

Calendar for August 1912 showing dates from 1 to 31.

Republican Ticket.

President—Hon. William H. Taft, of Ohio. Vice President—Hon. J. S. Sherman, of New York. State Treasurer—Hon. R. K. Young, of Tioga County. Auditor General—Hon. A. W. Powell, of Allegheny County. Congress-at-Large—F. E. Lewis, of Lehigh County; A. R. Ruple, of Cumberland County; A. H. Walters, of Cambria County; J. M. Morin, of Allegheny County. Congress—Hon. P. M. Spear, of Venango County. Assembly—Hon. A. R. Meehling, of Clarion.

They Endorse Mr. Meehling.

The Executive Committee of the Washington party of Forest county has unanimously and cordially endorsed the candidacy of Hon. A. R. Meehling for Assembly, upon receiving the following letter from him:

GENTLEMEN:—

With regard to my position upon the reform measures recommended in the platform of the progressive Republican party, adopted by the State convention, I would say I heartily endorse the entire platform as adopted at Harrisburg, May 1, 1912, and if elected will aid in carrying out the recommendations in said platform, as well as other important measures asked for by a large majority of our citizens, and shall bitterly oppose such measures as the grabbing of state water rights, so vitally important to the citizens of Forest and the other counties.

Trusting this will meet with your approval, I am Yours very truly, A. R. MEHLING.

WOODROW WILSON said in a recent speech that the people had found that they could make use of the Democratic party as a means of putting progressive ideas into practical legislation. To be sure they can, if they take the trouble to try. But how much easier it is to make use of the Republican party for that purpose, a party whose whole purpose from the beginning has been to promote progressive ideas. It is well to be careful, however, not to fall into the error of thinking that every change is necessarily a change for the better.—Punxy Spirit.

People Must Be On The Alert.

The protests against the proposed dam at Tionesta have had the effect of putting any action on the application for the charter over until more specific legislation has been passed by the Legislature. A new light on the subject appears to have been seen by the members of the Water Commission since the people of this section expressed their opinion. The arguments now given by the Commission for deferring action are based on information filed with that body. While it would relieve much anxiety in this community if the application was acted upon and refused, as it should be, there is some satisfaction in knowing that nothing will be done until the Legislature has considered the law. When that time comes the people can see that their side of the subject is presented.—Oil City Derrick.

It will be necessary, under these conditions, for the counties most affected by the attempt to steal these water rights to see that only the strongest and most influential members are sent to the legislature this winter, otherwise there is grave danger that the promoters of the schemes may succeed in snaking through bills that will allow them to grab these water privileges.

The Tuberculosis Dispensary.

Karl de Schweinitz, executive secretary Pennsylvania society for the prevention of Tuberculosis, says: Visit your local tuberculosis dispensary. It belongs to you, your taxes help pay for it. Pennsylvania is well equipped with dispensaries and no matter where you live, there is one within a few miles of you.

Send your friends to the dispensary if you think any of them are suffering from consumption. The doctor will tell them whether or not they have the disease and if they do not wish to pay for treatment in a private sanatorium, he will see that they enter the State sanatorium.

Until the patient can go to the sanatorium, he will be instructed at the dispensary as to how to take care of himself. A nurse will visit his home and will see that things are kept sanitary. When the patient comes back from the sanatorium, he should visit the dispensary regularly, so as to make sure that he is not losing ground and that the disease does not get the better of him through careless habits of life.

The dispensary tells the patient what is the matter with him, sees that he goes to a sanatorium and on his return encourages him to continue living the life which at the sanatorium stopped for him the progress of the disease.

Visit your dispensary at the first opportunity. It is your duty as a citizen and a part of your education.

Widower At Corry Fair.

Hurricane, the fastest trotting ostrich in the world, which has been secured as a special feature for the Corry Fair and who will trot twice each afternoon before the grand stand is according to ostrich lore, a widower, and will never again be held accountable by an exacting help mate, do what he may.

A glance at the head of one of these strange gigantic feathered bipeds will readily convince the most skeptical that a head of their size does not contain enough grey matter to nourish a four hundred pound body, yet for an animal endowed with a little sense, they possess a few traits that could well be imitated with sincerest flattery.

One of these is their habits of mating. When on ostrich mates, he mates for life, and in the event of the death of either bird the other one never remarries. Hurricane is therefore, a widower, Edna May, his mate, having met with a fatal accident two years ago, deprived him of his life's choice, and left him inconsolable and alone in the prime of his manhood. During the breeding season Hurricane shows fits of sulksiness and temper that even his trainer and keeper did not know he possessed.

In addition to the daily trotting exhibitions that will be given in front of the grand stand, Hurricane will be kept on free exhibition in front of the grand stand from 10 a. m. until 11 p. m. with his keeper in constant attendance who will be more than pleased to answer any questions that visitors may ask and everyone is invited to pay him a visit.
