UNDER a law just enacted by the New York legislature it is now a misdemeanor to carry a deadly weapon, concealed or unconcealed, without a written license issued by the proper authorities of the city, town or village where the person owning the weapon resides. It is made a misdemeanor to have a revolver, blackjack, sandbag, or any other such weapon in one's home or office without the prescribed license. The new law, which has just been signed by Governor Dix, provides that any retail dealer, pawnbroker or other person selling any firearms of a size that may be concealed on the person, must enter the time and date of sale and the name, age and occupation of the buyer, with the make and manufacturer's number of such weapon in a special register, which is to be subject to inspection by peace officers.

## **HUSBANDS WON AT RAFFLES**

Philadelphia Girl Satisfied With Fat Man, but Another Demurs.

Philadelphia, June 27 .- Two young women last night won husbands in church raffles. They both purchased 'pigs in a poke," not knowing what form of masculinity their prize would take. One of the young women, after inspecting her winning, declared she would not marry a man whom she could get for 10 cents, and he will be raffled off again, this time the proceeds to go toward the purchase of a church organ.

The other young woman found she had won a 280-pound man, and at first refused to think of going through a marriage ceremony with so much avoirdupois. Later, however, she changed her mind, and declared that "so long as nobody loves a fat man" she would abide by the bargain and take her winning as a husband.

Miss Catherine N. Flanagan, at the fair of the Church of the Immaculate Conception, won Thomas Skelly, the fat man. It was she who demurred at first, but now thinks the wedding will take place soon. At St. Gregory's church Miss Mary Doyle won William Bowers. She decided Powers was too bashful and renigged on the bargain.

The identity of the bachelors was not known until after the drawing.

-For some time past Prof. Surface, of Harrisburg, who tells farmers how to look out for and destroy pests that ruin their crops, has been discussing the 17 year locusts, which he says have appeared in some of the eastern counties of the state. In connection with this matter the following press dispatch was sent out from the state capitol: "Prof. Surface is wrong. A tour of the markets and a talk with the farmers brings out the fact that this is not the time for the 17 year locusts to appear. And what's more, the farmers declare that the locust has not yet arrived. The insect was in the country, the farmers say, in large numbers but eight years ago. Consequently it is not due now The farmers insist that the locust appears in different localities at different times, and that the time for Warren county is nine years hence." So far as Warren and vicinity are concerned there have probably never been any locusts in this section, and if there were any their number was so small that they were given no attention and caused uo damage,-Warren Times. For the past forty years we have been informed annually with painful regularity that "this is the year for the 17-year locusts," but we have yet to know of their actual appearance in this diocese. Deafness is caused by an inflamed condition of the mucous lining of the Eu-stachian Tube. When this tube gets in flamed you have a rumbling sound or imperiest hearing, and when it is entire-ly closed dearness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition hearing will be destroyed forever : nine cases out of ten are caused by catarrh, which is nothing but an inflamed condi-
