MANY Congressmen are getting their index fingers ready to point with pride to their records in the extra session.

To DEFEAT reciprocity, the Canadian conservatives will have to gain 26 of the 133 seats held by the liberals in the next parliament.

DIRECTOR of the Census Durand has announced that the center of the population of the United States is in the city of Bloomington, Ind. This is eight miles farther west than the location announced July 17, when Director Durand placed it four and one-half miles south of Unionville, Indiana.

THE opponents of reciprocity in Canada are using the argument that reciprocity is the stepping stone to annexation. They regard this as the most terrifying bugaboo they can hold up to the voter. Which is a doubtful compliment to us. Canadians do not want to be annexed because they have the idea that we are more or less corrupt politically. How could they have gotten so ridiculous a notion?—Punxy Spirit.

SECTION 1403 of the new school code provides as follows: "Unless otherwise directed by the board of school directors the admission of beginners to the public schools shall be confined to two periods, namely during the first two weeks of school and during the two weeks following the first day of January in any school year. Provided that beginners becoming six years of age after the beginning of the school term and before the first day of January of any year shall be admitted during the period at the beginning of the school term and beginners becoming six years of age between the first day of January and the close of the term shall be admitted during the period following the first day of January. Provided further that the board of school directors in any school district may fix such other periods for the admission of such beginners as it may determine."

Information Concerning the Election of Township and Borough Officers This Fall.

Axtell J. Byles, Esq., a prominent attorney of Tionesta, who has given the matter much thought, issues a statement regarding the nomination and election of borough and township officials from which the following facts are taken, and to which we would urge the attention of voters throughout the county. Among other things Mr. Byles says: Generally speaking, all township and borough offices filled for four year terms in 1907 and for three year terms in 1908 and at the February election 1910 for terms that were heretofore one year or two years are to be filled this fall.

Your attention is especially called to the necessity of specifying whether a school director is a candidate for the two, four or six year term. If the term he seeks is not specified in nominating him, his name will not be printed on the election ballot in November.

The following officers are to be elected in November: TOWNSHIP OFFICERS. Judge of election, for two years. Inspector for two years. 1 supervisor for two years. 1 assessor for four years. 5 school directors, one for six years, two for four years and two for two years 1 auditor for four years 1 constable for four years No collector to be elected.

BOROUGH OFFICERS. Judge of election for two years. Inspector of election for two years. A burgess will be elected to succeed the burgess elected in 1908. (If the burgess was elected in 1909 or 1910 a successor will not be elected next November.)

Councilmen will be elected to succeed all councilmen elected in 1908. Councilmen elected in 1909 and 1910 will hold over. (However should any member of council be serving under an appointment in place of any councilman elected in 1909 or 1910 his successor will be elected this fall, in that case he would be elected for two years and papers must so specify).

High constable in boroughs, where he was elected in 1908, a successor will be elected in November (if elected in 1909 or 1910 a successor will not be elected.)

1 assessor for four years. 5 school directors, one for six years, two for four years, and two for two years. 1 auditor for four years. 1 constable for four years. No collector to be elected.

The number of years should be specified by each candidate for all offices so that there will be no misunderstanding as to the length of the term for which each is to be elected. All township and borough officers may be nominated by the usual method of party caucuses and this course will be pursued in Forest county.

Preserve this information as it may save confusion in the coming election of township officers.

—Mayor B. H. Carnahan, of Oil City, was notified Thursday by telegraph that the people of that city and vicinity would have an opportunity to see one or more airships in action. On or about Sept. 10, several aviators are to start from the Pacific coast for a flight to New York city in a contest for a prize of \$50,000 offered by W. R. Hearst, the New York newspaper man. Oil City is on the proposed route of the aviators, and the purpose of the telegram to Mayor Carnahan is to prepare him to take an official record of the day and hour the ships pass over the city. The communication requests the Mayor, in case he will be unable to set in that official capacity, to authorize some one to act in his stead. As the trip will not be made in a day there's no need to crane your necks just yet awhile, but as the high flyers are apt to scatter somewhat it may be that people in this latitude will get a glimpse of some of them, and the show may not all be pulled off in Oil City.

—As usually treated, a sprained ankle will disable a man for three or four weeks but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.

Kellettsville.

Last spring soon after the young people's temperance society was organized, they being informed by Miss May Showers that Mrs. Geo. Cuthbertson of Lynch, on account of sickness and death in her family, was in need of help, gathered up a load of clothing and food stuff and sent it to her. Mrs. Cuthbertson wishes to publicly thank the people of Kellettsville who donated so liberally, also Miss Showers for her kindly interest in her behalf.

A great big sign to the bridge they fit, Which proclaimed to all that they were fit; And then of course to complete the fun, The Middlers they in effigy hung.

HOGS DROP OFF DURING JULY

Figures Show Considerable Decrease From the Preceding Month.

Washington, Sept. 5.—Government statistics, just available, show that there was a considerable falling off in the number of hogs reaching market during the month of July, as compared with the earlier months of the year, but that the receipts of grain during the month showed a gratifying increase.

Livestock receipts during July at seven primary Western markets aggregated 3,308,680 head, compared with 2,888,675 head received in July, 1910. Of the total, 699,778 head were cattle 90,856 calves, 1,617,119 hogs, 875,474 sheep and 25,453 horses and mules.

Livestock receipts during the seven months of the present year—23,911,801 head—exceeded the corresponding figures of each of the five preceding years, the heavier receipts of sheep and hogs during the present year accounting for the larger total.

FRENCH FLEET IS READY FOR ACTION

President Fallieres Reviews Impending Array of Warships.

Toulon, Sept. 5.—President Fallieres and the members of the cabinet on board the battleship Masses, reviewed an imposing array of warships here yesterday. The entire French fleet in home waters maneuvered before the president and his ministers.

There were 98 vessels of all descriptions in the line and their total displacement was 419,000 tons, which is greater than that of the German home fleet, which recently assembled at Kiel. There were in the parade 15 battleships, 9 armored cruisers and 71 other vessels.

M. Theophile Delcasse, the minister of marine, who was in a group of official guests, told his listeners that the ships which they had seen were ready for battle. They were all coalled and each vessel had her hold filled with ammunition. They could be mobilized at once.

There was one slight accident during the review. The battleship Brennus ran down a pleasure boat crowded with excursionists, but there were no casualties.

MAY HALT HOBO CONVENTION

Washington Robbery is Attributed to Visiting Road Knights.

Washington, Sept. 5.—The influx of knights of the road during the past 24 hours has gladdened the heart of James Eds How, the millionaire hobo, who is directing the convention of the unemployed now being held in Washington.

Every incoming freight brings its contribution of delegates, and How is so encouraged that he is talking of prolonging the convention. The police may interfere, however. A bold burglary last night is attributed to the convention. George Browne, a former Cub baseball player, is one of the hobs.
