—Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.  
—Chas. A. Anderson finds he has a surplus of vegetables just at this time which he will dispose of at low prices for strictly cash: Roasting ears, cabbage, tomatoes and lettuce. All strictly fresh from the garden and just in season.  
—Dr. M. W. Easton, Osteopathic Physician, of Oil City, will visit Tionesta every Wednesday. See him at the Hotel Weaver. Setting bones and the treatment of nervous and chronic diseases a specialty. Greatest success in all kinds of chronic diseases.  
—Trainmen on the river division of the Pennsylvania railroad report that they passed through a heavy hailstorm late Sunday afternoon between Quaker Bridge and Red House. It is said that from three to four inches of hailstones as big as plums covered the ground for a distance of about seven miles, and that corn was badly battered. Other crops were uninjured.

—Bathing in lakes and streams near the outfall of a sewer is condemned by the board of health. Vacationists are warned to be careful in their selection of their drinking water in country places. Typhoid dangers can be brought home by water supply, milk and fly infection caught outside.  
—The hearing of the application of J. M. Andrews for a new trial in the Amann murder case in Warren closed last Thursday when Judge Hinckley took all the papers in the case and announced that he would give his decision later. It is probable that several weeks will elapse before a decision is made, as the Judge has gone away on a vacation.  
—Dr. W. W. Hawke, superintendent of the State Hospital for the Insane, at North Warren, has sent his resignation to O. C. Allen, president of the board of trustees. He has been at the head of the institution for a year. He will go to Philadelphia, where he will open a private sanatorium at Clifton Heights. His successor has not yet been chosen.  
—The state engineering party are making good headway in surveying the route from Warren to Smethport. They are in charge of T. C. Frame, of New Castle, and number eleven altogether. They were at Tionesta today and should reach Sheffield this week. After the Smethport route is surveyed, the route to Ridgway and Tionesta via Sheffield will be attended to.—Warren Times, 8th.  
—Governor Tener has announced the following appointments of Trustees of the State hospital for the insane at North Warren: S. R. Mason, Mercer; S. W. Waters, Warren; Dr. W. P. Hunter, Erie; John F. Brown, Clarion; A. L. Bell, Ridgway, and R. B. Stone, Bradford, to be members of the Board of Trustees of the State hospital for the insane at Warren. Hunter is the only new member.  
—Discovery was made Friday that a number of farmers throughout Clarion county had been victimized to the extent of \$4,000 by fraudulent checks within the past week. They sold cattle to strangers and took checks in payment, which afterward proved to be worthless. Yeung county men were fleeced in the same manner. Forest county farmers should be on the lookout for similar swindlers.  
—Maxwell, the four-year-old son of Charles and Ellen (Yeiter) McCartney, and grandson of E. A. Yeiter, died at the parents' home in Kane Monday night, after an illness of several weeks of a complication of ailments which baffled the physicians. He was a bright, sweet little lad in whose death the parents are sorely afflicted. The funeral takes place today, with interment in the cemetery at Marienville.  
—Peter S. Lindel, who is erecting a house on his newly purchased property, the Hoover farm, on Hunter run, was severely injured last Friday when he fell a distance of about ten feet from a ladder. Two ribs were broken in his left side and a four inch gash was torn in his left arm. The accident was caused by a heavy load of lumber. Dr. F. J. Bovard dressed his injuries.  
—After August 1st Pittsburg will demand and secure the final "h." The postoffice department has thus decreed. It was Father Pitt's "burgh" and not his "burg" and his descendants will insist on having all that is coming to them. Doubtless this demand for recognition by our Smokey City neighbors is in keeping with the remark of the fellow who discovered that the letter "h" was the end of Pittsburgh and the beginning of hell.  
—In the future registered mail of the third and fourth classes will be secured by indorsement to the extent of \$25. According to the act of March 4, 1911, which went into effect July 1st, all registered mail of the first and fourth classes are covered by the indemnity provision. Prior to July 1st only first class matter was so secured, but from now on payment will be made by the postal authorities up to \$25 on third and fourth class as well as first.  
—The proposition to bond the township of Harmony for the purpose of erecting a new school building in the village of West Hickory was put to a vote of the qualified electors of that township on Monday and resulted in the affirmative. The vote seemed to be light in both precincts but the majority was decisive, as follows: West Hickory—for 51, against 6; Fogle Farm—for 5, against 29, leaving a net majority of 21 in favor of the bond issue.  
—Many friends of Clinton Fitzgerald, one of Marienville's first and most worthy citizens, will be pained to learn that he is seriously ill at LaGrande, Oregon, by Bright's disease. He went there about 18 months ago to homestead some land, and it is only lately that his family was made aware of his illness. He will start for home as soon as he is able to travel, and it is hoped he will get relief upon his arrival where he can have special treatment.  
—It has often been remarked that the Lock Haven State Normal School has the most attractive location of any other Normal School in the state. It has a fine climate, splendid drainage, and absolutely pure water. Epidemics are practically unknown. Its students come from every section of Pennsylvania and the spirit of the school is progressive and elevating. The fall term begins September 11th. Write for its illustrated catalogue. It  
—Governor Tener has announced the appointment of the commissioners to examine and report on the propriety of the purchase by the State of the Cook tract of land in Jefferson, Clarion and Forest counties; which tract, if purchased, the State will make a park and on which the State penitentiary may also be built. The commissioners appointed are Senator T. M. Kuriz, of Punxsutawney; Charles W. Sons, of Williamsport; George R. Williams, of Wellsboro.  
—Two families near Shamokin, Pa., have already been poisoned this season by eating toadstools. The old fashioned method of distinction between the poisonous and edible variety of the fungi still holds good: If you eat mushrooms and die then they are toadstools, but if you eat toadstools and live then they are mushrooms. In other words you take your life in your hands in making the test, and as that is too risky you'd better let 'em alone, especially since a professor in Columbia University who had specialized in this kind of plant life has been poisoned seriously by "mushrooms" he picked himself.

—The M. E. Sunday school will hold an old fashioned picnic on Hunter Run Thursday of this week. The members of the Sunday school and all their friends are cordially invited. Those coming that wish coffee will bring their own cups. Bring well filled baskets. If baskets are left at one of the places named below by 10 o'clock a. m. they will be stored to the grounds: Morgan's store, F. R. Lanson's store, or S. M. Henry's home. Dinner at noon. Come.  
—Railroad detectives have not given up the effort of running to earth the men who attempted to wreck and hold up the express train on the Philadelphia & Erie railroad at Five-Mile curve, near Erie, on the night of June 30 last. While the death of George D. Verne, chief of the railroad detective force, caused a temporary halt in operations, activity has been resumed, it being reported that officers are hot on a trail which they are certain will lead to important revelations.  
—Postmasters have received notice from the postoffice department at Washington requesting them to notify the R. F. D. patrons to have their mail boxes and posts painted pure white. The department also requests that the name of the owner be painted on the front in black block letters. This request is made in order to expedite the work of the carriers on the rural routes. Country residents are also petitioned to do their share of the work toward having the cross roads suitably marked with sign boards.  
—George B. Munn, of Warren, an attorney, was in Franklin Monday consulting with Perry Gray, awaiting trial at the August term of court on a charge of murdering John Spence, of Pleasantville, whom he will defend. Mr. Munn was in town four hours and spent most of that time with Gray, whom he feels sure will be acquitted. Nothing has been said or done lately in indicating that Gray had altered his story told at the time of the murder, which was to the effect that Spence was killed by men who called at the house to rob him.  
—The piano auction at Mrs. Sandrock's millinery store resulted in a sale to Harvey Johnston of the Borough, whose bid was \$125. All bids were sealed and deposited in a tin box under lock and key, the bidding being thus kept a secret until the box was opened. The piano is a perfect new one and a handsome, sweet-toned instrument, and Mr. Johnston surely has a bargain. E. A. Wilson, of the Venango Music Co., of Franklin are the promoters of this method of advertising, and they figure that, while they lose on the sale, the advertising and introduction to the music-loving public pays them in the end.  
—The orders have gone out to the deputy factory inspectors from Chief Delaney to see that food displayed for sale in bakeries and stores attached shall be covered over in order that the pestiferous fly shall not find a lodging place thereon, to the defilement of the food. This order is now and has been carried out by deputies, and they have been visiting bakeries and other places where such precaution is neglected. It applies to every place where pastry and fruits are sold, and covers must be placed on bread, cakes, pies, etc., to keep off the flies. It is a sanitary precaution, and designed for the protection of the public.  
—The Besemer & Lake Erie railroad, from Conneaut Harbor, Ohio, to East Pittsburgh, with its 176 miles of track laid with steel cross ties of the Buhner design, is the only all steel railroad in the world. Improvements are now under way which when completed, will add 48 miles to this all steel mileage. The road is double tracked and has 100 pound steel rails for the entire length of 224 miles. The life of the wooden tie is from four to fifteen years. If the new tie will live twenty years, as is believed, with a further scrap value of one-half its original cost when its usefulness as a tie is gone, the importance of the investment is evident.  
—The graduates of the Lock Haven State Normal School are everywhere filling important positions, not only in the public schools, but as County and City Superintendents, College Professors and in business affairs. A recent graduate was appointed during the last month as State Entomologist of Indiana at a handsome salary. He attributes much of his success to the careful training in science that he received at Lock Haven. Other students can do likewise. During the last two years the school has been filled to its capacity and in the future the number of students will be limited in order that they may all receive individual attention. Its object is to develop home life and to advance its young men and women morally and intellectually. Write for its handsome catalogue. It
