Y., had his foot badly mashed at this station early Friday night when the loose end gate of a gondola car was jarred loose and fell upon it. He received first aid at the hands of company surgeon Dr. Bovard and was sent to his home on the 8:58 passenger train.
—The deep well being drilled at Mayburg by Collins & Richards is down over 3,500 feet, and the drillers are again at work after being delayed by a fishing job last week, in which the tools were fast in the hole. A number of gas pockets, some of them quite strong, have been found. If present plans are carried out the well will be drilled to depth of 6,000 feet.
—An auto load of fans went up to Mayburg Saturday afternoon and saw the crack team of that place put the bug on the strong Clarion team, the score closing 10 to 8 in favor of the home team. Emmet Heidrick, for a number of years with the St. Louis national league, played with Clarion and was quite an attraction. Our own Sam Haslet played with Mayburg, making good as usual.
—A spark from the chimney falling upon the shingle roof of the Snowden hardware store Monday morning came very near resulting disastrously. Prompt action in getting a stream of water from the street hose to play on the blaze brought it into subjection, but not until a patch about 10 feet square had been burned into the roof. No alarm was sent in, hence few were aware of the fire.

—Leonard and Adolph Blum, with their wives, and Harrison Blum came up from Oil City Saturday to visit their parents, but were called home on the next train by a message stating that Policeman George W. —The harvest home picnic of the Mt. Zion Lutheran church, German Hill, last Thursday, was the best attended and most successful in all respects that has ever been held in the handsome grove adjoining the church property. It is estimated there were nearly, if not quite, 300 people present, and as the weather proved to be ideal the enjoyment was complete. There was no lack of delicious viands, in fact so abundant that several baskets were untouched. The speeches pleased all, and the musical end of the program captivated the large crowd from start to finish.
—At the last commencement of the Lock Haven State Normal School, a handsome tower clock and a 5,000 pound bell was dedicated. They were presented by Mr. Wilson Kistler, a philanthropic citizen of Lock Haven, and they are in every respect first class, the entire expense involving an expenditure of about \$4,000.00. This is an evidence of the esteem in which the school is held by the best citizens of its home community, but it has a state wide reputation as well, as reference to its finely illustrated catalog will show. The fall term of 15 weeks begins Sept. 11th. Write for catalog. It

—Nathan R. Butler, who will become the state commissioner of fisheries on September 1, has announced that he will give special attention to the development of the fisheries at Lake Erie, and says: "It shall be a special aim of my administration to develop the food fish industry so as to become a factor in the cheaper cost of living. Nowhere else in all the world is there such a chance for greater catches of whitefish, lake herring and lake trout as along the Pennsylvania shores of Lake Erie. Nowhere are there any table fish to surpass them." Unless it should be the good old Allegheny river sucker, say we.
—The arrangements that have been carried out, and the contracts thus far signed for 1911's Big Pittsburgh Land Show, from October 12 to 28, assure a greater success than was last year's. This is saying a great deal, indeed, for the 1910 display in the gigantic Duquesne Garden—one of the largest exhibition halls in America—was the first successful event of its kind east of the Mississippi. More than that, it was phenomenal in the high rank it took among exhibitions of all kinds, land and otherwise; while as a Land Show distinctively, it was a marvelous revelation to the East, particularly in its many attractive displays of the rich resources of the West, from the Mississippi to the Pacific, from New Orleans to Portland, from St. Paul to El Paso and from Maine to Florida.
—Mrs. G. F. Watson and Mrs. Cora Fehl, assisted by Mrs. W. A. Shewman, entertained thirty-eight young ladies at their home Tuesday afternoon from two to five. The greater part of the time was spent in dressing potatoes, changing them from an ugly brown potato into a beautiful doll, Miss Helen Smeaugh receiving first prize for the most artistically dressed doll and Miss Florence Klinefister, of Warren, Pa., receiving the booby prize. A two-course luncheon was served. The out-of-town guests were, Miss Josephine Siggins, Miss Somers, Miss Hazel Sommers, of West Hickory, Miss Stevens, of Pittsburgh, Miss Klinefister, Mrs. Wickizer, of Warren, Miss Carr, of Lottsville, Miss Alice McCullough, Misses Ruth and Augusta Cook, of Nebraska, Mrs. Merion Mealy, of Oil City, Mrs. W. H. Rogers, of Louisville.

A MODERN LUMBERING PLANT.

Expected That Clapp Lands Timber Will be Manufactured Near Tionesta.
The fact is practically assured that the new lumbering firm of Coleman & Watson will locate their plant at the mouth of John's Run, on the south bank of Tionesta Creek, about a mile from the borough limits. If plans now almost matured are carried out it will mean a storage dam for stock across the run below which a band mill of modern design and equipment will be erected, which will have a capacity for turning out a large amount of lumber daily and on which extra long timber can be handled. A dam will also be run across Tionesta creek, over which a bridge will be built of sufficient strength to permit of locomotive and loaded cars being carried over, thus forming a junction with the Sheffield & Tionesta railroad, which, it is expected will be running trains early next summer.
The company expects to build barges at their plant, having a large amount of timber on their tract suitable for this class of operations. For this reason the dam will be built across the creek on the banks of which the barge yards will be located, the dam furnishing backwater sufficient for storing the big boats, and running them to the river in all stages of water. We understand that a contract will be given to Messrs. George Miller and T. Frank Joyce, both practical men, for the erection of the dams and the piers and abutments of the bridge, all of which are to be of concrete.
A railroad of standard gauge and equipped with first class rolling stock will be run from the mill plant to timber tracts, formerly the Clapp lands, which practical engineers say can be reached on easy grades in a distance of three to four miles. Of course it is understood that this does not include the spurs that will be necessary in order to reach the timber on all parts of the two-thousand-acre tracts and which will require perhaps as much more railroad.
It is estimated that Messrs. Coleman & Watson have sufficient timber to keep their plant running five to seven years, and giving employment to seventy-five or more men, many of whom can have their homes in Tionesta, thus obviating the necessity of building houses at the plant.

RECENT DEATHS.
WOLF.
Jacob Wolf was born in Washington township, Clarion county, Pa., March 22, 1850, and died on the old homestead at Wolf's Corners, August 16, 1911, aged 51 years, 4 months and 24 days. Mr. Wolf was united in marriage with Miss Lulu Urmon September 25, 1888. Of this union eight children were born, two dying in infancy. The surviving children are, Herbert O., now in the United States army in the Philippine Islands, William W., of Pittsburgh, Harriet A., Katy M., Mabel C., Lawrence L., who still reside at home with their mother. The deceased was a consistent member of the Methodist Episcopal church and up to the last moment showed implicit faith in the God he served and the Savior he loved. Funeral services were conducted Friday at 10 a. m. at the home of the family by Revs. M. B. Riley and F. C. Timmis. The remains were interred in the cemetery at Wolf's Corners to await the call of the just.

Death of "Farmer" Dean.
Isaac E. Dean, known to almost everybody throughout the oil regions as "Farmer" Dean, died at the home of his brother, C. W. Dean, Oil City, Louisiana, Aug 15, 1911. The cause of his death is not given in the reports. He was 65 years of age and leaves one daughter, Mildred Dean, of Blockville, two brothers, Walter L. Dean, of Memphis, Tenn., and C. W. Dean, of Oil City, La., and one sister, Mrs. W. N. Gale, of Blockville. Burial took place at Shreveport, La. He was born near Jamestown, N. Y., and early in life won prominence in the oil business in which he had been engaged for near half a century. Coming to the oil country in 1864, he had been connected with the developments of oil and gas in Pennsylvania, New York and Ohio since that time, his last operations being in the Kansas, Oklahoma, Texas and Louisiana fields as they came into prominence. A man of more than ordinary native ability, a personal presence and physique that would attract attention in any gathering of men, a spirit of independence and a gift for argument, either in personal conversation or from the public platform, Mr. Dean was prominent in many national campaigns as a public speaker, usually taking up the new things in politics, such as "greenbackism," "free silver" and the like.
For a number of years, from 1896 to 1899, he was a resident of Tionesta, where he made many friends by whom the memory of the kindly, charitable and sympathetic man that he was will be cherished for many years to come.
