—Elm and Bridge streets were given a pretty general cleaning up Saturday morning in response to the request of the borough council, making a notable improvement in the beauty of the town, and it is to be hoped this one clean-up will not be considered sufficient for the summer, but that a sense of pride may stimulate our patriots to a similar stunt as often as once a week at least.

—At the high school alumni meeting Wednesday evening the following officers were elected: President, Miss Kathryn Osgood; vice president, Thos. Ritchey; secretary, Miss Janet Jamieson; treasurer, Glenn Ledebur. The alumni has named Tuesday night, May 6th, immediately following the commencement exercises, as the time for the reception to the class of 1913, at Bovard's hall.

### Death of William A. Shewman.

As was forehadowed in an item in the REPUBLICAN last week the worst has come to the family of William A. Shewman, and he passed away at St. Vincent's hospital, Portland, Oregon at 4:30 o'clock Monday afternoon, according to a dispatch received at the Watson home here yesterday morning. No particulars were given in the message, and as only meagre data concerning the life of the deceased is obtainable at this time we defer a more extended obituary until next week.

—The discovery has just been made that arbutus blossoms are poison if chewed. The death of Mrs. Jacob Borhite, of Susquehanna, Pa., occurring a few days ago, is said to have been caused by chewing the fragrant flowers. It may not be true, but keep on the safe side and don't put your lips to the blossoms.

—James Elliot of Stewart's Run went down to the mouth of Little Tionesta creek Monday to begin work on the foundation walls of a new barn which Daniel Creswell is erecting this summer. The structure is to be 40x45 feet in dimensions and of the most modern design for housing livestock and farm products.

—The bridge at the mouth of Little Hickory creek, washed out by the recent flood, has been put in proper shape again, and the road between Tionesta and Hickory, including the narrows, is in fairly good condition for automobile, so we are informed by F. M. Hoover, who has charge of the State highways in this section.

—A well up in the Jamieson run territory started last fall by E. E. Fleming, was finished last week by G. W. Holman at a depth of 848 feet, but it was a failure and was plugged. Mr. Fleming will make a location for another well lining up with the homestead lease and contractor Holman expects to move his rig and be ready to drill by the last of the week.

—Governor Tener has signed the new game bill recently passed by the legislature fixing the open season for game as follows: Grey, black and fox squirrels, wild turkey, ruffed grouse, Hungarian partridge, woodcock and English or Chinese ringnecked pheasants from October 15 to November 30, inclusive; grey rabbit and hare from November 1, to December 31, inclusive.

—Harry Osgood had an extremely close call for his life at the Young mill, up near Peters run, this morning. He was under the table throwing the belt of the slasher saw onto the pulley when the saw tipped forward and came in contact with the top of his head, cutting a gash several inches in length across the scalp, but fortunately not going deep enough to enter the skull. Dr. Bovard attended the injuries, taking several stitches to close the wound.

—The good roads amendment to the constitution permitting the State to issue bonds to the amount of \$50,000,000, having passed both houses of the legislature, now goes to the people for their adoption or rejection. It will be voted on next fall without further legislation as it had already passed one legislature and does not require the signature of the governor.

Whether the people want the good highways or whether they prefer the existing road conditions depends entirely upon themselves, but it does not seem in any way reasonable that they would vote down a proposition that means so much good to every section of the state.

—If flies bother about the doors and windows near the kitchen or dairy, or on the porch, formalin bottles will be effective. A bottle filled with two per cent. formalin (eight teaspoonfuls of formalin to one quart of water) may be inverted over a saucer and placed on a shelf, or hung in a bracket at the place where the flies are thickest. It should be well up out of the reach of dogs. A nick should be made in the mouth of the bottle so that the liquid will partially fill the saucer. Pyrethrum powder may be burned to stun any flies which are indoors. They may then easily be swept up and destroyed.—The Ladies World for May.

—The law protecting game birds that make interstate flights, signed by President Taft, cannot become effective during the present season of migratory flight and nesting. The American Game Protective and Propagation Association announces, however, that the biological survey at Washington will have gathered enough information before the breeding season of 1914 on the migrations and breeding habits of birds in all parts of the country for the framing of adequate rules. All song birds and the birds that feed upon insects, whose value to agriculture outweighs their food value—such as robins, blackbirds and bobolinks—and game birds—like ducks, geese, swans and shore birds—will soon enjoy a closed season.

—The REPUBLICAN is in receipt of a pretty little pamphlet called the Tidings and which is printed at Inhambane, East Africa, by the Free Methodist Mission press. Mrs. Rosa Hunter Smith is the editor, and her husband, Rev. Carroll Smith, is the publisher, and the issues are semi-annual. The front page of the issue before us is embellished with a good group picture of the members of the quarterly conference held in the city last August, in which the faces of Mr. and Mrs. Smith and their two children, Leulah and Blanche, are readily recognized; likewise those of Bishop and Mrs. James S. MacGeary, all well known in this community. The little magazine is well edited and interesting, and in typographical excellence would rank with many of the good ones printed in this land.

—The deep well on Council run was drilled through the Kane sand last Thursday, which was developed at a depth of 248 feet. The sand was very much broken up and there was no showing of either oil or gas. In the Speechley sand, of which 25 feet was found at a depth of 1620 feet, there is a fair show of gas and some oil, and we understand this will be treated to a heavy shot of high explosive tomorrow. This well has been watched with a great deal of interest in this community, in the hope that oil and gas in paying quantities might be found in some of these deeper sands. The venture is located on the Fones lot, just north of the watering trough, and is in the borough limits. The promoters are H. W. Vankirk, of Washington, Pa., and E. I. Marsh, Charles A. Platon, Dr. H. R. Chadley Rasey, Wm. Carey, J. G. Richards and Mrs. J. G. Richards, all of Eldred, Pa., the leases on a large acreage having been secured by Mr. Richards. What their future intentions are we have not learned.

Rev. Charles Cribbs was received from the Presbytery of Butler and his name enrolled. Rev. Edward W. Bate, of the Oil Creek Association of the Baptist church, presented credentials asking to be received as a member of the Presbytery and the credentials were referred to the committee on missions and supplies. Rev. D. T. Williams was granted a letter of dismission and recommended to the Suffolk Association of the Congregational church of Boston, Mass., at his request. The minutes were read for the approval of the record and the record was approved. The Moderator-elect, Rev. W. S. Fulton, D. D., of Brookville, assumed the duties of the office. The report of the committee on arrangements was adopted. On motion Presbytery voted to reconsider its action in adopting overtures 1 to 6. The overtures, 1 to 6, were referred to committee on bills and overtures. The Moderator then appointed the special committees for this meeting. Rev. W. S. Burton of the Erie Conference of the M. E. church was invited to sit as a corresponding member. Supplies reported their duties performed and vacant churches reported their pulpits supplied. Messrs. W. R. Wheeler of the Endeavor church, and Maxwell Cornelius of Oil City, were commended by their respective sessions as candidates for the ministry, were introduced to Presbytery and their examinations were made the first order after devotional services Tuesday morning.

Presbytery convened at 8:45 Tuesday morning, the devotional exercises being led by Rev. F. W. Hays. Prayer by the Moderator. The minutes were read and approved. Committee on missions and supplies reported the credentials of Rev. Edward W. Bate in order and recommended that his name be enrolled as a member of the Presbytery after he satisfactorily answers the constitutional questions. He was so enrolled after examination. The special order was taken up and W. R. Wheeler and Maxwell Cornelius were examined by the Presbytery as candidates for the ministry. The Presbytery deemed their cases extraordinary and by a unanimous vote they were licensed. John Eber, of the Olive church, was recommended by the session of that church as a candidate for the ministry and was taken under the care of the Presbytery. Rev. Moore Sanborn, of the Erie Presbytery, was invited to sit as a corresponding member. The report of the committee on relief was adopted.

At the noon hour the ladies of the church served an elegant four-course luncheon in the church dining room, the invitation being to all the visiting brethren and the men of the congregation. A large number were served and a few good after-dinner speeches followed the banquet.

At the afternoon session the narrative showing the spiritual life of the Presbytery was read by Rev. F. W. Hays and adopted. A call from the Beechwoods church for the pastoral services of Rev. Charles C. Cribbs was accepted by him and arrangements made for his installation. Calls from the Stummerville and West Millville congregations for the pastoral services of Rev. E. W. Bate were by him accepted and arrangements made for his installation. The election of committee members to the General Assembly resulted as follows: Ministers—Rev. F. A. Kerns, of Corsica; Rev. Samuel Davis, of Seneca. Elders—R. K. McKnight, of Johnsonburg; Wm. Enterline, of Big Run. The report of the committee on bills and overtures recommending negative action on overtures 1 to 5 regarding union congregations was adopted. Overture No. 6 in regard to reducing the size of the General Assembly was acted upon in the negative.

A committee formerly appointed was instructed to prepare suitable resolutions in memory of Rev. R. A. McKnight, deceased, formerly pastor at Reynoldsville. Rev. Moore Sanborn, of Erie, delivered an interesting and inspiring address on the theme of "Man and the Church." The address was a masterpiece in eloquence and logic and made a great impression on the large audience. A hearty vote of thanks was extended to the pastor, the members of the church and the people of Tionesta for their generous hospitality. Also Dr. Sanborn for his excellent address. Rev. J. C. McGaughey was granted leave to labor outside the bounds of the Presbytery. On motion it was voted to accept the invitation of the Nickleville church for the fall meeting. Rev. W. H. Clipman was elected Moderator for the next meeting of Presbytery. Presbytery adjourned with prayer by Dr. Earsman and by the Moderator, Rev. W. S. Fulton.

### Serious Runaway Accident.

Thursday afternoon Mr. and Mrs. Ed. Hepler, residing on their farm located in the southern edge of Tionesta township, on the road leading to Strobleton, met with a serious runaway accident while driving with a load of produce in Oil City, of which the Blizzard gives the following account: Mr. Hepler is a well known farmer who brings produce to this city each week. Thursday his wife accompanied him here. They had a team of young horses hitched to the large wagon which was well loaded with farm produce. When turning from Glenview avenue into Wabash avenue the horses shied at a pile of dirt and swung the wagon about at such a sharp angle the front wheels crumpled and overturned the wagon. Mrs. Hepler was thrown some distance and received a serious scalp wound. Mr. Hepler held to the lines and was dragged quite a distance, the horse finally colliding with a telephone pole. Several men who witnessed the accident ran to the assistance of the couple and they were taken to the home of Mr. Saunders, where Dr. Sharp attended their injuries. Mr. Hepler has three fractured ribs. His body is covered with bruises. Mrs. Hepler's injuries were confined to the scalp wound and cuts about her face and arms. One of the horses was badly injured but it will recover. Twenty-five dozen of eggs packed in a barrel were dumped upon the pavement and were a total loss.

### Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.—Adv.
