

I'm Glad for Mechling!

It Is President Wilson.

New York, Nov. 5.—By the latest indicated returns Wilson for President today carried 38 of the 48 states. He will have a vote of 412 out of 513 in the electoral college, 146 more than enough to elect, and a majority of 283 over all his competitors.

Wilson's popular plurality in states he carried is indicated to be 2,149,000. His majority over the combined votes of Taft and Roosevelt is 1,182,000. Col. Roosevelt ran second and the returns indicate that he will have 102 electoral votes. The early returns show that he carried six states—Illinois, Pennsylvania, Iowa, Kansas, S. Dakota and Washington.

Taft's indicated electoral vote is seventeen from four states—New Hampshire, Rhode Island, Utah and Vermont.

Congress In Doubt.

Returns from this Congressional district are so meagre that the result is still in doubt. A rumor is current as to go to press that indications point to Hullings' election by a close plurality.

Election Result in The County.

The result in Forest county is not surprising to the Republican party considering the havoc wrought by the Roosevelt vote. President Taft is third in the race and Congressman Spear, by this slump is left with but a bare plurality in the county, if he has any, when he should have had 500 majority. Mr. Mechling's personal popularity and thorough fitness for the position of Representative at Harrisburg carries him through by a two-to-one plurality.

Following are the figures in this county so far as they are available at the hour of going to press:

Water Power Companies Will Attempt To Steal All Streams Through Next Legislature.

HARRISBURG, Nov. 4.—(Special)—Owners of lands throughout the State through which streams of any considerable size flow are beginning to wake up to the fact that an association calling itself the Water Conservation Association of Pennsylvania, is preparing to go before the Legislature at its coming session and endeavor to secure legislation giving water companies that apply for charters the right of eminent domain. This will enable them to enter and seize streams, dam them with monstrous big dams, and create a new peril such as was born of the dam at Johnstown and Austin, which broke and caused the loss of many lives. At present these water companies do not enjoy the right of eminent domain, although they have on several occasions endeavored to have legislation enacted conferring that right upon them, all of which efforts were frustrated. They are even debarred the right to dam streams by the State Water Supply Commission, a determination reached after the Austin disaster, unless there is no protest from land owners, and they will not get that right until the Legislature can confer it, as the State Water Supply Commission has declined to charter any water company that proposes to dam streams and destroy adjoining lands and jeopardize life.

DUN'S REVIEW OF TRADE

Production of Steel Mills Limited Only by Capacity.

Dun's Review of Trade says this week: "So far as the business outlook is concerned conditions continue those of remarkable activity and soundness in most industrial and mercantile lines. One of the most important developments is the energy and courage of the railroads in the purchase of new rolling stock and other supplies to prepare for the expansion of trade. "Production in iron and steel is limited only by capacity of mills and time and labor and yet consumption still outstrips production and prompt delivery is difficult. In rails some mills are sold ahead up to June and new business keeps up well, notwithstanding that rollings for spring track laying cannot be made by the leading interests. There is a continued scarcity of crude steel and lots for prompt delivery command a premium, while steel bars, plates and shapes are strongly held."

Varied Uses of Pearls.

During the palmy days of the Roman empire pearls were greatly esteemed as ornaments by the women of fashion, though after its downfall they were again chiefly used for the decoration of inanimate objects, and it was not until medieval days that they again served the purpose of personal decoration. In England they were not really appreciated for the latter purpose until the fourteenth century. Yet throughout every country and in every country from comparatively early times we see pearls depicted by contemporary artists in such of their works as survive.

California Woman Seriously Alarmed

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber, Sawtelle, Cal. For sale by all dealers. Adv.

Those who think Kelletrville is getting slow should have been here on Halloween to have taken in the fun and they would never say "slow" again.

About half past seven the largest parade that was ever seen in town formed in the school yard and headed by the band and illuminated by numerous torches, marched down street, where they were greeted by a large and enthusiastic crowd which had come out to witness the fun. After marching through the different streets they retired to the hall, where some time was spent in general jollification. When the order came to unmask the young people who were on the list for the party at Phillips' departed and left a large crowd to partake of the Halloween lunch which was served in the hall. When the parade was formed it seemed as if the whole town was in it, but a large crowd was on the streets to see the fun, so we are pretty sure that most every one turned out to take part in the merriment one way or another. There was a great variety of costumes, and the disguises were so cunningly planned that it kept the people guessing whether what they saw were really ghosts, witches and so forth, or only their neighbors on parade. The best of order was maintained throughout the entire evening. While there was lots of laughter and good natured rackets, nothing malicious or disorderly interfered with the general good time. Every one seemed pleased with the celebration and many more said they would take part in another one. The general expression was, "My, didn't we have fun!" Over \$20 were taken in at the ball, which will be added to the fund being raised to get a new carpet for and to paper the M. E. church.

Samuel and George Shotts of Tylersburg visited at the home of Albert Dunkle during the week.

George Parker is moving from across town into the house vacated by Daniel Fenstermaker, this week.

E. E. Daubenspeck and son Charles were business visitors in Tylersburg Saturday.

Mr. and Mrs. James Byler were Mayburg visitors Thursday.

Mrs. Seaton visited friends in Warren Thursday and Friday.

Mrs. George Klinevister was a Warren visitor Saturday.

Mrs. W. H. Dotterer, Mrs. John Blum, Dr. and Mrs. C. Y. Detar, George Zuenfeld, Miss Edith Gayley, Miss Nellie Demler, and members of A. L. Weiler's family attended the funeral of Mrs. Weiler, at Starr, Sunday.

On Friday was observed the famous runt hunt, which is looked forward to from year to year by those who are able to take part in it. A larger number was on the list this year than on previous years, and a larger number of counts was reported, there being over 1,200 counts to the credit of the entire crowd. Dr. H. L. Davis and Dr. W. W. Serrill acted as captains, and the supper was won by the former and his crew, having 67 counts to the good. The day was so stormy that the participants did not derive the pleasure they usually experience on these occasions. What might have been a serious accident was prevented by quick thought on the part of Nelson Russell, who having drawn his gun to fire at some birds he had roused, spied H. E. Murphy just about 25 feet away in the range of his gun. He quickly threw the gun up, which went off over Mr. Murphy's head, just two shot lodging in his forehead. It swelled considerably and Harry had a sore head for one night, but the inflammation quickly passed away and no inconvenience was experienced from the injury.
