Suits in the Newest Shades and Weaves

Are Here For the Inspection of Style-Loving Women.

Easter Sunday is March 23, two weeks earlier than last year, which explains why at this early date new merchandise is pouring in more rapidly than ever before, at this time of year. And there never was a style exhibit in which Dame Silk, universally acclaimed Queen of all dress fabrics, did not receive the lion's share of attention.

Our showing to date gives a remarkably comprehensive idea of the coming styles. For instance: Printed Bulgarian satins, the high novelty for use with Springtime costumes; plain and brocaded charmeuse; Persian prints; brocaded satins; brocaded crepes; plain satins in brick red, Nell rose, burnt orange, and other newest Spring hues.

It will be a pleasure for us to show you these beautiful new silks, today, or any day in which you care to inspect them.
