—At any rate the lawns look lovelier because of the much rain. And the richer pasture fields help out on the milk and butter supply though the prices still soar with the clouds.

—Farmers are fearing a failure in the potato crop owing to the continuous wet weather, which is causing rot among the tubers. But for this trouble the promise of a big yield was never better.

—If you know of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to be without it. For sale by all dealers.

—The Tionesta ball team went to Henry's Bend Monday and defeated the team there in an exciting game, score 8 to 7. The boys report royal treatment by the home team and crowd and had a good time.

—Farmers over in the Stewart Run district report a damaging hail storm Sunday afternoon. On Cropp Hill and vicinity a lot of fruit trees were blown down and corn fields were laid flat by the wind and rain.

—Joseph W. Jones died at Erie, Kan., the 16th inst., from an attack of cholera morbus. If we mistake not Mr. Jones was a former resident of Fagundes and postmaster at that place for many years.

—Tidoute News.

—The unusually severe electrical storms of the past few days—or of the past two months, we might better say—have given the telephone people no end of trouble, and phones in almost every direction have been put out of commission at times.

—Dr. M. W. Easton, Osteopathic Physician, of Oil City, will visit Tionesta every Wednesday. See him at the Central House. Setting bones and the treatment of nervous and chronic diseases a specialty. Greatest success in all kinds of chronic diseases.

—Committee No. 2 of the Ladies' Aid Society of the Presbyterian church will hold a market in the church dining room, next Saturday evening at 7:30. They will have on sale bread, rolls, pies, cakes, cookies, meats and baked beans. Ice cream will also be served, by the dish or larger quantities. Everybody invited.

—The County W. C. T. U. convention, in session at the Presbyterian church, is quite well attended notwithstanding the inclement weather and bad roads, which have conspired to prevent many from a distance from being present. The session closes this evening with a lecture by Mrs. Parsells, which everybody is invited to hear.

—The Tionesta schools opened for the year Monday with a good attendance, the enrollment being as follows: Room No. 1, 37; No. 2, 40; No. 3, 30; No. 4, 23; High School, 29; total, 159. The teachers of the rooms in the order given are, Miss Blanche Pease, Miss Katharine Osgood, Miss June Herman, Miss Ida Paup, Miss Ruth Dimond, assistant principals, L. P. White, principal. Many improvements and repairs have been made about the school building and the work starts with an enthusiasm which gives promise of a very successful year.

—The seventh annual reunion of the Bimber and Little families was held on the 15th ult., in a grove at the home of J. F. Goldwaite, near Tidoute. Ninety or more relatives were present and a good time was had. Among the family connections present were Mr. and Mrs. Ray White and family, Mr. and Mrs. Dave Wright, Peter McIntyre, Ray Goldwaite of Endeavor.

—A change in managers has been made at the Wilburine pump station located at the mouth of Peters run just out of the borough limits. John Korb of Warren has been installed as the new manager, succeeding O. C. Stroup, who is transferred to another division, but just where he will be located is not yet decided. Harvey Johnston expects to take charge of the station at Enterprise in a short time.

—Dorothy, the five-year-old daughter of Ernest and Nellie Manson, died at the family home near Nebraska, Pa., Sunday, after an illness of about three days of cholera infantum. Monday the remains were taken to Fisher, Clarion county, the former home of the parents, where the funeral services were held and the interment took place on Tuesday, Rev. W. S. Burton conducting the services.

—Floyd, son of Henry Sibble of German Hill, came home Saturday carrying about as bad a dose of ivy poisoning as could well be imagined. He was one of a crew on a fleet of barges that left here last week and when near Emlenton was sent out with a line to "get a hitch," when he encountered a bunch of poison ivy which took effect on his face. Both eyes were closed by the swelling and his whole face was very badly swollen, causing intense suffering. At last accounts he was improving and it is thought the poison will leave no ill effect.

—The timely discovery of a fire at Rev. B. F. Feit's dwelling on the river front Monday evening was responsible for the saving of the house from total destruction. People coming across the bridge from the 6 o'clock train saw the fire and rushed in time to save the building after considerable effort. The little granddaughter of Rev. and Mrs. Feit had gotten hold of some matches with which she was playing near some shavings and papers that were lying at the rear of the house and had set them afire. Before the flame could be extinguished it had eaten into one of the sills and gotten well under way.

—In the past few weeks a contagious disease affecting the eyes of cattle seems to have gained a foothold in Elk county. There has been reported one case where the cow so afflicted has gone totally blind, another case where the animal is gradually getting worse and another instance is cited where the entire herd is afflicted. The disease resembles a catarrh of the human eye. A scum gradually covers the eyeball, and in a couple of weeks the animal becomes totally blind. State Veterinarian Marshall advises that a competent veterinarian be consulted when the disease makes its appearance.

—Three boys who ran away from their homes at Youngsville were put off the night train south at this station Saturday and turned over to Sheriff W. H. Hood, who locked them up for the night. They were, Thomas Horner, aged 10, Lucius Hyde, aged 14, and Robert Hyde, aged 17. The boys said they left home Friday noon, walked to West Hickory and got on the train there. They had no money to pay fare and had nothing but apples to eat all day Saturday. Constable L. L. Zuber took the lads back to Youngsville Sunday morning and turned them over to relatives. The two older boys will probably be sent to a reform school.

—The annual reunion of the Anderson family was held at Brookston, this county, Wednesday last, August 28th, at the home of A. P. Anderson and family, and there was something doing all day in the way of feasting and having a good sociable time. There were about fifty relatives present from Warren, Sheffield, Ludlow, Brookston and vicinity. The election of officers resulted in the election of Eli Anderson, of Sheffield, as president; A. P. Anderson, of Brookston, vice president; A. H. Lawson, of Warren, secretary, and Adolph Swanson, of Ludlow, treasurer. A special train was run over the Tionesta Valley road about 7 p. m., to bring the people home, and it was decided to hold the next reunion on the second Saturday of August next year in Ludlow, the place to be fixed later.

—A new two-cent stamp in commemoration of the Panama-Pacific Exposition in San Francisco in 1915 has been approved by Postmaster General Hitchcock. It is but an inch wide and an inch and a quarter long. It bears an engraving representing the Gatun locks of the Panama Canal, showing a steamship emerging from the northern lock and another vessel being raised in the southern lock. In the middle distance is a group of tall palm trees and in the background rise the hills of the Isthmus. Across the top are the words "U. S. Postage," and directly below these the line, "San Francisco, 1915." In each lower corner is an olive branch, typifying peace, and balancing it on the right is a palm branch, indicative of victory and the tropics. No color has been selected for the stamp. The first issue will be on sale in a few weeks.

—Charles Inel, who started for Pittsburgh on one of the barge and boat fleets being run by Lewis Cook, was badly injured last Thursday noon by being struck in the face by the end of one of the river cables, but his injuries are not as serious as first reported. With S. J. Shriver he had gone ashore with the line to make a landing at Jacobs' Eddy, just below East Sunday. They secured a good hitch on a pole but having only a short end of the line pulled through their hands and struck Charles across the face as it whipped around the pole. On y those who have seen such a line let go can realize the force of the blow and he had a fortunate escape from instant death. As it was his nose was broken and a gash cut over the right eye. He was given first aid to the injured at a nearby lumber camp and as soon as possible was taken on the fleet to Foxburg, where a physician sewed up the wound over his eye and sent him by train to a specialist in Pittsburgh. After making an examination the specialist sent him to the West Penn hospital, where he is being kept in a darkened room. The right eye was closed and it was feared at first that the sight was lost, but word from Pittsburgh Tuesday evening states that he will soon be all right and that he will not lose his sight.

—At the Presbyterian church the pastor, Rev. H. A. Bailey will deliver a series of Sunday evening sermons on "The Home," during the present month, as follows: Sunday evening, Sept. 8, "The Home, the Bulwark of a Nation." Sept. 15, "The Place Where You Live." Sept. 22, "Home Defenses." Sept. 29, "The Open Door." Services begin at 7:30 p. m. Music each evening by the Male Quartette. A cordial invitation is extended to all.

—Judge Siggins and daughter, Miss Ida Siggins, of Tidoute, were visitors in Tionesta a few hours Friday. They were accompanied by Miss Mary C. Oursler of Washington, D. C., who came to attend the recent reunion at Mill Village, Pa., of the Range family, of which she is a descendant. As secretary of the Washington genealogical society, Miss Oursler had gathered a fund of interesting data relating to this patriarchal family, auto-dating by many years the American Revolution, and her excellent paper, read at the reunion, was easily the feature of that happy occasion.

—E. M. Albert of Warren, fish and game warden, is in this vicinity looking into the alleged violation of the law by fishing on Sundays, which is said to be carried on to a considerable extent in French creek. Absence of public sentiment against fishing on the first day of the week has made the commission "wink" at violations in the past where the fishing was not done too publicly, or the operations were not too near a church, or highway or thoroughfare, but apparently the members have had a change of heart, as the same orders that have been forwarded to the Warren office are said to have been general in their character and apply to all sections of the state. The action while drastic has been expected for some time by local fishermen, and accepted by them as grounds for a movement towards the repeal of the law.—Franklin Herald.

—Many a man who would get into action instantly if a dog or a boy were bothering his cows will keep the milk supply down all summer rather than spray them with one of the several preparations which will keep flies, for the most part, away from the animals. It is probable that even young cattle would gain enough in weight and vigor, if sprayed during the worst of the fly season, to pay for material and labor. An important point, too, is that animals ought to have our best care, whether it pays in dollars or not. We gain much of our support from the dairy herd; thousands of children would never have survived infancy without the milk the cows give, and as we kill them and use them as we please, it is only just that we give them all the comforts of cow life, thinks the Franklin Newsman.

—To be marooned on an island for several days when you would prefer being at home is not the most pleasant experience in the world, but it is what has happened to several Kane residents. Dr. Baker and family and Miss Inez Zeller have been camping on Dawson Island, in the Allegheny river, for the past month and on account of the numerous rains of late the river has swollen to such proportions that to get off the island and bring their horse and baggage with them is out of the question. The campers expected to be home several days ago but they have been held prisoners by the angry, muddy waters of the Allegheny and must wait until the waters subside. The party is fortunate in that they have an ample supply of provisions.—Kane Republican.

—The Dr. has succeeded in getting his family and camping outfit off but the horse is still Robison Crusoe on the island, the river having again reached flood stage.

—September 1 is the first day of the season for shooting water fowl, shore birds, snipe, blackbirds of all kinds, and doves. This is highly unimportant to our sportsmen since ducks are about as plentiful in this latitude as hen's teeth; shore birds and snipe none, and blackbirds about as "gamey" as turkey buzzards, while no man with a soul the size of a great would think of murdering the killing, cooling dove. And the season for getting the cunning 'coon is also now on. What a happy thought of the wise legislator to put the devilish rascal on the protected game list! as sensible to protect skunks, weasels and chicken hawks, don't you think? And that reminds me that raccoons are working the cornfields to beat the band, and farmers are compelled to sit up nights and drive the varmints away to save their crops. The fellow who owns a good 'coon dog these days is about the most popular citizen in the township.

Whooping Cough—A Warning.
"Section 7. Act of May 14, 1909. No child or other person suffering from Whooping Cough shall be permitted to attend any public, private, parochial, Sunday or other school, and the teachers of public schools and the principals, superintendents and teachers, or other persons in charge of private, parochial, Sunday or other similar schools are hereby required to exclude any and all such children and persons from said schools for a period of thirty days following the removal of the quarantine on the premises wherein such children or persons reside respectively, and the disinfection of the premises and of the person or persons suffering from said disease."

The Act requires health authorities to place a warning placard, in a conspicuous place, on all premises where Whooping Cough exists.

The local Board of Health is expected by all good citizens to see that the foregoing regulations are enforced. Many children have Whooping Cough and no physician is called and hence no report is received of existence of the disease, and when the Health Officer visits the family and inquires if children do not have the disease, it is positively denied, and those affected are permitted to roam the streets as if nothing was wrong. This is contrary to law, and should not be permitted.

School has commenced and the only safe way for teachers to do is, when pupils seem to be suffering from Cough, to send them home until a physician certifies they do not have the disease. If this is not done it may become necessary to close the schools.
