NO DECISION ON WATER CHARTERS

Full Text of Forest County's Petition Protesting Against the Granting of Water Power Charters.

A dispatch from Harrisburg under date of September 8th says: The fourth hearing on the application for the chartering of a big water project along the Clarion river and Tionesta creek, which was held today before the State Water Supply Commission, was marked by some spirited passes between counsel, Attorney Frank M. Eastman of Harrisburg, representing the promoters of the project, charged that the delay in securing final action was due to the "dilatatory" tactics of the Pittsburgh Flood Commission. This body, he said, first opposed the plan, then favored it; then switched again and finally did not appear at today's hearing, which probably will bring about another hearing. Members of the Water Supply Commission said today's special meeting had been called so hurriedly that the Pittsburgh Flood Commission could not arrange to be here.

The Pennsylvania Railroad Company and the Forest county commissioners both appeared today among the opponents of the charters being granted, neither having figured before. Eighteen different companies are asking for charters, of which J. R. Paul, J. R. Rose and ex-Senator John S. Weller of Pittsburgh are to be the incorporators, with Paul holding all but two shares of the stock in each. The plans include a 300-foot dam across the Tionesta creek valley just above Tionesta, the power to be generated at the mouth of the Clarion river. The protest of the Pennsylvania railroad, which was filed by Lyman D. Gilbert of this city, was awakened by the possibility of direct damages. The Pennsylvania and underlying corporations have considerable holdings in the territory affected and Mr. Gilbert's protest was in the nature of a "hands off" warning. Mr. Rose and Mr. Eastman said that no danger exists of the water backing up to an extent which will injure the Pennsylvania property. Contradictory opinions as to just what will happen were expressed by Eastman, Rose and A. C. Brown, Forest county solicitor, who presented the plea of the commissioners of that county. Brown was backed by Don C. Corbett of Clarion county; T. F. Ritchey ex-Congressman N. P. Wheeler and F. K. Brown, of Forest county. Solicitor Brown declared that the dam would wipe out from \$2,000,000 to \$3,000,000 worth of assessable property, six bridges which cost \$75,000, render 5,000 homeless and remove their employment and play havoc generally. He further declared that half of the county tax will be wiped out and Forest county shored to the verge of bankruptcy. Mr. Rose and others said that Brown was exaggerating matters, that not more than 1,500 persons would be directly affected and that the project would bring new industries into the valley to replace any which may be destroyed. Mr. Rose also disputed a statement by Mr. Brown that the backwater will be eight or ten miles wide, saying that its average width will be only 2,500 feet. Mr. Brown said that the residents of Tionesta would not care to remain in that town with the dam just above them for fear that the barrier would break. John Kirkbride, chairman of the Water Supply Commission, stated that at the request of the commission he has made a personal examination of the territory. His remarks indicated that he thought Solicitor Brown's statements were two sweeping, although neither he nor any of the other members of the commission made any direct statement as to the probable action which they will take. The commission continued the applications under advisement. No disposition of them will be made until further data is obtained from the Pittsburgh Flood Commission.

J. R. Rose, the chief engineer for the incorporators, will be in Tionesta tomorrow, Thursday, for a conference with the county commissioners.

FOREST COUNTY'S PETITION. In re applications of Tionesta Water Power Company, Green Water Power Company, Kingsley Water Power Company, Howe Water Power Company and Forest Water Power Company, for charters.

To the Water Supply Commission of Pennsylvania. We, the undersigned, County Commissioners of the county of Forest and state of Pennsylvania, on part and behalf of the citizens, residents and taxpayers of said county, do hereby protest and object to the granting of the charters as prayed for.

First.—We aver that the county of Forest has a population of about 10,000, and that the Tionesta creek runs through said county for a distance of 36 miles and that the said creek divides the said county into two parts of about equal area.

Second.—That along and adjacent to said creek and along its tributaries are many farms with buildings erected thereon and a large number of inhabitants of said county reside along said creek and its tributaries.

Third.—That the Tionesta valley extends all along said creek and located in said valley are factories, farms, tanneries, gristmills, saw mills, manufacturing plants, railroads, churches, kindling wood factories, handle factories, public roads, gasoline plants, oil and gas production and other industries all of value and of use to the county of Forest.

Fourth.—That along said creek and in said valley are many villages, public roads extending all along said creek and at many places crossing the same, and the value of the property situated in and along said creek and valley is worth upwards of three or four millions of dollars.

Fifth.—The county of Forest has erected on said creek within said county six bridges for the use and benefit of its citizens and residents at an expense of more than \$75,000 00, including one bridge erected at the expense of the state of Pennsylvania.

Sixth.—That Forest county consists of the following townships, viz:—Howe, Tionesta, Green, Kingsley, Barnett, Harmony, Hickory and Jenks, and one borough, Tionesta, that the Tionesta creek runs or flows through the townships of Howe, Kingsley, Green and Tionesta, and the Clarion river flows along the southern boundary of the township of Barnett, said county of Forest.

Seventh.—That should charters be granted as prayed for and the scheme carried out as contemplated then the entire Tionesta valley would be turned into an inland lake from one mile to ten miles wide and forty five miles long and

more than one-half of the entire valuation of the county would be destroyed, hundreds of people without homes, and other lands not inundated by said project, would be made practically worthless, roads, bridges, farms, manufacturing plants and all industry of the county would be affected and the valuation of the county so reduced and property so depreciated that the county would become bankrupt.

Eighth.—The township of Barnett, Forest county, is bounded on the south by the Clarion river and should the project or scheme be carried out as is proposed then a vast amount of private property consisting of mills, dwelling houses, stores and other property would be totally destroyed, public roads and bridges taken away and the inhabitants of said township would have no way to market their product and all the property of said township would be greatly reduced in value.

Ninth.—That at the mouth of Tionesta creek is situated Tionesta, the county seat of said county, and the county has erected there its juvenile jail, county jail, and court house. Many good and valuable houses are situated in Tionesta and much valuable property located in the Tionesta flats along the Tionesta creek and the Allegheny river with a four span bridge crossing the Allegheny river at Tionesta. Should the project be carried out the town of Tionesta would be in danger of damage by floods or breaks in the dam and the lives of its citizens be in danger and the value of property in Tionesta would be greatly depreciated.

From the facts above set forth, which can be substantiated by evidence, and believing that the grant of the charters would be detrimental to the inhabitants of the county and injurious to property of the county and its inhabitants, and knowing and believing that more than one-half of the entire taxable property would be destroyed and become useless and of no value and the lives of many of the citizens of the county be in great danger, we therefore on behalf of the citizens, residents and taxpayers of the county of Forest, do hereby most earnestly protest against the granting of the charters. Respectfully submitted,

W. H. HARRISON, J. M. ZIEGLER, H. H. McCLELLAN, Commissioners of Forest County, Attest—S. M. HENRY, Clerk.

Forest County Sabbath School Ballies. The will be a Sabbath School rally in the Presbyterian church, Marienville, Sept. 25, and one also in the M. E. church, Tionesta, Sept. 26, next. Meetings in the afternoon and evening, conducted by B. S. Forsythe, State Fieldworker of the State Sabbath School Association of Pennsylvania. General instruction will be given in all Sunday school work, and especially along the line of the organization and conducting teachers' training classes, home department and cradle roll. The principal object is to bring Forest county into the front line. To do so we need to do more work in the above three departments. All that is necessary is to put forth a little more energy on the part of superintendents, officers and teachers. Let the schools be represented at one of the above meetings and be prepared to report your school in the front line. A Front Line County is one that has:

1. A county organization. 2. Annual county convention. 3. Complete district organization. (Forest county is all one district and hence qualifies in this.) 4. Annual convention in district. 5. Statistics sent annually to state office. 6. Pledge to state association and paid. 7. County represented at state convention. 8. Fifty per cent. of schools must have cradle rolls. 9. Thirty per cent. of schools must have home departments. 10. Twenty per cent. of schools must have teachers' training classes.

I am informed there are about 42 schools in the county. The state convention meets in New Castle, October 11th, next. Forest county should be in the front line by that time.

W. C. T. U. Report. As not all the members of the Kellettsville W. C. T. U. will be in attendance at the county convention held at Endeavor this week, we would like to present a brief statement of some of the things accomplished in the various departments of the work here.

Under the leadership of Mrs. Ellen B. Catlin, who has been president of our union since its organization in 1907, our members are enrolled, also twelve honorary members. The Young Woman's Branch, organized and superintended by Mrs. Arvilla Hartman, has ten active and fourteen honorary members. Better unions have good attendance and interesting programs at their meetings.

One hundred programs were published and distributed, showing a stated time and topic for the woman's work. During the year, five mothers' meetings were conducted by Mrs. Cora Jones. Three social meetings, planned by Mrs. Dotterer, were enjoyed by many members. A special temperance program for the Sunday School was given and reported by Mrs. Anna M. Watson. The union has twenty-five yearly subscriptions for "State Bulletin," one for "Union Signal" and "Mothers' Magazine" is subscribed for and read by the members.

We have no complete report at present of the number of tracts and pamphlets bought and distributed at each meeting, but specially prepared literature was always used for topics discussed. In the department of medical temperance twelve physicians were reached with 700 pages of "National Leaflets" by Mrs. Dotterer. Motion picture equal suffrage was circulated by Mrs. Porter. Our treasurer's report shows money expended as follows: \$20.88 state funds; \$2.06 Willard Memorial fund; \$2.35 for National Literature; \$5.00 for soldiers and sailors; \$5.00 for flowers. The partial report of our flower mission superintendent, Mrs. Anna Watson, together with work along the same line by the Y. is as follows: 58 bouquets, 18 plants, 144 magazines, 44 vials, 19 bu. potatoes, 44 lbs. groceries, 37 qts. fruit, 30 jars jelly, 8 pair socks, 7 caps, 2 bonnets, 118 garments; \$15.90 cash, crackers 7 boxes, rolled oats 4 boxes, raisins 1 bu, 2 sacks salt, 8 sacks flour, canned goods 17, soap \$2.50, baking pow. 2 cans, lard 3 pails, drygoods 32 yds. At least, only a partial report can be given of the work along any of the departments, but we hope that what is noted here may prove that some things have been accomplished with a spirit of good will and helpfulness. And for the ensuing year we hope to have the further co-operation and help of every member of our union.
