

**THE FOREST REPUBLICAN.**

J. E. WENK, EDITOR & PROPRIETOR

WEDNESDAY, APRIL 3, 1912

**Announcements.**

TERMS.—Congress, \$25; Assembly, \$12; National Delegate, \$10; State Delegate, \$5. In all cases the fee must accompany the order for announcement.

Primaries, Saturday, April 13, 1912.

**Congress.**

The FOREST REPUBLICAN is authorized to announce that as a candidate for Delegate to Congress from the Twenty-eighth Congressional District, subject to the decision of the Republican voters at the coming primary election.

PHILADELPHIA, Pa., March 18th, 1912.

FOREST REPUBLICAN:—Please announce that I am a candidate for Congress in the 28th Congressional District of Pennsylvania, subject to the decision of the Republican party. WILLIS J. HULLINOS, National Delegate.

EDITOR REPUBLICAN:—Please announce my name as a candidate for delegate to the National Republican Convention at Chicago next June, from this congressional district. Subject to the decision of the Republican primaries to be held in April next.

J. J. DESMOND, Columbus Twp., Warren Co. Pa.

For National Delegate (Republican) JOHN L. MORRISON, (Greenville, Mercer County,) if elected at the congressional district primaries, will support

**THEODORE ROOSEVELT**

for President in the National Convention. EDITOR REPUBLICAN:—Please announce that I will be a candidate for Delegate to the Republican National Convention, subject to party usages, at the primaries, April 13, 1912.

W. S. PALMER, Sharon, Mercer Co., Pa.

We are authorized to announce A. R. Nebling, of Barnett township, as a candidate for Assembly, subject to the decision of the Republican voters at the primaries, April 13th.

We are authorized to announce W. J. Campbell, of Tionesta borough, as a candidate for Assembly subject to the decision of the Republican voters at the primaries, April 13th.

**State Delegates.**

We are authorized to announce M. A. Carringer, of Tionesta borough, as a candidate for Delegate to the Republican State convention, at the coming primary election, April 13th.

We are authorized to announce Amos F. Leckor, of Tionesta borough as a candidate for Delegate to the Republican State convention, at the coming primary election, April 13th.

MAX there not be danger that the South Pole has been overdiscovered?

If Congress should cut off the President's traveling expenses Woody Wilson wouldn't take the job.

The jury has said the beef packers are not guilty. Likely then, the hogs themselves are the guilty ones in the "high cost of living" embroglio.

**Tax Title Tangle.**

Because the titles to a large number of properties throughout Warren county are rendered invalid by a decision handed down by Judge W. D. Hineckley, of this district, an appeal was taken Thursday by the county commissioners and the case will be argued before the Supreme Court this month. The case is that of C. A. Swanson versus J. A. Day, and is for the recovery of lands bought by the latter at the treasurer's sale of sealed lands.

Judge Hineckley ruled that taxes on sealed lands must be collected under an act of 1901 which is by law filed with the prothonotary and a writ for sheriff's sale issued thereon. For many years Warren and other counties have been collecting taxes upon sealed lands by treasurer's sales, as prescribed by an act of 1840.

To ascertain which method is more largely used, Attorney John Siggins, solicitor for the county commissioners, has inquired of 40 counties and has received 32 replies. In five the question was not answered definitely. Sixteen follow the method prescribed in the act of 1901, and 11 according to the act of 1840.

The decision of the Supreme Court will be of interest in every county in the State.

**Cherry Grove.**

Andrew Christenson of Kellestville and Axel Christenson of Sheffield, were guests of the former's parents, Mr. and Mrs. N. A. Christenson, Sunday.

Mr. and Mrs. Herbert Rowley were up from Warren a few days this week, guests of Mrs. Rowley's parents.

Miss Myrtle Johnson came up from Warren last week to care for her mother, Mrs. Christ Johnson.

Lillian Christenson is spending two weeks at her home here, having taken leave of her school at Edinboro on account of the illness of her mother.

Miss Nellie Farnsworth, of Glade, spent Sunday here.

Mrs. Wm. Johnson spent a few days of last week in Warren, returning home Monday.

A surprise party was tendered Mrs. Mae Weaver, Saturday evening. About eighteen were present and a very pleasant evening is reported.

An old derrick and boiler house belonging to E. M. Farnsworth burned sometime Sunday night. Though the derrick is not far from the house no one was aware of the fire, until Monday morning, when Mr. Farnsworth discovered the loss on going to the barn. It is not known how the fire originated, as all of the tools used on the lease were in the boiler house. Work on rebuilding is progressing rapidly, as all other wells on the lease are inactive until the boiler house is again replaced.

Wm. Johnson was a Sheffield caller Saturday.

Mrs. Louis Johnson was in Warren Thursday.

Miss Emma Christenson went to Warren Wednesday.

Miss Gertrude Hanson is in Warren a few days this week.

G. W. Gifford went to Kellestville Friday.

Henry Desher of Mayburg spent Sunday here.

—You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—but cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all dealers.

**170,000 Miners Are Called Out.**

Cleveland, Ohio.—The first step toward a stoppage in coal production in the United States as a result of the miners' wage disputes was taken, when the union ordered 170,000 miners in the anthracite regions of Pennsylvania to quit work.

The suspension was ordered because of the operators' refusal to grant the union demands for 20 per cent. increase pay.

The shutting down of the mines, union officials say, will cause a loss in the coal production of the country of 7,683,000 tons of anthracite a month, and will entail a loss in pay to the miners of not less than \$350,000 for every day they remain out.

President White of the union said a meeting between the anthracite miners and operators had been definitely settled on.

Settlement of the soft coal workers' trouble was effected after a day and evening long conference. A sub-committee to which the operators and miners' conference had referred a compromise offer by the miners, said it had agreed to the settlement.

The terms provide for increases in pay to the miners as follows:

Five cents a ton for mining lump coal.

Three cents a ton for mining all other coal.

An increase of 5.26 per cent. for men paid by the day.

The settlement of the peace terms is credited to the work of the Illinois operators and miners. H. N. Taylor, of the operators, proved himself as great a general as the late Francis R. Robbins, of Pittsburgh, in his best days.

On the side of the miners John H. Walker is given the credit for securing the advance. The other operators were outgeneraled. The operators of the states not represented will accept the settlement without question.

There will be a suspension in the bituminous fields in all States except Missouri, Kansas, Arkansas, Texas and Oklahoma, where the miners have an agreement to work pending negotiations for a contract. About 350,000 union men are benefited.

The suspension in the soft coal fields as a result will be of short duration. Railroads and manufacturing interests, fearing a strike in the soft coal fields, have stacked up so that the short temporary suspension will have little effect.

Statistics based on the anthracite shut-down follow:

Number of workers affected...	170,000
Women and children affected...	200,000
Collieries to close...	268
Mines to lie idle...	751
Monthly loss in wages...	\$5,500,000
Operators' loss in net profits (Monthly)...	\$5,400,000
Loss to middlemen and agents (Monthly)...	\$2,500,000
Loss to railroads (Monthly)...	\$9,500,000
Loss to coal region merchants (Monthly)...	\$8,000,000

**ARM AMERICANS IN MEXICO.**

President Taft Sends 1,000 Rifles to Ambassador Wilson.

Washington.—The long anticipated crisis in the Mexican revolution, so far as foreigners are concerned, is near at hand. No attempt is made now by the United States authorities to conceal the grave concern that is felt in Washington.

The latest reports from Mexico indicate that the revolutionary movement is rapidly gaining strength and that the Federals are being defeated in important engagements.

There were shipped from New York 1,000 Krag-Jorgensen rifles and one million rounds of ammunition to go to Ambassador Wilson at the City of Mexico. The rifles came from Watervliet Arsenal and the ammunition from Frankford Arsenal, and the weapons and ammunition are to be distributed by the Ambassador to Americans in the city.

So critical is the situation in Mexico that the United States Government has entered into negotiations with practically every steamship company operating vessels in the Eastern coast trade to transport troops to that country for the purpose of intervention.

Another ALLEN SURRENDERS.

Boy Accused in Hillsville Court Shooting Gives Himself Up.

Mt. Airy, N. C.—The "capture" of Fred Allen, the 17-year-old son of Jack Allen, was another tame affair in the deal that will at least him from the electric chair and there was nothing connected with it in keeping with the bravado that prompted the shooting of the Hillsville court officers. He was captured in the barn of his father eight miles southwest of Hillsville.

Will Study Fishways.

Harrisburg.—No time is to be lost by the state fisheries authorities in beginning a study of the fishways in the dams of rivers in New England states so that information as to the best way to proceed in the case of the McColl's Ferry dam in the Susquehanna may be obtained. Commissioner Buller will visit the regions of Connecticut and Massachusetts where power dams have been erected and if possible a plan will be devised this summer.

The McColl's Ferry dam has virtually ruined the shad fishing above that point and the company has offered to assist the state in putting in fishways which will enable the famous food fish to get up for the spawning.

It is thought that by removal of the fishing limits at the dam considerable fish can be caught and the renown of the district for sport will return.

Want the Trout.

Fish Commissioner Nathan R. Butler expects the placing of fish obtained from the Ohio state hatchery for the propagation of pike perch in Lake Erie to be started early this year. Arrangements have been made for a large amount of eggs to be sent from Put-in-Bay to the hatcheries in the northwestern section. Large numbers of trout are being asked for by western fishing clubs, says the commissioner.

**From California.**

TAFT, CALIFORNIA, March 21, 1912.

DEAR FRIENDS—I have located here and think that I will make this my headquarters for some time, as I am working for a contractor at housebuilding and the prospects for steady work are very good. Carpenters get \$5.00 for eight hours in town and have transportation and board paid when taken out of town.

This town has been in existence only three years and has a population of six or seven thousand, has good stores, three opera houses and all manner of places of vice calculated to separate the "rough-necks" from their spare cash.

I always had the idea that civilization ended at the Missouri River, but I know better now, as the people out here enjoy all the luxuries of the east, without the discomforts. Seems as though nearly every man owned an auto and they are not afraid to use them either and no place on the map looks too far away for them to run to for a holiday. Nothing in the stores here seems any dearer than in the east, except shoes, and they seem about 25 per cent. higher.

Stopped at Sacramento two days and if I had possessed a pocket full of the long green believe me I would be right there yet, as that valley is as near Paradise as there is any need to be: green pastures, orange, lemon and olive trees, and palms and roses everywhere. Looked good to me after traveling 2,000 miles through continuous snow fields.

Saw all sorts of game on the trip, quail and prairie hens through the plains and Rocky Mountain sheep and deer in the mountains. A band of fourteen big horn stags within 150 feet of the track in the Royal Gorge, Colorado, and never moved while the train passed. I tried to get a snapshot but the train passed before I could open the window. Buena Vista Lake is only six miles away. It is seventeen miles long by two to three miles wide, and I wish you could see the ducks, geese, swan, pelican and coot that cover the surface of the water. Those pelicans are the queerest looking birds in the world, except on women's hats, about as big as a goose and snow-white, with black wings and a bill longer than that of the editor of the REPUBLICAN. Had great fun chasing jackrabbits with a pair of greyhounds but got no kills, as the sage brush grows too thick for good chases, but it tickles me to see them go. Just a pair of legs and ears. The valley quail are thick as flies in a kitchen where there are orchards and farnes but don't stay on the desert. Saw a rattler the second day I was here but I saw him first, so I munched his physiognomy.

I have not felt homesick for Pennsylvania yet, with her snow and ice, but suppose one breath of the air I left would taste good in a month or so. You may mail me a copy of your illustrious paper so that I may know what is going on in the old stamping ground and that I may not forget when the pleasant season is on; also that I may pray for your success. You might kill a few young ones with the aid of my prayers. Yours, L. L. McCUNA.

Liability Board to Meet Here.

Harrisburg.—An announcement has been made here that the state commission to frame an employers' liability law, which has been pending the last ten days in inspection of industrial establishments in Philadelphia and Pittsburgh, would hold two days' hearings in this city on April 10 and 11. The officers are preparing a schedule of hearings for cities of the state which will include Wilkes-barre, Reading, Scranton and other places.

Another commission which will begin meetings shortly is that to study methods of capital punishment, which will meet in Philadelphia on April 11. At that time hearings will be held.

The building law commission will begin sessions within the next ten days in Philadelphia.

**A TERRIBLE ACCIDENT.**

In the year 1899, Charles Best of Pollock, Pa., was accidentally shot in the leg near the ankle. Six inches of the smaller bone was removed from the leg, leaving him in a serious condition. Two doctors insisted on amputating the leg. Mr. Best said: "No, I will try ASIATIC BALSAM first." Three bottles healed the wound entirely in two weeks time. ASIATIC BALSAM is the wonder of the age for healing Cuts, Burns, Scalds and Frost-bites and has stood the test for 30 years. Try it for Muscular Soreness or Stiffened Joints on man or beast; for Kicks or Sore Shoulders, Sore Backs, Kicks or Cuts. Progressive Livermen and farmers keep Asiatic Balsam on hand for the many injuries their stock is liable to. It never fails. Try it and be convinced.

Mr. J. L. Findley, proprietor of the Ford City, Pa., livery stables, says under date of 1892: "We had a lame horse become entirely useless. We tried everything under the sun to cure this lameness and failed; we considered the horse a total loss. Weisfeld's Asiatic Balsam was recommended to us. After using a short time all lameness disappeared and the horse was entirely well. I consider it my duty to recommend Asiatic Balsam to all horse owners."

Mr. H. T. Farley, livery and sales stable owner, of Kittanning, Pa., says: "After giving your Asiatic Balsam a trial I find it the best remedy for Cuts or Bruises I have ever used. One of my men while clipping a horse had his lip cut entirely through. We applied the Balsam which healed the cut almost immediately. One of my horses received a deep cut on his leg, laming him badly. A few applications of your Balsam removed the lameness and healed the cut in a very short time."

Mr. F. K. Weaver, of West Penn Junction, writes under date of Jan. 1, 1899: "I have used Asiatic Balsam for years and it is the best remedy for cuts, burns and bruises known. It is healing, relieving the pains without smarting. I have always kept a bottle on hand."

Pollock, Pa., April 14, 1910.—"We consider Asiatic Balsam a world beater for all cuts, burns and sores on man or beast." Best Brothers.

Mr. B. Steigler, of Herman, Pa., writes: "My son Christian, aged 12, fell from a tree, striking on a broken bottle, cutting a gash in his foot four inches in length and to the bone. We used Asiatic Balsam, three bottles of which healed the wound sound and well in two weeks."

We are placing Asiatic Balsam on sale in all stores. If your dealer does not have it, ask him to get it, as he will have a ready sale for it when once used.

The Weisfeld Manufacturing & Chemical Company, Parkers Landing, Armstrong Co., Pa.

**Porkey.**

This should be a legal holiday in most places and no doubt will be a tool day for some of us who are not wise. We will be careful, however.

Miss Johnson of Yan-see Camp was the guest of Wellers people on Sunday last, visiting the Shay and other families.

Miles O'Donnell uncovered a ten bushel pile of the finest potatoes in his lot on Saturday that we have seen. The tubers were as fresh looking as if they were just dug from the rows and not a one frosted. He will tell you how he did it, the magic words said and all about it if you ask. There is a trick in it and it is fresh, too.

John Carril of Newmansville spent Saturday and Sunday with his sister, Mrs. Geo. Blum, of this place.

Frank Littlefield was home over Sunday and Sunday with his wife and she is coming back with him.

Frank Littlefield was home over Sunday from his work at the Watson Farm and is pleased with the place over there.

A. D. Sealor of Mayburg was at the Koptert home on Sunday and made some very good cornet solo records on Edison blanks. These were about the best made here yet.

Our Sunday School is enlarging but there is yet lots of room in the church for more and we hope they will still come until we have to borrow chairs to seat them.

It is reported that W. T. Kerr is sick at Fool's Creek, but we hope to hear that he is better. He is now about eighty years old and has been pretty active all winter. He lives near the above place and the people are good to him and look after him in every way they can.

There is a "preper" at Fool's Creek that does not bother. Shame on him, and he ought to get a dose of something he much deserves if this is a true rumor. The ladies should give him a pile of soap.

D. W. Downey received a sample bag of potatoes last week that were grown in Old Ireland, and they are nice specimens of the fruit. We are informed that our store at Fool's Creek has the same kind there.

We thank the Tionesta writer for the encouraging few words of last week and hope we can give our letter weekly. We are glad to know that our letters are even noticed. There are still other towns that should afford a news writer. Fall in, brothers.

—"My little son had a very severe cold. I was recommended to try Chamberlain's Cough Remedy, and before a small bottle was finished, he was as well as ever," writes Mrs. H. Silks, 29 Dowling Street, Sydney, Australia. This remedy is for sale by all dealers.
