President Gomez' Protest Will Not Alter Washington's Plans One Jot and Neither Will Any Further Protest From Him Make Any Different Effect-Roaming Bands of Negroes Do Damage.

VOL. XLV. NO. 14.

Washington, May 28 .- Only prompt restoration of order by the Cuban government can now keep United States marines out of the territory of that republic. Communications exchanged between President Taft and President Gomez in the last 24 hours have demonstrated the one fact that this government is firmly determined to afford all protection necessary to the American interests in Cuba and Amer ican citizons in that island.

Gomez Must Check Revolt. Either Gomez must check the negro revolt or the United States will protect its own. Colonel Karmany now has authority to send his marines beyond the Guantanamo reserve if he deems it necessary after arrival there. Replying to the Gomez note protesting against the naval demonstration in the vicinity of Cuba, President Taft assured the Cuban executive that the measures taken were not for the purpose of intervention in Cuba by the United States. At the same time the Taft note to Gomez did not pledge the United States not to intervene. It simply asserted that Intervention was not now intended by

this government. Meanwhile the naval mobilization at Key West is being carried out exactly according to schedule and with the greatest dispatch and celerity. By tomorrow night the United States will have off the Cuban coast nine big fighting ships with about 2,-500 marines on board, while 750 more marines will be landed at Guantana

mo, supported by two gunboats. Gomez' Protest Will Not Avall.

President Gomez' protest has not altered the Washington plans one jot and neither will any further protest from him make any different effect. Reports from Cuba received at the

state department did not show the slightest improvement in the situation. All the dispatches told of scattered disorders, roaming bands of ne-

gores, demands upon managers of industrial enterprises for money under who perished in the flood which folthreats of violence and the organizalowed the bursting of the dam, tion of volunteer guards in the Cuban towns. Man Dies While Wife Reads, There was nothing in the least to support the statements in President George P. Smith, 68 years old, is dead at his home in Irving street, Gomez' note that his government was Glean. Death came while Mr. Smith capable of taking care of the negro upwas lying on 'the couch after coming rising.

No one here realized that the condemned man and Joseph Seng of Allentown were one and the same until a telegram announced that the body was to arrive here today.

His parents were in ignorance of their son's fate until yesterday, and the shock to the family and friends was terrific. The message came from Seng's spiritual adviser, who claimed the hanging was unjust, as Seng shot in self-defense.
