INQUIRY IS HALTED, Controllor Bay Investigation Is Temporarily Suspended.

Both Democrats and Republicans Express the Belief That Miss W. F. Abbott, the Newspaper Woman, Who Claims to Have Seen the "Dick to Dick" Letter, Will Never Be Put on the Stand to Tell Her Story Under Oath. Washington, July 25.—The Controllor bay investigation is at an end for the present and the threatened sensation growing out of the mysterious "Dick to Dick" letter will not be sprung for months if at all. Indeed there are a good many men around the Capitol, both Democrats and Republicans, who express the belief that Miss M. F. Abbott, the newspaper woman, who claims to have seen the "Dick to Dick" letter in the files of the interior department, will never be put on the stand to tell her story under oath. At the room of the house committee on expenditures in the interior department, which has been conducting the Controllor bay inquiry, it was said yesterday that no important witness would be called before the middle of October and possibly not until later. The investigation will be resumed with all its pristine vigor, but with the Controllor bay proposition as its only feature of the general probe into Alaskan affairs. Brown and Ryan to Testify. Asmun Brown, who was private secretary to former Secretary of the Interior Ballinger, and who, Miss Abbott says, showed her the Dick to Dick letter, and Richard S. Ryan, promoter of the Controllor Bay railroad and reputed agent of the Guggenheims, have been in Washington for days waiting the call of the committee and Brown and Ryan have been particularly insistent that they be called and given a chance to refute Miss Abbott's statements. They have been afforded no chance up to date and by the committee's decision to drop the inquiry for the present will not have an opportunity to be heard until fall, if then. Chairman Graham said today that when the committee met in the fall to continue its inquiry into all the affairs of Alaska that Louis D. Brandeis of Boston would be in charge.

Fight Resolution Indorsing the "Peerless Leader."

Fremont, Neb., July 25.—"Conciliation" is the slogan of the delegates to the Democratic state convention which convenes in Fremont this afternoon. Already more than half of the delegates are on the scene and all the leading Democrats of the state are here except Mr. Bryan, who is in Kansas on a speaking tour. The Dahlman faction will fight any resolution endorsing Bryan. The Bryan faction will fight any resolution endorsing anyone else and the Shallenberger faction will fight both Bryan and Dahlman if resolutions favoring either are introduced. From indications the convention will simply ignore Mr. Bryan and it is believed his friends will not dare risk a vote of censure by introducing a resolution favoring Bryan. Neither the Shallenberger nor Dahlman factions, it is said, will attempt to introduce a resolution against Mr. Bryan unless Bryan's friends force their hands and the Bryan delegates are in the small minority.

PARIS GETS RELIEF Rain Disperses the Intense Heat That Has Been Prevailing For Some Time.

Paris, July 25.—Paris hailed with a sigh of relief the rainstorm which broke yesterday afternoon and dispelled somewhat the intense heat which has been prevailing. For some weeks the city has suffered from a drought and the temperature in the shade was 96.8, the highest Paris has suffered in seven years. Several deaths daily have been reported and combined with a partial breakdown in the water supply, Parisians have put in some unpleasant days. The fire at the forest of Fontainebleau, caused by the dryness of the vegetation, seemed to have been confined by a back fire started by the troops who were called out to aid in the work. The flames, however, continue to break out at various points. The noted beauty spot, the fairies in a pond, was burned. Two Aviators Arrive at Edinburgh. Edinburgh, July 25.—Vedrine and Conneau have arrived here, completing the second stage of the around-England flying race. Vedrine made the 343 miles in six hours 55 minutes and Beaumont in 7 hours 22 minutes 24 seconds. Preacher Leaps to Death. Pittsburg, July 25.—While delirious from typhoid fever the Rev. S. E. Smith, a Lutheran minister, of Vandegrift Heights, Pa., leaped from a third-story window of a hospital here and was instantly killed.

RECIPROCITY BILL PASSED Measure Goes Through Senate by a Vote of 53 to 27.

The reciprocal trade agreement between the United States and Canada, which is embodied in the reciprocity measure that proved a storm center in two sessions of congress, passed the senate without amendment Saturday by a vote of 53 to 27. A majority of Republicans voted against it. Of 53 votes for it, 32 were Democratic and 21 Republican; of the 27 against, 24 were Republican and three Democratic. This action settled the whole Canadian reciprocity question as far as congress is concerned, and save for executive approval and the Canadian parliament's ratification, virtually made the pact the law of the land. Congress rules will delay the affixing of the president's signature until next Wednesday, when the house is again in session. The reciprocity bill, having originated in the house, must be returned there for engrossment and for the signature of Speaker Clark while the house is sitting.

Mrs. Alvie Hartman, wife of a Vandalia railroad fireman, drowned herself in Eel river, at Logansport, Ind. BRITISH GOVERNMENT FULLY ALIVE TO IMPORTANCE OF GERMANY'S ACTION AT MOROCCAN PORT.

London, July 25.—Thomas McKinnon Wood, the under secretary for the foreign office, in reply to a question at the house of commons yesterday, said that the government was fully alive to the importance of the German occupation of Agadir, the Moroccan port. Germany's occupation of the port has caused a serious situation and McKinnon Wood, in his reply, stated that the government would not lose any opportunity to urge its views upon the powers signatory to the Algeiras convention. In reply to another question he stated that the government at present did not contemplate sending a warship to protect British interests in the revolution prevailing there. If the situation required a British vessel for protection, the government, said McKinnon Wood, would immediately dispatch a vessel to one of the Haytian ports.

SENATE RATIFIES THE FUR SEAL TREATY.

United States, Great Britain, Japan and Russia Signers. Washington, July 25.—The senate promptly ratified the fur seal treaty yesterday. The convention was signed on July 7 at Washington on behalf of the United States, Great Britain, Japan and Russia. The treaty was considered in the senate foreign relations committee in the morning and reported without opposition. Under the terms of the treaty, a patrol of the North Pacific sea frontier by the seal herd is to be maintained and there is to be a division between the signatory powers of the flocks of the seals taken at the rookeries under warrant of law. By the treaty the United States surrenders 15 per cent of its killed seals to Japan and a like percentage to Great Britain for Canada in consideration of their right to kill seals in the open sea. The United States also is obligated by the treaty to pay to Japan and Canada each the sum of \$200,000 for the skins these countries now have on hand and for which the United States shall sell the skins in question and take the proceeds.

Lemons stepped out of the way of one train and did not see the other approaching. He leaves a wife and two small children.
