

Calendar for 1912 showing dates from October 1 to 31.

Republican Ticket.

President—Hon. William H. Taft, of Ohio. Vice President—Hon. J. S. Sherman, of New York. State Treasurer—Hon. R. K. Young, of Tioga County. Auditor General—Hon. A. W. Powell, of Allegheny County.

Congressman Speer Here Today.

Hon. P. M. Speer, the able member of Congress from this district, will spend today in Tionesta, and will be glad to meet as many of his constituents as possible.

ONE of the things that will carry this year is the proposed revision of campaign contributions downward.

A STRENGTHFUL Republican has no need to state his position. He is in the ranks as usual and knows exactly where he is at.

CELEBRATIONS of the fiftieth anniversary of President Lincoln's emancipation proclamation are a reminder that the Republican party was progressive at the start and destined never to be anything else.

DEMOCRATIC policies are not new, says Prof. Wilson. The country knows it well and has rejected them for sixteen years. The last time they were tried the people paid an enormous penalty for the mistake.

CONGRESSMAN LONGWORTH states that he will support the Republican ticket as always, but wants it understood that as a Republican he is progressive. Why, of course. The whole story of Republicanism is one of progress guided by common sense and courage.

AN employee who performs good work and proves his loyalty to his employer should be retained. That is exactly the position in which P. M. Speer, our present representative in Congress, now stands. He possesses all the essentials required. He is honest, straightforward and able. What more need be said?—Oil City Blizzard.

THE professor said at Fall River that the Democratic party is the only one which can be relied upon to do teamwork, because the only one which will, if successful, control all branches of government. Such talk as this vividly recalls the words of the latest Democratic president touching the "perfidy and dishonor" of Democrats in Congress who talked in the traces.

AN unbossed convention makes us think of an unknissed Dowry, says the Blizzard. Can any gathering be absolutely successful if nobody cares to be a leader? A leader is nearly always called a boss. But somebody must go ahead. Time is wasted and confusion generally reigns until some one steps forward and says: "Follow me." It is so in religion and has always been so in politics.

THE high tide of Teddyism was reached a month ago, and the drift is now rapidly to Taft. A man who just returned from an 8,000 mile automobile tour of the west, says sentiment is changing rapidly there, and it looks as though all the Republican states, with the possible exception of California, Kansas and the two Dakotas will swing back into line for the President.—Punxsutawney Spirit. The same sentiment comes from almost every quarter, and President Taft's prospects for re-election are growing every day.

FARMERS, working men, business men and old soldiers have no better friend than Peter M. Speer, the Republican candidate for Congress in the Twenty-eighth Pennsylvania District. By close attention to business he has made an enviable record since he first went to Washington, a year ago. Best of all, he is a staunch Republican and a firm believer in the party's cardinal principles, particularly the protective tariff, on which this district especially is dependent for prosperity. All men with Republican tendencies should vote for him, no matter what they do with the remainder of the ticket. Anything else would be suicidal.—Mercer Dispatch.

THERE should be no question as to how the voters of Forest county should stand on the election of Representative in the Assembly at Harrisburg. If this county ever needed a wide awake, experienced Representative in the legislature it will need him this winter, when the confiscation of this and other counties by the water power grabbers will be attempted. The man we need to represent us at this most critical time is Hon. A. R. Meehling who is experienced in legislative tactics, and has the shrewdness to cope with those who will attempt this diabolical outrage upon this community. Let no Forest county citizen lose sight of this vitally important matter.

Dr. Allison Withdraws.

THE REPUBLICAN had a pleasant visit from Dr. F. E. Allison, of Nebraska, yesterday. Some time ago, unknown to him and without his solicitation, the Doctor's friends placed his name on the Prohibition ticket as a candidate for Assembly from Forest county, and while here he authorized us to state that he could under no circumstances be induced to stand as a candidate at this time, and as soon as the proper papers could be executed he would withdraw his name.

Our venerable friend was in his usual good humor and apparently feeling as young as ever, notwithstanding his more than four score years of activity.

Vote for P. M. Speer for Congress.

What I here say is unsolicited and originates entirely from my knowledge and appreciation of the man. He is from an intellectual, educational, and moral and religious standpoint well qualified for the position. He is no visionary political crank or freak; but a sober, conservative and experienced representative.

All classes who have their own betterment in view can do no better than support him. He is more than a moral man, he is a religious man. The blood of the old Puritans flows in his veins. He would not knowingly do a wrong act, or lend the power of his influence, or vote for any measure whose tendency would be against the interests of the laboring classes. Men who labor in the workshop, factories, mines, farms, or anywhere else, never had, or will have a truer, stauncher, or more devoted and courageous friend in Congress. In him the veterans of the Civil war, the Spanish-American and foreign wars have all had a heroic and noble defender and friend. From the standpoint of pure merit he deserves their unanimous support and vote.

Reservoir to Stop Floods a Fake.

An Associated Press dispatch from Memphis, Tenn., under date of Sept. 29, says:

"An appropriation of \$35,000,000 in five equal annual installments is asked of Congress for the completion of a levee system along the Mississippi river in resolutions adopted by the Interstate Levee Association, which concluded its annual convention here today. The federal government also is asked to exercise a certain supervision over the entire system of levees and each of the political parties is congratulated for having recognized the national import of the levee problem."

"Col. Roosevelt, who addressed the convention in the morning, advocated federal control and federal construction of waterway betterments. His opinion that flood water conservation by reservoir and reforestation would strengthen the levee system and control the floods in the lower valley was challenged later today by Col. McD. Townsend, president of the Mississippi River Commission. He described Col. Roosevelt's ideas as 'theories and speculations which have not been applied,' and declared that levees are the only proved means of preventing floods."

Self Protection the First Law of Nature.

Probably those Pittsburg people who wish to erect dams above this city so as to hold the flood waters and let them use it as needed and keep it here when it would inconvenience them to have it at Pittsburg have heard of the success of the Shenango valley mill owners and furnace interests in preventing the draining of Pymatung Swamp and they are trying the same game, asking the state and nation to provide them with mill ponds without charge. In the desire to escape destructive floods at the time of spring freshets we are in hearty sympathy. With the desire to escape them at the cost of wiping out Franklin and Oil City the first time a dam breaks, and at the cost of confiscating, with only partial payment for damages, the immense properties they propose to cover with water we are not especially in harmony. And it does us considerable good to contemplate the fact that those dams are not to be built. The Pittsburg schemers may, in some almost incredible way, get the state and nation to agree to it. And they, and all the other high financiers who attempt to build dams that threaten our lives and property, may as well understand that no dams will ever be built and filled with water unless the Oil Country people are satisfied that they will not endanger their wives and children. Self protection is the first law of nature, and that law has always been in good working order in this section, and will continue to be. However, so fiendish a scheme will not get very far, either at Washington or Harrisburg.—Franklin News.

AN esteemed Democratic paper remarks that thus far the Republicans have not claimed all the credit of the bumper crops. Good times help to make cheerful, enterprising farmers. Good government creates good times. There is considerable to be said about the Republican party in connection with bumper crops.
