

Calendar for June 1912 showing days of the week and dates.

Republican Ticket.

State Treasurer—Hon. R. K. Young, of Tioga County. Auditor General—Hon. A. W. Powell, of Allegheny County.

ROOT IS TEMPORARY CHAIRMAN.

The great Republican convention was organized at Chicago yesterday, Senator Elihu Root, of New York, being elected temporary chairman, the vote standing 558 for Root to 302 for Governor McGovern of Wisconsin.

A motion to strike from the roll 92 contested delegates accorded to President Taft by the National committee and the substitution of the Roosevelt contestants, was postponed until today.

Much of the excitement and strife that has been predicted would prevail was conspicuous by its absence, and apparently the convention is proceeding in an orderly manner.

WOMEN will not be allowed to preach in Presbyterian pulpits. This was decided by the general assembly in session at Louisville, when an overture was read bringing up the question.

THE three year homestead bill permitting entrymen on public lands to prove their claims at the end of three instead of five years, allowing five months' absence from a claim each year and reducing the acreage to be cultivated on large claims from 80 to 40 acres, has been signed by President Taft.

About Your Vacation.

Karl de Schweinitz, Executive secretary of the Pennsylvania society for the prevention of tuberculosis, gives this good advice on the vacation habit.

Just about now you are making plans for your vacation. See to it that you go to a healthful place. Don't tolerate conditions that you would not endure in your own home.

Last Summer a number of persons who had been at a certain resort returned home with typhoid fever. Don't make the mistake they did, but inquire about the water and milk supply of the place you expect to visit.

How to Save our Chestnut Trees. The numerous reports received by the Chestnut Tree Right Commission from all parts of Pennsylvania confirm the earlier statements regarding its spread and virulence and the heavy losses sustained by timber owners.

It is also well for the people to realize the disagreeable truth that the chestnut blight is so widely prevalent east of the Susquehanna River that it is impossible to control it as readily or as successfully as in the western parts of the State where the infection is not general but appears sporadically.

At a meeting of the school board Saturday the following teachers were elected to teach the local schools: Principal, J. L. Simmons; assistant principal, W. T. Keister; No. 5, Mrs. Maud Berlin; No. 4, Edith Gayley; No. 3, Blanche Hendricks; No. 2, Loretta Dunkle; No. 1, Verma Miller.

On Friday there was a continuance of the fire near Yankee Camp and we hear that 800 cords of chemical wood were consumed, and some bark and logs. This is the fruit of not properly extinguishing a fire. All logs and stumps should be carefully inspected after a day or two for any small fire, for in a fire the small things are sometimes the most dangerous.

Meryl Barr, who is working at Queen, was home with his family over Sunday and returned to his job Sunday evening. William Hessler moved his family over from Whig Hill into the large house at Minister on Friday last, and will continue working for the Henderson-Miller Company, on their job on Minister.

ATHLETES ON OCEAN

Brawn and Muscle of Uncle Sam on Way to Olympic Games. An army leaving for the field of battle could not have received a more rousing sendoff than was given the team of 150 American athletes when they left New York for Stockholm, Sweden, on board the liner Finland.

The vastness of the undertaking rendered the chartering of a special steamer necessary and in addition to the 150 athletes who went on the glory winning errand there were as many enthusiastic followers of the sport who went along to encourage the athletes and cheer their victories.

A wireless message received from the Finland says that Harry Norton, sixteen years old, of Toledo, O., was a stowaway on the Finland and has been adopted as a mascot by the athletes.

After he was discovered the officers were going to put Norton ashore in a pilot boat, but the athletes promised to pay the boy's passage.

STEADILY GOING AHEAD

Business Revival Continues, Says Dun's Review of Trade. Dun's Review of Trade says this week:

"Business continues to expand conservatively but steadily, with accumulating signs of a year of more average activity. Elements of the situation which have been heretofore prominent are being largely ignored and business sentiment centers in the increasing confidence created by the steadily maintained industrial activity the improving conditions in merchandising, and the brightening outlook for the crops.

"Both east and west there are multiplying evidences of the widening scope of financial and industrial recovery from past depression."

Produced \$25,000,000 During 1907 Panic, Easing Money Market. R. H. Thomas, president of the New York stock exchange during the panic of 1907, told the Pujo congressional money trust investigators how J. P. Morgan came to the rescue of the loan crowd when call money rates soared to 125 per cent.

The women in their workroom, tired of the perpetual bickering, advised them to settle their differences in a fight. The two women armed themselves with pitchforks and fought in a lonely field. News of the duel soon spread, and the police hurried to the field, where they found one of the women lying unconscious with a wound in her head.

POWER MERGER PLANNED

Electricity For All Western Pennsylvania Is Report. A report from Kittanning, Pa., says that a gigantic electric power project is under way and that several big financial concerns are interested in it. It is said that the interests backing the Pittsburg, Shawmut and Northern railroad and the West Penn railroads are to finance the new project, which, it is reported, contemplates the expenditure of almost \$150,000,000.

Options have been obtained for enormous reservoirs on Cowanshank creek and Crooked creek, and many fertile farms have been purchased. Thousands of acres, it is reported, will be inundated for the new project. The electric power will supply all western Pennsylvania and will be distributed by means of high voltage wires and cables.

Exterminated the Bugs.

—There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
