THE conspiracy case in Warren county, brought against Hon. Joseph C. Sibley. F. H. Taylor, C. D. Crandall, Geo. B. Munn and D. M. Howard, nearly two years ago, was quashed Wednesday morning of last week. Owing to Mr. Sibley's ill health, the case was continued from court to court, and a year ago the indictment against him was quashed. The indictment against the other defendants, however, was continued, and finally the case was put on trial last Tuesday, with the result stated.

Holeman came to Venango county when

National Conservation Association, with headquarters at Harrisburg has determined to lend its aid in protest against the granting of water power charters on Tionesta creek. This association is composed of many of the leading citizens of the state and will undoubtedly wield a big influence in the curbing of this gigantic grab, and every citizen of the county should join in this protest by writing a letter to the State Water Supply Commission. The granting of these charters means the ruination of Forest county, and surely there should be no lack of interest in fighting for the preservation of our county.

REPORTS sent out from Harrisburg indicate that only absolutely necessary work will be done this year on the main highway routes, which were taken over Odd Fellows memorial service at Tidi- nesta and Mrs. Mary Maze of Hottelville, last week by the state. Limited funds for maintenance is the cause assigned for no the Endeavor Band. extensive improvements. Work on roads actually being rebuilt will go on as planned. Up to the present time none of the township road supervisors have had any official notice that the state roads have been taken over, and as some of them are badly in need of repairs the question naturally arises, whose duty is it to make repairs? And in case of trouble | Viola's fifth birthday. Nine little guests arising from unsafe roads, who would be responsible? In this connection a Harrisburg dispatch under date of June 3 says: The state highway commissioner, E. M. Bigelow, has divided the state into fifteen districts, and each district will be birthday cake trimmed with roses and in charge of an engineer from the departcandles being the chief attraction . ment, who will have charge of the highway superintendents, thirty-one of which have already been named by the commissioner. Each superintendent will have about 150 miles of highway to look after, and it will be his duty to see that repairs are made as soon as a hole or uneven spot is discovered. The improved highways will be parroled by men who will be responsible for stretches of from one to three mlles in length. The earth roads taken over also will be improved. Machinery will be furnished by the state to the superintendents, and they will drag, scrape and roll the roads until they Mr. and Mrs. S. A. Allaire. are smooth and as durable as possible.

-Some of the township supervisors and road commissioners of Venango and adjoining counties are in danger of getting themselves into serious trouble for failure | Cora were in Sheffield Saturday, to obey the act relative to the removal of loose stones from the public roads.
