### CHAS. W. MORSE A FREE MAN

Taft Commutes Sentence of the Convicted Banker.

CIVIL RIGHTS STILL LOST

Action Based on Attorney General Wickersham's Recommendation and Surgeon General Torney's Report.

Washington.-On the recommendation of the Attorney General, based on a report from the surgeon general of the army, the President commuted the sentence of Charles W. Morse, to expire at once. The New York banker, who was sentenced to prison for fifteen years for misapplication of the funds of the National Bank of North America, is therefore a free man, but his physical condition is such that it is doubtful whether he will survive more than a few months. The commutation, unlike a pardon, does not restore Morse's civil riguts. The White House statement grant-

ing freedom to Morse follows: The President commuted the sontence of Charles W. Morse, to expire at once. This action was taken upon the recommendation of the Attorney General, based upon the following report of Surgeon General Torney:

"A careful review of reports makes it clear to my mind that he is suffering from a combination of diseases, due to degenerative changes, which are incurable and progressive. The reports show that both the conditions of the kidneys and the heart are growing worse. I regard the attack of cardiac dyspnoea, or heart block, from which he suffered on the morning of the 15th inst., as an ominous occurrence. In my opinion the prisoner's duration of life will be in all probability less than one month if kept in confinement, and in the event of his release under commutation of sentence it is not probable that he will live as long as six months."

Designated as a special messenger by the Attorney General's office, Mrs. Morse left Washington immediately for Atlanta, bearing her husband's commutation papers.

"I Am Glad," Says Morse.

Atlanta.-"I am glad to hear the Charles W. Morse when informed by the post surgeon at Fort McPherson that President Taft had commuted his sentence. It was uttered in a weak voice, which carried little or no elation, for he realized that no mortal authority could release him from the clutches of incurable disease.

Bath Burns Red Fire.

Bath, Me.-This town worked up great enthusiasm in celebrating the release of Charles W. Morse, a son of Bath, when the news of the President's action reached here. In certain circles the joy was sincere, and all who believed him innocent and others, simply glad that he had been turned loose, made up parades and hired bands and burned red fire.

CHEER SALUTE TO FLAG.

Simple Act Causes Change of Feeling in Lawrence.

Lawrence, Mass .- A simp'e little act performed in accordance with military regulations had the effect of oil poured on troubled waters in the textile strike here. There had been no disorder but there were more jeers than cheers for the militiamen who are patrolling the streets.

During a parade of 10,000 strikers an American flag carried by the strikers was solemnly saluted by the solers was saluted by the soldiers. Great was the astonishment of the latter when the marchers, instead of hooting at them, set up a rousing cheer.

Throughout the line of march, which covered about five miles of slush-filled streets, the temper of the paraders seemed happy, and cheering was frequent. At least 1,000 of the crowd were women, and it is said that fortyfive natonaltes were represented in the line.

MISS EDMANDS IN HOSPITAL.

Richeson's Fiancee Patient in a Philadelphia Institution.

Philadelphia.-Miss Violet Edmands, who was to have been married to the Rev. Clarence V. T. Richeson, of Cambridge, now under sentence of death for the murder of his former sweetheart, Avis Linnell, of Hyannis, has been an inmate of the Gynecean Hospital, on North 18th street here, for nearly three weeks.

Miss Edmands is at the hospital, which essentially is an institution where women are treated for nervous diseases of all kinds.

SLANDER VERDICT \$10,000.

Suit Against Member of Board. -Morristown N. J.-A jury gave a verdict of \$10,000 damages in the suit for slander brought by Miss Lucy Hulbert against Willis G. Arnold, The complainant alleged that Mr. Arnold

### HONORED WITH EDISON MEDAL

George Westinghouse Again Receives Highest Distinction.

HE IS A WORLD AUTHORITY

In Development of Electric Current His New Field Is Commercialish-Many Experts Delving Therein.

Pittsburgh, Pa.-For his meritorious achievements in connection with the development of the alternating current system for electric fight and power, the American Institute of Electrical Engineers has awarded George Westinghouse the Edison gold medal. This action of the country's foremost scientific electrical body was determined by the board of direc-

tors at a recent meeting. The distinction conferred upon Mr. Wes.inghouse is an especially note-worthy one. For a long time the world's authorities on things electrical have been studying and experimenting on the mysteries of the aiternating current, with a view to introducing their discoveries into industrial practice. All of the great electrical plants have, and are now employing experts to delve into the alternating current, for in this direction, it is said, les new fields in electric commercialism. The great Edison, himself, sith ash mainly employed on types of storage batteries, has experimented in this field.

Mr. Westinghouse is a recognized world authority on things mechanical and electrical. Some years ago the Italian government conterred upon him the Order of the Crown of Italy, and Belgium has decorated him with the Order of Leopold. In this country the John Fritz medal was award-

RICHESON SEEMS DOOMED. Standing of Executive Council, 7 to 2 Against Minister,

Boston, Mass.-Hope of executive clemency that has thus far buoyed up Carence V. T. Richeson, confessed murderer of his sweetheart, Avis Linnell, has been abandoned by the min ister's counsel and few remaining friends, and it is now altogether prob able that the preacher will meet death on May 19 in the electric chair.

Governor Foss, in pleading for a commutation of the death sentence of Silas Phelps, to be put to death on the week of January 21, ascertained that seven of the nine members of the executive council believed in enforcing the death penalty so long as it remains on the statute books. standing will not be changed, it ap pears, when the Richeson case is brought up, and there is a possibility that the governor may not bring the matter up. ### POTATOES UP \$3 A BARREL

Heavy Imports from England Fail to Affect Market.

CROP IS SHORT WORLD OVER

Record Prices Due to Shortage of 80,-000,000 Bushels in United States-Farmers Holding for Higher Prices-Want Tariff Reduced.

New York.-High record prices for potatoes prevail in all of the produce markets of this country, due to the shortage in the crop of 1911. Wholesalers are receiving on an average of \$3.50 a bag for state, western and Maine potatoes, against an average price of \$1.60 a year ago and \$1.45 in 1910. Long Island potatoes are selling from \$4.00 to \$4.50 a barrel, compared with \$1.25@1.50 last year.

Farmers are asking all the way from 60 cents to \$1.00 per bushel and are holding out for \$1.50 in some quarters. In former years 40 cents per bushel was considered a fair aver-

The estimated shortage of the crop is about 80,000,000 bushels, caused by the climatic conditions of the past season. The situation would be even worse should this country not be in a position to draw supplies from abroad. Importations of potatoes during the past week were over 60,000 bags, and fully 100,000 bags arrived during the previous week. These imported goods tend to hold prices down to some extent, but, according to authorities in the trade, the consumers are not receiving the full benefit of this influx of foreign potatoes, due to the comparatively heavy duty of about 25 cents per bushel, to which they are subjected.

It is estimated that potatoes would be selling as high as \$4.00 and \$5.00 per bag of 180 pounds in the wholesale market were it not for the foreign supplies, the bulk of which are arriving from the British Isles. English potatoes are selling as high as \$2.90 a bag of 168 pounds.

A bill is to be introduced in Congress asking for a reduction of the tariff on potatoes, or abrogating it for at least three months, until the new crop from the South is due to arrive. Germany has already taken this step to reduce the cost to the consumer. It is argued that a reduction of the tariff would not hurt the American farmer to any great extent, and would be an immediate benefit to consumer. Receipts at New York were comparatively small during the past few weeks. Farmers are said to be holding back shipments in anticipation of even higher values during the next three months.

ENGLISH SPEAKERS IN STRIKE.

Weavers' Trouble in Lawrence Now Spreads-Thousand More Out.

Lawrence, Mass.-English speaking operatives in the woolen mills here to the number of more than 1,000 met and voted unanimously to strike and join the Industrial Workers of the World, the organization which is directing the fight for increased wages. This action is regarded as significant, as it is believed that the loss of their most skilled operatives will do much toward shutting up some of the mills completely.

Seven hundred more of the Arlington mills employees struck, and there were small additions from other establishments to the ranks of the unem-

Harrisburg, Pa.-From Marquette, Mich., comes the information that the first consignment of the white-tailed deer ordered some time since by the Pennsylvania State Game Commission will be shipped early in Februa-The deer are being trapped on the game preserve of the Cleveland-Cliffs Iron Mining Company, on Grand Island, Lake Superior. There are 60 in the lot to be sent to Penn-sylvania. New York is getting 20 of the same deer. There will be 25 does and five bucks in the first ship ment, which will be duplicated a few weeks later.

The deer are intended to replenish the fast-diminishing stock in this state and were ordered some months ago from the Michigan preserve not only because of the unusual size of the animal in that state, but because they were bought for \$20 a head, whereas \$40 is demanded by almost every other deer region in the coun-Bucks of this Michigan whitetailed species often attain a weight of between 500 and 400 pounds, and they are remarkably handsome ani-

The deer are intended for the state's game preserves in Perry and Westmoreland counties. Of the 10, 600 acres of forest preserves in Westmore and county, 2,500 have been prepared and set aside in which to turn oose these Michigan importations. It is expected that they will increase at a fair rate, and it is the desire of the commission that every man with the inclination and the steady aim may have one deer each year granted hini by the state law.

About two years ago 23 deer weere turned loose in the Monto Alto preserves, on which grounds is also lo cated the State's Tuberculosis Sani tarium. As showing the gratifying increase of the animals, it is recorded that a State Game Commission attache counted 78 deer on this preserve

OHPHANS GET BIG ESTATE. Big Bequest of Pittsburgh People for

Hannahtown, Pa.-The trustees of the Concordia Home for Orphans and Aged here, have come into possession of an estate of \$167,000, the gift of the late G. N. Neilman and Mrs. Neilman of old Allegheny City. Extensive improvements will be started next spring. G. E. Nelman, a wealthy German of old Allgheny, died in 1884, leaving a bequest in his will amounting to over \$60,000 to Concordia home which is under the Missouri synod of the Lutheran church. The estate was subject to certain interest of his

wife who died three years ago. Since that time the estate has been in the courts of Ariegheny county and the litigation recently terminated favorably for the Concordia home. In the meantime the original bequest, which consisted of stocks and bonds, increased in value until, with accrued interest, it amount to \$167,000. The home was founded in 1883 by C. G. Oertel, a German settler, who donated a farm of 50 acres.

BOARD OF PARDONS HEARS PLEA FOR THOS, GALLAGHER AND WARD KETCHEM.

WINTS HICHWAY IMPROVED

To Urge the Completion of Route 15, Which Runs From Towanda to New York State Line, as Soon as Possible.

Harrisburg.-The board of pardons heard a case of a sort which does not frequently come up, a plea being made for a pardon for Thomas Gallagher. who has served a year of an 18-month sentence in Philadelphia for fraudulent voting. No denial was made to Gallagher's guilt nor any allegation that there has been a miscarriage of justice, the plea being based solely on the grounds that Gallagher is seriously ill with tuberculosis and has no chance of recovery in prison.

Another unusual incident was the appearance of the Rev. C. R. Botsford, Berwick, in behalf of Ward Ketchem. The minister is not a lawyer and is the only one to represent Ketchem. For stealing something like \$50 worth of wheat, Ketchem was sentenced to 30 years in the penitentiary because he had served two previous terms for larceny. This heavy sentence was the one prescribed by the original prisoners' parole act of 1909. The application for pardon is based upon sufficient punishment, Ketchem having already served more than two years.

Want Highway Improved.

A delegation from Bradford county called on Highway Commissioner Bigelow to urge that work be started as soon as possible on route No. 15, mapped out by the Sproul bill. This route runs from Towanda, Bradford's county seat, to the New York state line, in a generally northerly direction. It has already been improved under the old acts for about three and half miles out of Towarda, and the Bradford people want the remaining 20 miles improved as soon as possible,

To Meet at Capitol. Harrisburg.-Utilization of the state forest reserves and education of the people in their importance will be the chief themes to be discussed at the annual convention of the foresters of the state to be held at the capitol March 5, 6 and 7. The program as outlined by State Forestry Commissioner Robert S. Conklin contains several important papers, but the convention this year will not be so much for presentation of papers as for discus-

sion of forest problems. Governor John K. Tener is expected o welcome the foresters and other state officials will speak. The first day will be devoted to the discussion of the proposition of the forester and his community. A. C. Silvius will discuss the general attitude and Alfred E. Rupp will tell how to remove an unfavorable impression. Raymond B. Winter, Tom O. Beisch, Harry K. Elliott and R. Lynn Emmerick will discuss other phases, especially contact with the public and education of

school children. "Forest Utilization" will be the theme of the second day, the discussions planned to be of the most practical sort, including: Early removal of defective trees, protection at a profit, study of markets, roads leading to markets and the like

Lebanon After Highways. Harrisburg.-Lebanon county has come handsomely to the front with petitions for the improvement of state roads, no less than five having been filed at the capitol in the last three months, North Lebanon township wants 7,415 feet; Bethel, 12144; North Lebanon, 7,000 additional; North Cornwall, 6,125 and North Annville, ,693. The applications are all for state aid, independent of the Sproul main highway bill and the surveys will be made as early as possible by, the state officials. Since last September applications for over 260 miles of road have been made.

Pittsburg.-The home of James Barnes, Wesley avenue, Wilkinsburg, was almost totally destroyed by fire,
