

Announcements.

TERMS.—Congress, \$25; Assembly, \$12; National Delegate, \$10; State Delegate, \$5. In all cases the fee must accompany the order for announcements.  
Primaries, Saturday, April 13, 1912.

Congress.  
The FOREST REPUBLICAN is authorized to announce that Peter M. Speer, of Oil City, Pennsylvania, will be a candidate for election to Congress from the Twenty-eighth Congressional District, subject to the decision of the Republican voters at the coming primary election.

National Delegate.  
EDITOR REPUBLICAN: Please announce my name as a candidate for delegate to the National Republican Convention at Chicago next June, from this congressional district. Subject to the decision of the Republican voters at the primaries, April 13th.

J. J. DYMOND,  
Columbus Twp., Warren Co. Pa.  
Assembly.

We are authorized to announce A. R. Meckling, of Barberton township, as a candidate for Assembly, subject to the decision of the Republican voters at the primaries, April 13th.

We are authorized to announce W. J. Campbell, of Tionesta borough, as a candidate for Assembly subject to the decision of the Republican voters at the primaries, April 13th.

Republican State Convention.

To the Republican Electors of Pennsylvania.

I am directed by the Republican State Committee to announce that the Republicans of Pennsylvania, by their duly chosen representatives, will meet in convention in the Majestic theatre, in the city of Harrisburg, on Wednesday, May 1, 1912, at 10:30 o'clock, a. m., for the purpose of nominating candidates for the following offices: One person for the office of auditor general, one person for state treasurer, four persons for congressman-at-large, thirty-eight persons, six at large, for presidential electors; to elect twelve delegates and twelve alternates at large to the Republican national convention to be held in Chicago on June 18, 1912; to nominate a candidate for any other office which is to be filled at the general election in November next, and transact such other business as may be presented. In accordance with the rules governing the Republican party in Pennsylvania, the representation in the state convention will be based on the vote polled at the last presidential election. Under the rules each legislative district is entitled to one delegate for every two thousand votes cast for the presidential electors in 1908, and an additional delegate for every fraction of two thousand votes polled in excess of one thousand. By order of the Republican State Committee.

HENRY F. WALTON, Chairman,  
W. HARRY BAKER, Secretary.

If there is anything left of Woodrow Wilson after Mars Watson gets through with him the Democrats will run it for President.

WOODROW WILSON will find it somewhat difficult to convince the American people that Henry Watson is a fabricator or an undesirable citizen.

ACCOMPLISHED facts are a sufficient Republican vindication, according to President Taft. A competent party can face every new contest by pointing to its record.

MEDICAL experts have either been doing too much or too little. There are more diseases now it would seem, than ever before and they are more easily contracted.

THERE are still a few more holes to be shot into Woodrow Wilson. That Cleveland-Wilson unpopularity is being dug up and someone has discovered that in a book written by the New Jersey man he has maintained that the Chinese are better workers than Italians. That man Wilson probably never knew when he wrote those words that he was going to be a prospective presidential candidate.—Titusville Herald.

The earliest use of asbestos was for spinning and weaving, to make incombustible thread and yarn robes and cloth, and this has continued to be the most important use of asbestos ever since the days of the Greeks and Romans. Only the best grades can be used for this purpose, according to J. S. Diller, of the United States Geological Survey. Thread can now be spun so fine that it will run about 32,000 feet to the pound.

The announcement of Congressman P. M. Speer last week that he would be a candidate for re-election was not a surprise to his host of friends throughout the 28th district, but with a cordiality and unanimity of feeling that augurs well for the success of our genial and brilliant Member. There is little or no likelihood that Mr. Speer will have any opposition for re-nomination by the Republicans, and as he has grown in popularity during his first term his election to the fall will be practically assured. And so it should be, as we doubt whether the district could produce an able or fitter man for the place, or one freer from factional entanglements.

Rid yourself of the old superstition that night air is harmful. It may be colder than day air, and occasionally it may be damper, but it is nothing to be frightened about. Use a little common sense and dress more warmly when you are obliged to be out of doors at night, but don't try to shut the night air out of your home by closing all of your windows. You have to breathe at night just as much as in the day time and night air is the only kind of air to be had at night. As a matter of fact, it is purer than day air. There is less dust, less smoke and fewer germs in it. The traffic and business, which in day time stir up impurities from the ground and fill the atmosphere with them, cease at night and the air becomes clearer. The important thing that our lungs take from the air is oxygen, and there is as much oxygen in the air at night as during the day. Air is air, no matter what the hour may be, but at night it is clearer than at any other time. So stop fearing night air and take deep breaths of it whenever you can.—Karl de Schweinitz, Executive Secretary, Soc. for prevention of tuberculosis.

Hon. Peter M. Speer.

Congressman representing the 28th District of Pennsylvania, whose candidacy for re-election was announced last week.

Porky.

We are very terrible, awful, sorry that we failed our readers the last two weeks with our interesting (?) letters, but owing to rush, accident and sickness around us we were unable to get to it. However, we will fall in line this week.

We are pleased to see some of our friends around writing from their towns. This news will be read with pleasure by those who are in other states and who take the home paper. Writers should bear in mind that many of our absent friends hear from their home town only through this medium and this good work should continue, as it will be much appreciated by the readers, and by the publisher of the paper also.

Gertrude Miller is sick with pneumonia, but is improving under the care of Dr. Serrill. Mrs. R. W. Burdick Jr. is staying with Mrs. Miller for a few days. Nellie Rupert upset some boiling tea on her legs about two weeks ago and has been having a tedious time staying in her room and missing school. She is getting along fine, but will not be out for some time yet.

Maurice Burdick spent a few days with his sister, Mrs. Thos. Miller, here last week, but went to Blue Jay to unload chemical work.

The National Transit Co. steamed their large iron tank here last week and will pump it out soon. Roy Holden of Weidbank was the steaming engineer.

The late cold weather has put most every one on a level, i. e., every one suffered with plugged oil and gas lines, but the moderate weather following eased up the troubles and everything is going on all right again. It was the coldest we have seen since we left the old sod.

F. A. Littlefield was a Watson visitor on Tuesday last, and we understand he got a position while there.

A sleighing party from Minister went to Blue Jay on Tuesday evening last and spent a pleasant evening with the Samuel Eschelmann family at the latter place.

The creek is closed at this place and the skating is the finest ever. Our youngsters are enjoying it, and their merry voices resound up and down the valley. If the ice goes out with high water there will be lots of work for all people to repair the damage.

Misses Chloe Cook and Florence Parker of Mayburg were at this place Friday visiting our schools, and called on the Rupert girls while here.

Marion Rupert went to Kelleysville with Dr. Serrill Friday evening and spent Sunday with Ed Gillespie's family.

Mrs. Al. Highgate and Miss Pearl Burdick were visitors in the village Friday and called on Miss Anna, who is cook at the Orphanage. Miss Anna went home Saturday evening to attend a party at Hastings and will return Monday. There was a real estate and horse deal closed at Minister, Friday, that included a house with water in the kitchen. We are not informed as to the money part of it.

Geo. H. Blum was up from Kingsley Sunday to visit his family and returned in the evening. He is feeling much improved in health.

The ice harvest is great and the people are taking advantage of it and much ice is being stored for the hot days of next summer.

Harry Smith was a caller at Minister, Sunday, and we are led to believe that a young lady is the attraction as his visits are frequent. He is registered at the Hotel Bennett.

The weather prophet's rain has not yet put in its appearance, and if it does come there is a probable exciting time awaiting us, as the ice is very heavy and we expect a greater damage than we have had from the ice in many years. It would be well for us to be on the lookout and save all we can. According to our shin-bone the ice will go out with a flood.

JUDGE FAWCETT, of Brooklyn, in sentencing a youth for burglary, said: "In the five years I have been sitting upon this bench I have sentenced 2,700 boys and not one of them has been an attendant of a Sunday school." This simple statement tells its own pitiful story. The boy who has formed the habit of regularly attending the Sunday school is not at all likely to be halted before the court for any misdeeds. His co-duck during the week is apt to be in keeping with his Sunday habit.

Cockerels For Sale.

Single Comb White Orpingtons from Imported English cockerel and Kellestrass strain of pullets. Also eggs in season. Further information given upon application. H. M. McKEAN, Endeavor, Pa.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by all dealers.

Kelleysville.

Three new cases of scarlet fever are reported in town and the public schools were closed Monday for a week in an effort to check the further spread of this disease. (Since receiving this communication it is learned that two of the cases here referred to have developed into diphtheria. They are Earl, the 13-year-old son of W. E. Carbaugh, and Monroe, the 12-year-old son of Clarence Jenkins. A strict quarantine is maintained over each household and a further spread of the disease is not expected.—Ed.)

Mrs. Hendrickson of Mayburg visited her son, F. V. Hendrickson, Wednesday. The lecture given in Johnson's hall Tuesday evening was voted a decided success by all who heard it.

The revival meetings at the M. E. church have been hindered by the scarcity of gas. Although the house was uncomfortable Sunday evening a good crowd gathered to listen to the able sermon preached by the pastor.

Charley Daubenspeck and Shern Kelly have exchanged houses during the past week, and both are busy getting settled in their new quarters.

At the meeting of the W. C. T. U. the State report, as written by Mrs. Taylor, of Marienville, was read and greatly enjoyed by the ladies present. It was decided to have Miss Parsells give a lecture in town when she visits the county in the near future. She is a speaker of unusual ability and will have something worth hearing to give us when she comes. After the meeting a substantial lunch was served by the hostess assisted by Mrs. W. F. Jones. The next meeting will be held this Wednesday afternoon at the home of the President, Mrs. M. F. Catlin.

Miss Martha Shriver of Tionesta was in town several days looking for subscription and renewals for the Visindicator. She is one of the contestants for the piano offered by that paper.

Roland Harmon and Nellie Miller visited the former's parents at Kelleysville Sunday.

Mrs. Wm. Tobey fell on the porch Wednesday morning and received very severe bruises over her entire body. She stepped out to throw out a pan of water and stepped on some ice that was concealed by the snow, both feet going out from under her. She was precipitated to the floor with great force, and although no bones were broken her great weight caused a very heavy fall which has so shaken her that she has been quite miserable since. She was taken with hemorrhage at the nose Sunday evening but it was overcome before any great inconvenience was felt, but as she is subject to these hemorrhages some fear is felt by her friends that it may bother her again.

Mr. and Mrs. Webster Mab and children, of Blair Corners, visited the former's mother, and sister Mrs. C. Y. Datar, Sunday.

The young people enjoyed a sleighride to Ross Run Saturday evening, and were entertained by Mr. and Mrs. C. Zuendel. The Misses Edith Gayley, Blanche Hendricks, Julia Lohmeyer, Julia Sillie and Zora Hartman treated Prof's Kiester and Frost, Dr. Serrill, Plummer Wilson, Glen Shaw and Julian Robbins to a joy ride, Friday evening. They drove to Nebraska where they were joined by the Misses Nellie Dewoddy, Ruth Klinschlag, Janet Haugh and Alice McCollough. Mr. and Mrs. Edward Dewoddy opened their home to them and extended a royal welcome. The evening was pleasantly spent in playing games and other amusements after which a supper of oysters, ice cream, cake, etc., was enjoyed by all. They returned home well pleased with their evening's pleasure and voted Mrs. Dewoddy one of the most genial of hostesses. We understand some of the "Leap Year ladies" were very timid and helpless, as became them in their new role, but the gallant young escorts nobly filled their mis-lion's and they were carefully attended and made most comfortable during the evening.

W. D. Datar was caught by the machinery while working in the handle factory and had the flesh so torn from his hand that he can not move his finger without the joint flying out of place and consequently is laid off nursing it.

About six o'clock Saturday morning the people of the town were aroused by the fire whistle and on making investigation it was found that Keezle's house was ablaze. The fire started from an overheated pipe which caught in a cheese cloth ceiling and was discovered by one of the little girls who was sleeping in a bed under where the fire started. Her cries woke John, who was sleeping in another room. He ran and snatched her from the bed just as a portion of the roof fell on the place where she was lying. Goldie was not hurt but John had his hand quite severely burned while rescuing her. The fire was quickly subdued, with only a portion of the roof and the clothing on two beds burned.

Mr. and Mrs. Mark Wilson of North Warren came down Saturday for a week's visit with their parents and friends in town.

Miss Bessie Porter has been on the sick list for the past week with cold and sore throat.

Charley Pope has a very sick horse at his place. His horses were taken with distemper some time ago, and he has doctored them as best he could, but one of them has developed such a complication of diseases that it is feared he will lose it.

Mrs. Jas. Blyler has been on the sick list for the past week.

Mrs. Geo. Price of Garland, and Mrs. Claude Price of Irvineton, were guests of Mr. and Mrs. M. F. Catlin during the week.

The following ladies composed a load which drove to Tionesta Friday evening, where they were entertained by Mrs. G. E. Watson at six o'clock dinner: Mrs. J. C. Miller, Mrs. H. B. Dotterer, W. A. Hartman, Mrs. W. A. Kribbles, Mrs. J. F. Ray, Mrs. W. S. Hendricks, Mrs. C. Y. Datar, Mrs. M. F. Catlin, Mrs. H. B. Watson, Mrs. E. M. Porter, Mrs. F. J. Henderson, Mrs. E. E. Daubenspeck, Mrs. W. E. Carbaugh, Mrs. W. A. Kineh, Mrs. Geo. Klinschlag, Mrs. Albert Dunkle, Mrs. Wm. Fitzgerald, Mrs. W. F. Jones and Mrs. H. B. Dotterer. Although the day was very stormy, Mrs. Watson, assisted by her daughter, Mrs. Slocum, and daughter-in-law, Mrs. H. B. Watson, made everything so comfortable and pleasant that the ladies felt themselves well repaid for their long trip in the cold, and voted it a very successful "Groundhog" party.

The Misses Virginia Jones, Bessie Fox, Marjorie Miller and Mary Alice Henderson, and Messrs. Jones, Wed-worth, Gorman and Thorn, with Mrs. Fide Shaw as chaperone, drove over from Hickory Saturday evening, and were entertained at the home of Mr. and Mrs. F. J. Henderson.

GREATEST WATER TUNNEL IN THE WORLD OPENED

Mayor Gaynor Fires Final Blast 1,100 Feet Under Hudson—Most Spectacular in World.

New York.—Standing in the rocky cavern 1,100 feet under the bed of the Hudson River Mayor Gaynor, of New York, pressed a key and electrically fired the blast that "holed through" the Hudson River tunnel of the Catskill Aqueduct and practically completely what has been called the greatest engineering enterprise, with the single exception of the Panama Canal, ever attempted. The blast not only broke through the last partition of granite separating the two sides of the tunnel, but it removed the last physical difficulty of moment along the entire length of the aqueduct from Ashokan reservoir to Croton Lake.

After the smoke had cleared away a gang of fifty men without clambered through the opening and joined in repeated cheering of the Mayor and the officials who accompanied him. Later the entire party trooped back along the tunnel to where an improvised bar had been set up and drank toasts to the Mayor, the officials, and their bosses.

With the Hudson River syphon an accomplished fact and almost 80 per cent. of the entire aqueduct system finished, it will be less than a year, the engineers in charge say, before the city's water supply will be replenished with the pure, springlike waters of the Ashokan reservoir. The project, which will have cost \$175,000,000 before it is accomplished, will remove forever, it is said, the fear of a water famine here.

STRIKE LEADERS ARRESTED.

Held as Accessory to Murder of Woman Killed in Riot.

Lawrence, Mass.—Joseph J. Ector of New York, national organizer of the Industrial Workers of the World and leader of the woolen operatives' strike here, was arrested on a charge of being an accessory to the murder of Anna Lopizo, the Italian striker, who was killed in the riot on Union street. Ector was arrested at his hotel when he was about to go to bed and was taken to the police station. State police also took into custody Octuro M. Giovannitti of New York, who has been Ector's right-hand man. He, like Ector, is charged with being an accessory to murder in connection with the death of Anna Lopizo. He was held without bail.

PAUPER TO GET \$3,000,000.

Heir to Big Fortune Was Candidate for Jersey Poorhouse.

Long Branch, N. J.—Instead of being sent to the county poorhouse, as planned, James Paddock, of Atlantic Highlands, a patient at the Monmouth Memorial Hospital, fell heir to between \$1,000,000 and \$3,000,000. Paddock has been treated as a charity patient for paralysis. It was decided to send him to a poorhouse.

Simon Paddock, of Syracuse, N. Y., a brother of the paralytic, died recently leaving his brother heir to between \$1,000,000 and \$3,000,000. Simon was a wealthy wallpaper manufacturer, and many years ago lost track of his brother James. At the hospital James was confronted with proof of his inheritance.

PROCLAMATION.

WHEREAS, The Hon. W. D. Hineckley, President Judge of the Court of Common Pleas and Quarter Sessions in and for the county of Forest, has issued his precept for holding a Court of Common Pleas, Quarter Sessions of the Peace, Orphans' Court, Oyer and Terminer and General Jail Delivery, at Tionesta, for the county of Forest, to commence on the Fourth Monday of February, being the 26th day of February, 1912. Notice is therefore given to the Coroner, Justices of the Peace and Constables of said county, that they be then and there in their proper persons at ten o'clock A. M., of said day with their records, inquisitions, examinations, and other remembrances, to do those things which to their office appertain and done, and to those who are bound in recognizance, to prosecute against the prisoners that are or shall be in the jail of Forest County, that they may be then and there to prosecute against them as shall be just. Given under my hand and seal this 29th day of January, A. D. 1912.

W. H. HOOD, [L.S.] Sheriff.

Foult on Cold Storage.

Dairy and Food Commissioner Jas. Foult at Altoona added his voice to the well defined demand for regulation of cold storage houses, that has been so noticeable in the state for several years. Last session of the legislature several bills having cold storage regulation were discussed but the commissioner did not appear in advocacy of any of them. It is presumed he will take up the matter now.

Get Out of the Rut.

"The evil man is made, not by nature, but by the environment in a simple disease, and the more it is that he is sedentary, uneventful, and ingloriously safe. More than half of him will remain unexcited and undeveloped; the rest will be distended and deformed by over-nutrition, over-cerebration, and the heat of rooms."—Robert Louis Stevenson, in "The Wrecker."

Profit in Seaweed.

The same species of seaweed used in Japan for the manufacture of kanten exists in inexhaustible abundance on our Pacific coast and at numerous places along the Atlantic coast, while related species, of equal value, are abundant almost everywhere in temperate waters. In this country the product commands high prices, so that the manufacture of seaweed insulations ought to prove a highly remunerative industry.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one drabbed disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for full testimonials.

Problem of Universal Peace.

War sweeps away not only some of the bravest and best of a nation, it also disposes of the offscouring of the countries at war. When, then, war ceases, a pressing problem will be how to prevent the accumulation of the dangerous classes no longer left on the battlefield.—Christian Register.

PASTOR'S MARRIAGE BUREAU.

Father Dalton of Kansas City Brings Hundred Young People Together.

Kansas City, Mo.—Marriages may be made in heaven, but the Rev. W. J. Dalton of the Church of the Annunciation believes they are facilitated by having branch matrimonial agencies right here on earth. In that belief he has established such a branch at his church and at the present time he has some fifty couples in training for double happiness.

Problem of Universal Peace.

War sweeps away not only some of the bravest and best of a nation, it also disposes of the offscouring of the countries at war. When, then, war ceases, a pressing problem will be how to prevent the accumulation of the dangerous classes no longer left on the battlefield.—Christian Register.

Prices Reduced on All Furs.  
G. W. ROBINSON & SON

NOTICE is hereby given that an application will be made to the Governor of Pennsylvania on March 2, 1912, by John B. Fassett, Aaron Brown, A. H. Squier and Ziba L. Squier, under the Act of Assembly entitled "An Act to provide for the incorporation and regulation of certain corporations," approved April 29th, 1871, and the various supplements thereto, for the charter of an intended corporation to be known as the "Billiken Oil and Gas Company," the character and purposes of which are the mining and boring for petroleum, oil, and natural gas, the selling, producing, storing, transporting and shipping of the same or any by product thereof, and the purchase and sale of such land and mineral rights as may be necessary in the conduct of such business, and for these purposes to have and enjoy all the rights, benefits and privileges of said Act of Assembly and the various supplements thereto.

H. S. HARBING, Solicitor.

TRIAL LIST.

- List of cases set down for trial in the Court of Common Pleas of Forest County, Pennsylvania, commencing on the Fourth Monday of February, 1912.
- 1. Alex. Wilson and Margaret Wilson vs. Geo. W. Hill and E. Hunt, No. 30, November term, 1910. Summons in detention.
- 2. William Brooks vs. Daniels, Cropp & Co., No. 1, May term, 1911. Appeal from J. P.
- 3. Ada M. Graham and Edward Graham, her husband, vs. the Borough of Tionesta, No. 5, November term, 1911. Summons in detention.
- 4. S. H. Lusher vs. W. A. Baker et al., trading and doing business as the Zeller Oil Company, No. 18, November term, 1911. Appeal from J. P. PROthonotary, Tionesta, Pa., January 29, 1912.

PROCLAMATION.

WHEREAS, The Hon. W. D. Hineckley, President Judge of the Court of Common Pleas and Quarter Sessions in and for the county of Forest, has issued his precept for holding a Court of Common Pleas, Quarter Sessions of the Peace, Orphans' Court, Oyer and Terminer and General Jail Delivery, at Tionesta, for the county of Forest, to commence on the Fourth Monday of February, being the 26th day of February, 1912.
