wide fame as a manufacturing center. The General Electric Company will make of Erie one of the greatest of industrial centers. Its Erie works will be far greater in territory covered, number of men employed and volume of output than at Schenectady. At Schenectady the site owned contains 275 acres of ground. At Erie its site contains 900 acres of ground, three times larger than Schenectady. At Schenectady the main factory buildings occupy 60 acres. At Erie the "works-plot" covers 400 acres. At Schenectady the number of employees is 16,000 men. **18,000 men to be employed at Erie.** At Erie the completed plans call for 18,000 men.

This means 6,000 more men than all the hands now employed in all the 300 manufacturing concerns at Erie. Outside of the investment in land, two buildings have already been erected at a cost of \$1,200,000 and work is now under way on two more. In all there will be 38 main buildings each 400x800 feet. The total estimated cost of the Erie plant is \$25,000,000. This means that this one huge concern will represent an investment equal to that of all the 300 manufacturing concerns now in Erie. Lastly and most important of all, the present rate of pay roll increase of the General Electric Company is 12 per cent. per annum, all of which, hereafter, will be transferred to the Erie plant. At this rate the Erie plant will be manued to its full capacity of 18,000 men inside of five years. We vouch for the truthfulness and reliability of every one of the above statements. We have obtained them from unquestioned and reliable sources.

What the General Electric Did for Schenectady.

Population in 1900	31,862
Population in 1910	72,826
Gain in 10 years,	40,964, or 129 per cent.
Assessed Valuation of Realty in 1900	\$12,509,960
Assessed Valuation of Realty in 1910	\$44,084,960
Gain in 10 years,	\$31,579,000, or 268 per cent.
Territory of city in 1900,	2,921 acres
Territory of city in 1910,	5,021 acres
New territory added in 10 years,	2,100 acres, or 71 per cent.

When this is repeated at Erie think of the effect on real estate.

Some day you can wear a broad smile and say: "I owned real estate in Erie." Send in the coupon today and learn how.

This Advertisement Directly Concerns You.

Industries create population and population makes land values. When the monster plant of the General Electric Company at Erie is completed and manued to its full capacity of 18,000 men, it means an increase in population of 133 1/2 per cent. This means a city once and one-third again as large as Erie, added on to the present city. Where population doubles, real estate values double twice. For the proof of this, see the statistics of Schenectady above. **How You Can Own Erie Real Estate.** No matter who you are or where you are, whether your income is big or small, you can buy today a piece of Erie real estate and par-

ticipate in the profits that will arise from the increase in land values. On June 27 there will be held a big public sale of building lots in the newest and largest addition to the city of Erie. The name of this new subdivision is Nicholson Heights. It is located in the immediate path of the city's irresistible growth to the south. It has an extensive frontage on both sides of Peach Street, one of the city's main arteries. It is within 15 minutes' ride by direct trolley to the heart of the shopping district of Erie. Nicholson Heights is 900 feet above sea level and 400 feet above the city of Erie proper. Its magnificent location and commanding elevation gives it unsurpassed attractions for residential purposes. The average size of the lots is 40x140. The prices are \$200, \$250, \$300, \$350, \$400 and \$500, depending upon the location.

Sold On the Double Value System.

For the first time in the country, the public at this sale will be afforded the opportunity of buying lots in connection with the products and merchandise of Larkin Company of Buffalo, N. Y. The new system we operate under gives you money a double buying power and makes \$1 do the work of \$2. An equal value of merchandise and an equal value of real estate for one price. Lots will be sold on the easy monthly payment plan and for every dollar you pay on real estate you will receive an immediate equal value in Larkin certificates. This means that you buy a lot without increasing your present expenses or outlay. Sign and return the coupon below. We will send you full information regarding this distinctly new system.

Erie Merchandise-Realty Co.,

Marine Bank Building, Erie, Pennsylvania.
 Owners and Developers of Nicholson Heights.
 The Erie Trust Company of Erie, Pa., is the fiscal agent and trustee of the company. Purchasers of lots at Nicholson Heights make all installment payments direct to the Erie Trust Company, which issues all deeds and abstracts of the property, thus affording absolute security.

INFORMATION COUPON.

Erie Merchandise-Realty Co.,
 Marine Bank Building,
 Erie, Pennsylvania.
 Please send me book of facts about Erie; also the Larkin catalogue, with full information how to buy a lot at Nicholson Heights without extra expense.

CAUGHT IN MACHINE

Youth Is Bound in a Sheaf of Wheat and Nearly Suffocated. Unconscious and almost suffocated, Carl Wiefel of Lebanon, Ohio, aged 4, son of James Wiefel, was found bound in a sheaf of wheat in his father's harvest field Friday evening by men working behind the binder. Young Wiefel had been caught in the machine and bound with binder twine with the wheat. He was so severely cut and bruised that physicians are doubtful as to his recovery. The sheaf had been idle for almost a day and the youth's presence in the grain was only discovered by the extraordinary weight his body had added to the sheaf when it was picked up by George Sparks, a harvest hand.

Fire Chiefs Elect Officers.

The eighth annual convention of the New York State Fire Chiefs' association closed at Glens Falls, with the election of the following officers: President, D. J. Sullivan, Utica; vice president, John Mack, Glens Falls; secretary and treasurer, Henry R. Yates, Schenectady; directors, Thomas O'Connor, Schenectady, and A. P. Spitzer, Scotia.

Lititz Pastor Resigns.

Lancaster, June 27.—Rev. J. B. Musser has resigned the pastorate of St. Luke's Reformed church, Lititz, to accept a call to the Lutheran church at Orwigsburg, Schuylkill county.

"Buster" Brown Is Drowned.

Milton J. Brown, known to every one in Hornell as "Buster Brown," joined a circus at Hornell Saturday night and went east with it. Sunday night a telegram was received stating that he had been drowned while bathing at Jersey Shore, where a detachment of the circus was camped. Brown was clerk at the Hotel Delevan for many years, and the management did not know until Sunday that he had left the city. He was about 26 years of age and unmarried. He came to Hornell from South Canisteo, where his parents are said to be well-to-do farmers.

Heavy Rain Needed For Corn.

Special dispatches from crop experts of 13 states show that rains of the last few days have helped growing grain in the Middle West, West and Southwest, but that heavy rains must come within the next two weeks, to save corn in many localities. Potatoes are generally a failure, pastures are in a bad way, oats and police call her the "girl of mystery."

Violent Bull Attacks Farmer.

Charles A. Graves, aged 39, a farmer living in the town of Champlain, N. Y., was attacked by a bull and sustained fractures of his collarbone, shoulder, breastbone and five ribs.

Chip of the Old Block.

Caller (viewing the baby)—Do you think he is going to resemble father? Mother—I shouldn't be surprised. He keeps me up nights even now.—Boston Transcript.

AMENDMENT BEATEN.

Senator Root's Addition to Reciprocity Treaty Is Lost.

Indications Are That Reciprocity Has Free Sailing Now and the Measure Will Pass Without Amendment at an Earlier Date Than Has Been Expected—Bill Will Probably Be Voted on July 24—Senator LaFollette Has an Amendment.
 Washington, June 27.—The Root amendment to the Canadian reciprocity bill was defeated in the senate last evening. This disposes of one of the most serious menaces to the bill and the indications are now that reciprocity has free sailing and will pass without amendment at an earlier date than has been expected. The Root amendment went down to defeat without any record vote, no roll having been demanded. The vice president simply stated the question, there was a mild chorus of "ayes" and a louder chorus of "noes," and Mr. Sherman declared the amendment lost. The Root amendment proposed to delay the free admission of wood pulp and print paper into this country until all restrictions against the exportation of these products had been removed by the Canadian provinces. Under the terms of the bill in its present form pulp and print paper will be admitted free from all provinces, except those that maintain export restrictions. Fixing a Date For a Vote. Steps were taken yesterday looking towards the fixing of a date for voting upon the reciprocity and other tariff measures. An agreement was drawn up by Chairman Penrose of the finance committee and submitted to a number of senators on both sides of the chamber. This agreement proposed that a vote should be taken by unanimous consent on the Canadian reciprocity bill on July 24, on the farmers' free list on the day following and on the Underwood wool bill on July 25. There was considerable interest manifested on the floor when Senator Penrose produced this document. He took it to the vice president and the two retired to the rear of the senate chamber and began summoning senators to take a look at it. Senator Martin of Virginia, the minority leader, was called in, but was not very much disposed to acquiesce in it. Senator Penrose felt rather cheerful when the senate adjourned and said he would probably submit the agreement to the senate today and ask for unanimous consent that it be made the standing order of business. The progressive Republicans, when they learned of the agreement, were somewhat startled. They held hurried conferences and the indications are that even if the Democrats acquiesce in the agreement a number of the progressive senators will stand out against it. In such a contingency the agreement will fail. Some of the progressive senators were saying last night that if the agreement was acquiesced in, it would simply mean that fully half of the senators would run away to the seashore or to their homes and would not reappear in Washington until the day for a vote. The progressives want to do some talking and the friends of the reciprocity bill should be in their places in the senate to vote on the amendment. The Republican leaders believe that out of the proposed agreement will finally come some sort of satisfactory solution of the matter. As the hot weather increases in Washington there is a growing unrest among the senators to get away to their homes.

DRINKS POISON AT WEDDING

Ceremony Stopped by Efforts of the Bride's Mother to Commit Suicide. Mrs. Bertha Moor of Pittsburg, aged 41, attempted to commit suicide last Friday at the wedding of her 16-year-old daughter, Helen, to Arthur Beadurs, a divorced man, to whom Mrs. Moor objected. The vial was knocked from her hand before she drank much of the poison. The wedding was postponed and Mrs. Moor went before Alderman Joseph Jackson and sued Beadurs, charging him with abducting her daughter. At the hearing later in the evening Mrs. Moor again drank acid in a dramatic manner. She was arrested and the wedding has been indefinitely postponed.

CLARENCE S. FUNK

Tells Lorimer Probers That Detectives Dogged Him For Months.

Masons Dedicate New Chapel.

Between 4,000 and 5,000 Masons from various sections of New York state assembled at Utica, N. Y., Sunday to assist in the dedication of the magnificent new chapel erected in connection with the Masonic home and situated on the spacious grounds surrounding that institution on the eastern outskirts of this city. A dozen special trains from New York, Buffalo, Syracuse and from the Northern and Southern parts of the state, brought Masons to participate in the exercises which commenced at 11 a. m. and concluded two hours afterwards.

Held on Murder Charge.

Michael Mondrone was held for the grand jury at Brocton, N. Y., Friday afternoon on a charge of murder, second degree, it being alleged that he was concerned in the killing of Heuben Pooler of Brocton a few weeks ago. A separate examination for Raffaele Capucio, who was arrested at the same time as Mondrone on suspicion of having committed the murder, will be held Aug. 1.

Yeggs Blow Wellsville Safe.

The safe in the mill owned by J. B. Tompkins & Son of Wellsville, N. Y., was blown by yeggmans Saturday morning. Several horse blankets were used to deaden the explosion. The door was blown off and the contents taken, including a number of notes and papers of value only to the owner, and about \$20 in money. The books of account were not disturbed.

Vetoed Assemblyman Sweet's Bill.

Governor Dix at Albany has vetoed the bill of Assemblyman Sweet which provided that no action shall be maintained against the state agricultural society or any county, town or other agricultural society or fair association to recover damages for alleged negligence unless a certified statement of the cause of the action shall have been presented.

Dick Canfield's Gift.

Richard A. Canfield, who some time ago disposed of his Saratoga club, one of the most widely known gambling establishments in America, sent the Saratoga (N. Y.) park commissioners a check for \$3,000. This parking gift to the village is coupled with the condition that it be used to maintain the club house which is now used as a public casino.

Safe Blown at Knoxville.

The safe in the postoffice at Knoxville, Pa., a small town southeast of Corning, N. Y., was robbed early Saturday. The thieves got away with \$100 in cash and \$800 worth of stamps. A noise similar to a muffled explosion was heard about 2 o'clock and later two strange men were seen walking away from the postoffice building.

Oil Tank Hit by Lightning.

A tank of the Standard Oil company at Olean, N. Y., containing 30,000 barrels of oil, valued at \$59,000, was struck by lightning during a terrific electric storm Friday. The tank itself is worth \$8,000. It was shot with a cannon to let the oil run out and burn in the trenches.
