Real Saxony Net Lace Curtains.

About the first of the month we received our import order from St. Gall, Switzerland, containing the most beautiful selection of Saxony Net Curtains in various styles, that has ever come to our upholstery department. Indeed, we feel justified in saying that in quality of net and workmanship, no domestic curtain can compare with these exquisite importations.

The styles and patterns are numerous in extent. Some are dainty enough to add charm to the most elegantly furnished drawing room, parlor or reception room. Others, heavier by contrast, will complete the furnishing of the dining room or library and are also suitable for use in club parlors.

The prices are \$5.00, \$7.50, \$10.50, \$13.00, \$15.00 and \$25.00 a pair, in 3 and 3 1/2 yard lengths.

Wood Given Long Life.

Showy Footwear in Russia.

All Russians have a weakness for handsome footwear, and the result is that there are more showy boots worn in the czar's empire than anywhere else on earth. This preference extends to the women as well as the men.

Very Likely.

Cousin Silas (reading)—"It says in this here paper that a sea kin jump 2,000 times its own length." Uncle Heck—"That's probably why we never hear of a sea getting run over by a motor car.—Puck.

Why Not?

Mr. Brown preached fearlessly and with power, and many in the audience were visibly affected. Rev. Mr. Ross did fine work with the chorus, and he sang as a solo: "Why Not Say yrrp-zwackibkz."—Chicago Tribune.

CARS FOR WOMEN.

A Novelty on the Burlington Railroad Fitted With Electric Grills.

By providing a car, exclusively for women, on two of its through trains of the Chicago-St. Paul-Minneapolis service the Burlington Railroad claims to have introduced a novelty for the comfort of passengers. The new cars are more than eighty-five feet long and are divided into two apartments. The larger of these is called the women's car, a place where the women travellers may retire and rest in the luxurious easy chairs. The color scheme of the decorations is a delicate shade of green and the apartment is kept comfortable by an automatic ventilating system.

For passengers who have a hobby for cooking, or whose health requires that their meals shall be prepared in a special way, an electric grill has been added to the women's car. The newest and most efficient electric cooking appliances, with a hood and fan to carry away any fumes, allow the fastidious to prepare dainties as easily as they could over the chafing dish in their own homes. Officials of the Chicago Burlington and Quincy Railroad Company say this innovation, contemplated for some time, has been hastened by the constantly increasing patronage of women travellers. The smaller part of the new cars is a trolley room for men.

The two trains on which the women's cars have been installed are the Minnesota Limited, which leaves Chicago at 6:30. In the evening, and the Chicago Limited, leaving St. Paul every evening at 8:30. If the innovation proves as popular as it is expected it will be extended through the entire Burlington service. The new plan is already being watched by other railroads, which are, it is said, considering the installation of similar exclusively women's cars.—New York Sun.

Pianos From Chicago.

Chicago is the largest piano producing centre in the world, turning out annually more than 100,000 instruments, which are shipped all over the world. Manila alone, within the last two years, has taken over 1,100 pianos. Mexico, until the troubles overtook that republic, took more than 6,000 pianos annually from Chicago, and Central and South America, especially the Argentine Republic, have been great consumers of Chicago pianos.

Up to a few years ago Germany sent all the instruments that were shipped to these countries. But the German woods in the cases would not stand the climate. It was Milwaukee that first discovered this and sent trade emissaries to the far-away lands. Within a few years Chicago has built up a large export trade in this line. What holds good of the piano also holds good of hand instruments.

Chicago sells approximately 100,000 pianos a year, aggregating in value about \$50,000,000, which is about one-third of the entire product of the nation.—Chicago Tribune.

Hurt by War Relics.

While in Chattanooga a few weeks ago a local man noticed an old colored man who carried his right arm in a sling.

"What is the matter, uncle?" he asked. "Is your arm broken?"

"No, sah," grinned the old man. "It's jet gun sore."

"Been hunting?"

"No, sah. Ah been shootin' trees."

"Oh, I see; target practice."

"No, sah."

"Then you'll have to elucidate."

"Well, sah, it's like dis," the old man explained. "We goes out into de woods an' shoots bullets into de trees. After a while de trees grows around de bullets a little bit, then we cut dem down to sell to people fum de Norf as relies ob de little ob Lookout Mountain."—Huntington Telegram.

Eagle Nest in New York.

An eagle's nest, with five little eaglets, is on the Davis farm in the town of Somerset, Niagara County, on the shores of Lake Ontario.

For many seasons past two American eagles, have made their headquarters at the Davis farm, but never until this season did they nest, and so far as known it is the first time that a nest has been built in Niagara county. The eaglets are carefully guarded by the old birds as well as by the members of the Davis family. Hunters are forbidden by law to shoot the birds.—Rochester Post Express.

Rubber Shipments.

The rubber shipments from Mexico during the five months ended November, 1911, aggregated in value \$4,970,000 gold, against \$2,148,000 in the same period of 1910. This is an increase of 130 per cent. The total value of the five months last year, compared with \$1,700,000 and \$54,000 in the respective periods of 1909 and 1908.—Daily Canadian and Trade Reports.

The Power of Niagara.

A recent estimate of the amount of energy derived from Niagara Falls places it at 273,140 horse-power, divided in its applications as follows: Electro-chemical industries, 126,000; railway service, 56,200; lighting, 36,400; various industrial purposes, 54,540. The total energy of the falls is estimated at 5,000,000 horse-power, so that not much more than 5 per cent. is utilized.—Youth's Companion.

Just About.

Uncle Ezra—"Then what do you think is the matter with the world nowadays?" Uncle Eben—"Just this: There's too much business in religion and not enough religion in business!"—Puck.

What a "Twister" Is.

In life insurance parlance the "twister" is that smooth-tongued emissary who goes about trying to persuade you to surrender your policy in a company with which you are perfectly content, on the ground that the rival company which he represents will surely yield better results.

Big Salary Explained.

"And how is your excellent son, the divinity student?" He graduated from the theological academy about a year ago, I believe? "Yes, just a year ago. And he's doing so well! They pay him a wonderfully large salary and next year he's to get more." "Indeed! That's very unusual. Perhaps it is his excellent delivery that nets him the large emolument." "Yes, that's it. He's one of the pitchers in the big league."—Cleveland Plain Dealer.
