TERMS.—Congress, \$25; Assembly, \$12; National Delegate, \$10; State Delegate, \$5. In all cases the fee must accompany the order for announcement.

Primaries, Saturday, April 13, 1912.

Congress.

The FOREST REPUBLICAN is authorized to announce that Peter M. Spear, of Oil City, Pennsylvania, will be a candidate for election to Congress from the Twenty-eighth Congressional District, subject to the decision of the Republican voters at the coming primary election.

National Delegate.

EDITOR REPUBLICAN: Please announce my name as a candidate for delegate to the National Republican Convention at Chicago next June, from this congressional district. Subject to the decision of the Republican voters at the primary, April 13th.

J. J. DEXMOND, Columbus Twp., Warren Co., Pa. Assembly.

We are authorized to announce A. R. Meehling, of Barnett township, as a candidate for Assembly, subject to the decision of the Republican voters at the primaries, April 13th.

We are authorized to announce W. J. Campbell, of Tionesta borough, as a candidate for Assembly subject to the decision of the Republican voters at the primaries, April 13th.

APPROX of a recent discovery commented on in The Journal of the American Medical Association, to the effect that antiseptics, given in the chicken's food, affect the egg, we wonder what Dr. Wiley will do with a hen that embalsms her own eggs.

By the aid of science, it seems, she can now do it, and from what we know of this perverse fowl, we fear that she will do it. Such a discovery as this can scarcely elude the grasp of the astute poultry producer and egg embalsmer. Will it be applied practically, and if so, will its effects be pernicious or beneficial? Shall we be poisoned by both the hen and the egg, or will it now become possible for every farmer to stock his own storage warehouse and hold down the winter prices on hen fruit?

OWING to the economy measure of the House of Representatives it seems probable at this time that no appropriation will be made in the forthcoming river and harbor bill for the improvement of the Allegheny river. Several members of congress from western Pennsylvania will make a concerted effort to have an appropriation for the river included in whatever bill may be presented. Representative Spear on Monday presented a petition to congress signed by practically every voter in Emontion asking for the construction of five locks and dams in the Allegheny river, which would take the improvement up as far as Mahoning.

The petition was referred to the river and harbor committee. Mr. Spear hopes for an appropriation for the Allegheny in the bill this year and that eventually the improvement may be extended as far up the river as Oil City and possibly even to Warren.—Emontion Herald.

THE Brookville Democrat remarks that "a very able bodied Roosevelt movement has started in this state, engineered by William Flinn, the long time political enemy of Penrose. Flinn declares that Roosevelt will be an openly announced candidate within a fortnight, and already a number of Roosevelt candidates for delegates to the national convention under Flinn tutelage have announced themselves." But the people generally recognize that the Roosevelt boom is largely a myth, fostered by ambitious gentlemen who have heretofore been unable to make connections with coveted offices, and who want to slip in under the shadow of Mr. Roosevelt's coat tail. Mr. Roosevelt is not a candidate for President, and we do not believe that anything but the death or disability of President Taft would induce him to be a candidate.—Punkstown Spirit.

And it will be recalled that four years ago Mr. Flinn was just as enthusiastic (?) for Mr. Roosevelt at the same time that the ex-President was doing all in his power for his friend Taft, and whose friend he still continues to be.

Lynch.

Floyd Slocum has accepted a position as teamster at Kane.

Mrs. A. Showers was a business caller in Warren last Saturday.

Miss Jennie Meager of Trueman's spent Friday afternoon with friends at this place.

Mrs. Wm. St. Clair is spending a few days with her husband.

Tim Warner spent a pleasant Sunday with friends in Barnes.

O. K. Metz spent Saturday and Sunday with friends at Pigeon.

Mr. and Mrs. Kuapp spent Sunday at the home of R. Meager at Trueman's.

Mrs. A. McDonald is spending a few days at Endeavor.

The Howe township school board held their monthly meeting at this place on Saturday.

We are sorry to report that the following have been on the sick list for the past week: Mrs. D. L. Bean, Mrs. S. S. Eschelman, Mr. and Mrs. A. Showers.

Whig Hill.

The weather still continues to keep cool and people have to continually keep replenishing their wood piles. Cellars still freeze and people are complaining that they cannot buy potatoes at the stores but what have been frosted. While it is very cold, we are looking ahead for warmer days. Of course the woodchuck was out and went back and dug his hole deeper, but that was necessary, for if he hadn't he would have frozen. The sleighing is fine. Lots of hustling and everybody seems to be busy. No sickness to speak of and all is right.

Mrs. William Willis Kiffer is visiting her parents, Mr. and Mrs. H. Patterson, for a few days.

Born, to Mr. and Mrs. W. H. Lehman, a daughter. Mother and babe are doing fine.

The cold weather froze three little calves to death here on the hill recently.

The party at Mr. Barber's passed off fine. About twenty eight persons were present.

E. N. Decker sold a valuable foxhound, considerable \$30.00. He was shipped up to New York State from Tionesta on Monday.

Kelleetville.

Kelleetville has been quietly settled on its benches for the past week waiting anxiously for developments. There has been considerable sickness reported but only one new case of scarlet fever. Carl Vibbard was taken down with the disease Saturday but is said to have it in a very mild form. The gas supply all over town has been very low during the week and two-thirds of the people are out of water. The water supply on both sides of the creek is so weak, from some cause or other, that it is impossible to keep the private lines from freezing. All over town people are thawing out water pipes or carrying water.

Mr. Brumbaugh, the sawyer at the Salmon Creek mill, was laid off during the week with a severe cold and sore throat. He was able to go to his home at Red Brush, Saturday. E. E. Daubenschneid filled his place at the mill during his enforced absence.

George Porter, Daniel Fenstermaker and James Blyler, from the new mill, were laid off with colds during the week. At a meeting of the school board Saturday evening it was decided to keep the school closed for another week. The different rooms at the school building were carefully disinfected again Saturday and will be ready when it is found expedient to begin work again.

Robins are quite plentiful around town, quite a number having been seen by different persons, and a timid little blue bird was noticed one day during the week. Old timers say when these birds are found so far from their habitual winter quarters it is a sign of continued cold, and the thermometer seems to indicate that the predictions are so far correct.

Mr. and Mrs. M. F. Catlin were Bickory visitors Saturday. Mrs. J. M. Ault and daughter Luella, and Mrs. John Watson drove to Hickory Wednesday and spent the day with relatives. Luella remained for an extended visit, the others returning home in the evening.

Miss Edith Spencer, who has spent the past week with her parents, returned to her work at Jamestown, N. Y., Saturday. John Blum, while at work on the Salmon Creek handle factory, had his hand caught while throwing a belt and quite painfully bruised.

Mr. and Mrs. H. E. Murphy and Mr. and Mrs. H. B. Dottor drove to Nebraska Sunday and spent the day with Mr. and Mrs. Fred McNaughton.

Considerable excitement was caused by the announcement that one of the workmen from Wheeler's job above town had been laid off on Saturday. The announcement was made by a man who was not Wheeler's man, but it was afterwards given out that it was merely a hoax.

On its return trip from Sheffield Wednesday evening at a place known as Osgood's island, above town, the freight train collided with one of the company's engines, known to the workmen as "Nellie," which is used in shifting cars at the mill and conveys the men who reside at Buck Mills to and from their work, and both engines were quite badly damaged. Robert Wilson, who was on the little engine, sustained a broken arm and a deep gash in the head, which required fourteen stitches to close the wound. James Troutner was also considerably shaken up by the collision. The mill had not been running that day and there were only a few men on the engine, which is usually crowded to its fullest capacity, and it is feared if all had been on they would not have escaped with so few injuries.

The company is somewhat scarce in engines for the great amount of work there is on hand. No. 10 and No. 8 are both in the shop for repairs. They have a number of men at work on the former and expect to have it on the road again in a few days.

THAT preacher in Pittsburg who had a number of his congregation arrested and fined five dollars for sleeping while he was talking may think he has won the case, but if the sleeping was an offense the man talking may be justly held for contributory guilt. There are several methods of keeping a man awake. "Billy" Sunday has one method, preachers of very short sermons have another and preachers who say something wry of further thought every minute a third. The calling in of the police is also effective, but the man who is obliged to resort to it is not likely to bring salvation to a great many people.—Franklin News.

OHIO'S JURY SYSTEM CHANGE.

Public Approves, but Lawyers Object to Innovation. Columbus, Ohio.—Although the public generally welcomes the change whereby the Ohio Constitution after a hundred years adherence to the unanimous jury system will permit the Legislature to authorize courts in civil cases to accept verdicts agreed upon by three-fourths of the jury members, lawyers are divided over the proposal.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

GRAND JURY INDICTS FORTY LABOR LEADERS

Dynamite Probe Ends at Indianapolis—Conspiracy Involves 100 Explosions.

Indianapolis, Ind.—Union labor officials and agents, said to number between thirty and forty whom the government holds criminally responsible with the McNamaras and Cortie E. McManigal for perpetrating more than one hundred explosions which occurred in cities from Massachusetts to California in the last six years, and in which the wrecking of the Los Angeles Times Building was an incident, have been indicted.

The Grand Jury, which has devoted six weeks to its investigation of the nation-wide dynamite conspiracy, took only ten minutes to vote the indictments, which fill 3,000 pages of type-writing.

Thirty-two indictments were returned. Captives for arrests have been issued, and all the men indicted are to be taken into custody on a day secretly fixed by the government. March 12 has been set for the arraignment before Federal Judge A. B. Anderson, in Indianapolis. The papers for the arrests designate the amount of bond which the defendants may give in the federal districts in which they reside for their appearance here. The amounts of the bonds in the individual cases were not made known, but it was said they would aggregate \$300,000.

Almost all the men, it was declared, were either union officials or men who were charged with affiliating with the dynamiters.

WHY CONDUCTOR WAS MAD

Because Youth Disowned Acquaintance With Woman Whose Fare Remained Unpaid.

There was an uncomfortable congestion at the rear end of the pay-as-you-enter car, every one trying to get out of the rain and mud and only a third having their nickels ready. A young man gave the conductor a quarter, received his five nickels and dropped one of them into the box. "Here," shouted the conductor, "put in another nickel." "What for? I ain't two people," retorted the young man angrily.

"Well, who's that woman up there?" "I don't know. I never saw her before."

"Well, she didn't pay." But the impatient passengers demanded attention and the man at the box had to drop the subject, although he looked into the car later, glaring with especial disfavor at the youth who disowned acquaintance with the woman whose fare remained unpaid.

Game All Right.

While playing an engagement in St. Louis a couple of seasons ago, Tom Lewis struck up an acquaintance with a wealthy Texan living in the same hotel. There was a ball game scheduled that day between the Browns and a visiting club and Lewis invited his new friend to go out and see it.

The battle was a particularly hot one, the game going to an eleven-inning tie. When they got back to the hotel the Texan, who had become imbued with some of Lewis' enthusiasm, began to recount the scenes and close plays of the game to the hotel clerk.

States and Germany Will be Found Acting Together Against Any "Grabs" in China by Other Powers.

Washington.—In a note to the German Ambassador made public here Secretary of State Knox has again put the United States in the position of protector of the integrity of the Chinese Empire. He places this Government on record as in favor of a policy of "hands off" during the present political upheaval in China.

SENTENCE INFLAMES BRITISH.

Lawyer's Imprisonment by Germans May Prove the Last Straw.

London.—There is a rising tide of anger throughout England over the sentence to three and a half year's confinement in a fortress passed by the German Imperial Court at Leipzig on Bertrand Stewart, prominent London lawyer, on a charge of espionage. The feeling aroused promises to give the affair an importance second only to that of the celebrated Dreyfus case in France.

TO BANISH GALLOWES.

Governor Tener Appoints Commission to Study Execution Methods.

Philadelphia.—Opening the way for changes in the mode of state execution of the building of a centrally located "death chamber." Governor Tener announced the appointment of a commission to investigate the present methods of inflicting capital punishment here and abroad. It will bring before the Legislature a report.

AN EXCLUSIVE POOR FARM

No One Can Be Admitted or Assisted Except Those Who Once Paid Taxes.

Providence, R. I., enjoys the use of the most valuable poor farm owned by any municipality in the world, all because Ebenezer Knight Dexter in 1824 made a bequest leaving a big, stone strewn meadow and several parcels of land for that purpose. Today the property is valued at no less than \$1,000,000, and is in the center of one of the most fashionable residence districts of Providence. But while this is a poor farm, it is a very exclusive one, to say the least. By the terms of the will no one can be admitted or assisted except those who once owned and paid taxes upon real estate in Providence or whose father or mother was a real estate taxpayer in that city. No other Rhode Islanders and no person from any other part of the United States or from any foreign country may knock at the portal to obtain admittance and secure shelter and food.

The Dexter asylum is more than self-supporting. With a limited attendance, so to speak, it is said that the interest on investment or income is enough to furnish every inmate a trip to Europe each winter, with accommodations at the best summer hotels in Providence, when there was a great need of work for poor people, an old clause in the Dexter will provided for a stone wall built around the place was taken advantage of and many poor people were given work.—National Magazine.
