# Restore Order or Marines Will Enter Cuban Territory.

President Gomez' Protest Will Not Alter Washington's Plans One Jot and Neither Will Any Further Protest From Him Make Any Different Effect-Roaming Bands of Negroes Do Damage.

Washington, May 28 .- Only prompt restoration of order by the Cuban government can now keep United States marines out of the territory of that re-Communications exchanged public. between President Taft and President Gomez in the last 24 hours have demonstrated the one fact that this government is firmly determined to afford all protection necessary to the American interests in Cuba and Amer ican citizens in that island

## Gomez Must Check Revolt.

Either Gomez must check the negro revolt or the United States will protect its own. Colonel Karmany now has authority to send his marines beyond the Guantanamo reserve if he

deems it necessary after arrival there. Replying to the Gomez note protesting against the naval demonstration in the vicinity of Cuba, President Taft assured the Cuban executive that the measures taken were not for the purpose of intervention in Cuba by the United States. At the same time the Taft note to Comez did not pledge the United States not to intervene. It simply asserted that intervention was not now intended by this government.

Meanwhile the naval mobilization at Key West is being carried out exactly according to schedule and with the greatest dispatch and celerity.

By tomorrow night the United States will have off the Cuban coast nine big fighting ships with about 2,-500 marines on board, while 750 more marines will be landed at Guantana no, supported by two gurboats.

Gomez' Protest Will Not Avail. President Gomez' protest has not altered the Washington plans one jot and neither will any further protest from him make any different effect.

Reports from Cuba received at the state department did not show the slightest improvement in the situation. All the dispatches told of scattered disorders, roaming bands of negores, demands upon managers of ininstrial enterprises for money under threats of violence and the organization of volunteer guards in the Cuban towns.

There was nothing in the least to support the statements in President Gomez' note that his government was capable of taking care of the negro up-

# TROOPS LEAVE HAVANA

### Cuban Commander and 900 Soldiers Sail For Santiago.

Havana, May 28 .- General Monteagudo, the cammander-in-chief of all the armed forces in Cuba, sailed from here with a large force at 7 oclock last night for Santingo on the cruiser Cuba which has just arrived from the vards at Philadelphia and the Herrera line steamer Julia which had been pressed int oservice as a transport. Besides the general and his staff, there were 900 men and a lot of machine guns. Havana is now denuded of troops.

President Gomez gave out two lengthy interviews for the American press. The gist of these was that the revolt exists in only nine townships in Santiago province.

In reply to President Taft's despatch in regards to protection of American property and non-intervention, which was an answer to the formal protest of President Gomez in regards to the movement of American forces towards Cuba, the Cuban executive last night sent the following cablegram to the Washington government: "I thank you beyond measure for

your cablegram which while tranquilizing Cuban patriotism, with the assurance that your government will limit itself to observe events with the disposition in case of necessity to protect the lives and property of Americans and morally support the Cuban government, without the necessity of landing troops on our territory save in case of extreme necessity, and on the understanding between both governments to that end. This proves the sincerity of government and people of the United States and their noble and friendly sentiments towards the government and people of Cuba who are determined as soon as possible to restore peace without any vacillating and without stopping at any sacrifices which the circumstances may demand. "JOSE GOMEZ."

# DIPPED IN VAT OF TAR

# Brutal Treatment Accorded an Unprotected Female.

Victim Was Taken From Her Home, Showered With Blows and Kick Up. on Her Face and Limbs, the Lights of the Town Being Turned Out, it is Alleged by Village Officials-State Will Investigate Outrage.

Never has Worcester county, Md., been more stirred than it is over the action of a gang of thugs, who, claiming official protection, dragged Mary Holzman, an unprotected woman from her home in Ocean City, Md., showered blows and kicks upon her face and limbs and concluded their performance by dipping her into a vat of tar in the presence of her 11-year-old son, who struggled to prevent the outrage Terrorized by her experience, the woman has quit the town. She is now being sheltered by "Tom" Jones.

One of the most startling features of the incident is the fact that the town's lights were out when the as sault was committed. Mrs. Holzman says the switch was turned through the connivance of town officials.

However this may be, the men

guilty of the outrage boasted while they were subjecting her to the indignities that their act had the sanction of the town council. Since then the boast has been repeated by them. Although the officials of Worcester county seem to have given evidence that they would be perfectly willing to have the whole incident blow over without taking action, they have at

last realized that this cannot be done Sheriff Hanson, acting under instructions of State Attorney Johnson visited Mrs. Holzman at the Jones home where it was arranged that she should be taken under protection to Snow Hill, the county seat. She demands an investigation saying she is the victim of defamatory gossip as well as a most brutal assault. Mrs. Holzman says the men who

assaulted her were fishermen. She was known in the community as "Red Light" and resentment was aroused against her because of the charge that was made that she harbored colored men. She declares there is absolutely no truth in the reports and the men, includes in its membership maintains that the offensive epithet more than 160 relatives of persons applied to her is entirely unjustified.

Shortly afterwards he heard cries from his mother's room and found her lying on the bed unconscious. It is said that she had been brooding over family troubles. While trying to cross the street in front of a River street car in Hornell, August Schonert, 20 years old, who lives with his parents in Hillside place, in that city, was run down and probably fatally injured. ## TO PROBE PRICE OF COAL

### U. S. Attorney at Philadelphia Ordered to Investigate.

Philadelphia May 28. - That the Reading company will be called on to explain the sudden and arbitrary advance in the price of coal was made evident here when the United States attorney was authorized by the department of justice at Washington to commence immediately an investigation of the charges that had been made with regard to the advance in prices

District Attorney Rotan has also begun an independent investigation, and it is believed that his inquiry will be as effectual as was his crusade against the ice trust three years ago, which had the effect of restoring old prices in one of the hottest summers on record and when there was concerted action to compel the poor to pay excessively for the necessity.

The complaints which have been made to Washington have been instituted by the Consumer's league of this city. The league has secured evidence which will be particularly pertinent, since the complaint affects an article which comes within the interstate commerce act. On this ground the government has been able to take a hand in the investigation and agents of the secret service are here investi gating the charges, which were sent to the department of fustice, in order that an early report may be made and Immediate action commenced by the government if it is found that they can be substantiated.

# LEARN SON WAS HANGED

### Parents of Man Executed In Wyoming Ignorant of His Arrest.

Allentown, Pa., May 28. - Through reparations being made for burial of his body, it developed that Joseph Seng, who sprung the trap himself when hanged in the Wyoming state prison at Rawlins last week, was a wellknown resident of Allentown. No one here realized that the condemned man and Joseph Seng of Allentown were one and the same until a telegram announced that the body was to arrive here today

Seng was convicted for shooting a man to death in a saloon row.

His parents were in ignorance of their son's fate until vesterday, and the shock to the family and friends was terrific. The message came from Seng's spiritual adviser, who claimed the hanging was unjust, as Seng shot in self-defense.

# BEAT STORK TO HOSPITAL

Prominent Georgia Woman, Atlanta, May 28. - An automobile ambulance in a race with the stork ran down Mrs. J. E. Northcutt, and caused P. R. Another passerby picked up the money and turned it over to Miller. Mrs. Northeutt was accompanied by her grandchild.

### Arrest Man and Girl In Crusade Begun In Washington.

POLICE TRY TO END FLIRTING

Washington, May 28 .- Police of the national capital have undertaken the herculean task of breaking up flirting. The first move in the new crusade was made last evening, when detectives arrested a girl and a man who said he was a cotton broker of Hous-
