Unlucky Friday was also groundhog day, and the "chuck" saw his shadow all right. Hence there's still a six weeks' stretch of weather ahead of us sure enough. But just what sort it will be though, can better be stated six weeks hence.

Philip Williams' cow gave birth to a pair of pretty, plump twin male calves Sunday morning. They are marked so nearly alike that Philip has not been able, up to this time, to tell which is from 't'other. While this is not an unheard-of occurrence it is still quite a rare one.

Hearing In The Dam Project.

County Solicitor A. C. Brown and T. F. Fitchey, Esq., representing the county and the protesting citizens, respectively, went to Harrisburg Monday to be present at the hearing before the State Water Commission in the applications for water charters on Tionesta creek and the Clarion river, which was to be held yesterday. A strong protest against the granting of these charters will be made by citizens of Clarion, Forest and other counties, and if the commission favors the applicants they will do so with their eyes open. Hon. N. P. Wheeler of Endover accompanied the attorneys to Harrisburg and will be one of the influential opponents of the disabiotic scheme. The commission reserved its decision but promised to give the facts careful consideration.

Congressman Speer has done the commendable thing in his appointment of Kepler Davis, son of James D. Davis of this place, as a midshipman at the U. S. naval academy at Annapolis, Md. The preference of this young man is not alone creditable to Mr. Speer's good judgment but an honorable recognition of Forest county's claim as well, as it is the first honor of the kind she has ever enjoyed, and it meets with the most cordial approval of a host of friends who recognize the young man's ability. The following named young men have been nominated as alternates, respectively: Claude Bernard Conley, of Ridgway; William P. Wheldon, of Mercer, and Albert Richardson Schofield, of Warren. The examination, a most rigid affair, takes place April 15th, and we haven't any concern as to Kepler's ability to "eat it up alive."

The auditors' report of the condition of Forest County's financial standing is published in the REPUBLICAN this week, and will doubtless be scanned with much interest by the taxpayers and citizens of the county. The exhibit is a creditable one, the Commissioners' Statement showing that so far as the county is concerned there is no debt, but on the contrary there are assets amounting to \$13,439.30, consisting of cash in the treasurer's hands, and uncollected taxes and dues. In the Poor account there are \$10,000 in unredeemed bonds, against which there are assets amounting to \$6,494.81, leaving a net indebtedness of \$3,505.16, which will be wiped out as fast as the bonds fall due, no doubt. In going over the account the auditors found everything in apple-pie order. Treasurer Holeman, who retired on the first of the year, had his accounts in fine shape, they agreeing with the auditors' findings to a cent, and after turning over all balances to his successor, Mr. Brazee, we venture to say the ex-treasurer still had enough to his credit to pay gas bills during this rippin' cold weather.

Groundhog day rolled around and is a thing of the past. Of course he was out and looked around, saw his shadow and back to his nest for six weeks. Some doubt this but it has been going on for ages and never fails.

Phillip Hilliard attended the Odd Fellows banquet at Marienville last Friday night and reports a good time.

A party of surveyors is stopping here. They are running a line from Ridgway through Clarington for a state road.

The local institute held here last Saturday was conceded by every one the best they have attended for years. Prof. Braden and teachers certainly deserve credit for it. All the educational talent for miles around was here. Prof. Strawberry of Marienville, Prof. Cook of Howetown, Prof. Henderson of Lake City, Prof. Carson, our County Superintendent, and many others were here and took part. Marienville was well represented, all the teachers being present. The lecture was the crowning feature of the program. The church was filled long before the hour set for commencing the entertainment given by Byron W. King. Every local subject was on to hear the king of entertainers. It was one round of applause after another for the two hours he held his audience.

Shawkey and has hosts of friends in Warren who wish him a long and happy married life.—Warren Mirror.

Andrews Gets New Trial.

The State Supreme Court, sitting in Philadelphia, on Monday granted a new trial to J. M. Andrews, of Warren, convicted last August of the murder of Emil Amann, superintendent of the water works. It is stated Andrews' attorneys will make a motion for a change of venue, being their argument on the belief that it is not possible to secure an impartial jury in Warren county. It is possible that either Elk or Clearfield counties may be selected if the motion is granted by Judge Hinkley. The reason for the reversal of the lower court's decision was based almost entirely upon the instructions to the jury given by Judge Hinkley, which were termed "inadequate and erroneous." Judge Stewart handed down the decision, which is lengthy. Although there were 42 assignments of error Judge Stewart passed briefly over all but the first. He stated that whether they were reversible or not need not be decided since reversal followed upon the result of the first assignment.
