

Calendar for May 1913 showing days of the week and dates.

Our worthy Vice President, Mr. Marshall, continues to be a silent man, except when he feels it desirable to explain an explanation.

Europe is opposed to the idea of the United States giving advantage to her own vessels in the matter of Canal tolls, because it will increase our commercial importance. She is in favor of the tariff bill now under consideration because it will increase the commercial importance of Europe.

The new cigarette bill has been signed by Governor Tamm, and the law makes it a misdemeanor punishable by a fine of not less than \$100 or more than \$300 to sell or give to a minor a cigarette, or material out of which to make a cigarette.

Storage Dam Foolishness.

We commend to the consideration of the Greenville Board, and to the careful reading of those who think that there is any likelihood of the waters being lowered at Pittsburg by reservoirs intended for power production for a lot of clever men pretending to have the safety of the people at heart, the following from the Providence Journal:

Some idea of the obstacles to be overcome in controlling floods by storage reservoirs is given in the address to the National Drainage Congress by Colonel C. M. D. Townsend, president of the Mississippi River Commission. His figures show that with a reservoir at Pittsburg big enough to take the entire flow of the Allegheny and Monongahela, another at St. Paul holding the flow of the upper Mississippi and a third at St. Joseph retaining the entire flow of the Missouri, the height of the flood at Cairo during the first week in April would have been lessened only six inches.

These astonishing figures bear out the contention of Engineering News that "when a rainfall of three to nine inches or more falls on a drainage area in a short time it is idle to talk of storing it by any means within the power of feeble man to construct." The fact should be understood before appropriations amounting to hundreds of millions are asked, for a reservoir at Cairo, Ill., capable of holding the Mississippi river within its banks requires a depth of fifteen feet and an area of 7,000 square miles, somewhat less than the area of the state of New Jersey, and costing from fifty to one hundred thousand million dollars.

Those figures suggest that levees and removal of obstructions are more practicable than reservoirs designed to contain such a rainfall as that which devastated the Ohio and the Mississippi valleys.—Franklin News.

Mayburg.

Louise Fitzgerald and Clarence Snyder, attendants of the Hoff Business College, spent Sunday with their parents in this place.

Rev. Henry Smallenberger and wife of Kelleysville were callers in town Friday.

Miss Edna Smith, who has been attending the Kelleysville High School, has come home to spend the summer vacation.

Russel Burrows gave a candy party to a number of her boy and girl friends Saturday evening.

Miss Elizabeth Cook was a Warren visitor Friday and Saturday.

Helton Jonsson, daughter of the lately deceased Mrs. Houser Jonsson, has come to stay a part of the summer with her aunt, Mrs. L. D. Smith.

F. K. Brown drove to Clarion Saturday in his auto.

Miss Edith Horner spent Sunday with her parents at Trumans.

The services held in the Methodist church last Sunday evening, conducted by the pastor, Rev. Henry Smallenberger, were well attended, and fifteen persons were taken into the church in full membership.

Church Hill.

Miss Belle Anderson and one of her friends were callers on the hill Sunday.

We are very sorry to hear that Chas. Shaffer was bitten by a dog one day last week. He had been out in Guilleville after a load of Chas. Gustin's drilling machinery and when he was returning out by Kiser's Corners a dog ran up behind him and bit him on the left leg. Charles stood him away and started on, when the dog snarled up and bit him on the other leg. It would be a good thing if such dogs were put out of the way, as they are a pest to the country. Mr. Shaffer's legs are swollen and so sore that it troubles him to walk. We hope for his improvement so that he can go on with his work.

Clifford Shaffer and friend, Milo Barber, drove over to the latter's home on Way Hill, Sunday, driving home by way of Cropp Hill, after dinner.

J. J. Cropp and children were callers on the hill Sunday.

Joe Barrows spent Sunday with his parents. We understand that Joe is dressing tools for Amos Carson on the other side of West Hickory.

Legislative Visitors at Cooksburg.

The appropriations committee of the State House of Representatives paid an official visit to Cooksburg, this county, last Friday. There were upward of thirty of the members of the committee present, besides a number of visitors from Clearfield, Jefferson Clarion and Forest counties, who are interested and feel a pride in the proposed purchase by the State of the property of the Cook estate for park purposes. The committee headed by the chairman, Hon. S. T. North, of Jefferson arrived in the beautiful village shortly before the noon hour in automobiles, and the members were immediately taken in charge by guides and shown over the splendid estate, the trip being made as far as possible in the automobiles, and on foot through the dense forests.

In the few hours at the disposal of the committee it was, of course, possible to reach only a very small portion of the vast acres, over seven thousand, comprising the estate, but enough was seen of the magnificent timber lots, mostly virgin pine, to make the eyes of the members bulge with wonderment, few of whom having ever beheld such giant monarchs of the forests, while fewer yet were aware that so vast a body of white pine, untouched by the lumberman's axe, still remained in Pennsylvania, and many expressions were heard to the effect that so magnificent a body of virgin timber should be preserved for all time to succeeding generations.

The trip through rich green forests, over the hills, through the valleys and glens, inhaling the pure fresh air and the rich perfume of the stately pines, had a tendency to whet the appetites of the visitors and when they again reached the elegant homes of the Cook boys, Wayne and Bert, they found awaiting them a lunch comparing favorably with the grandeur of the occasion, and in which ample justice was done. The splendid mansion of A. W. Cook was thrown open to the visitors who enjoyed to the fullest extent the spacious and elegantly appointed rooms in which to linger and rest after their long tramp through the forests.

At four o'clock the autos were again brought into requisition and the legislators began taking leave of their genial host and hostess, Mr. and Mrs. Cook, but not without many expressions of gratitude for the royal entertainment afforded them in their brief stay at one of the most delightful spots they had ever had the pleasure of visiting.

What the committee's report shall be, of course, not divulged, but that all the members were deeply impressed with grandeur of the property which they saw and the importance of preserving it in its natural beauty, was plainly evident. The appropriation committee has the bill before it for the acquisition by the state of the Cook lands, and it understands that if the property is ever to pass into the hands of the Commonwealth it must be now, because another session of the legislature comes around much of the magnificent timber which now so majestically overlooks the beautiful valley of the Clarion will have passed forever from the scene, for the owners doubtless feel that they cannot afford to let it stand idle and unremunerative, much as they would like to do so.

This property is today available for a grand State Park at a cost which competent judges pronounce very reasonable. It will not be available two years hence, for much of its present beauty will have passed away before the lumberman's axe, and the State's opportunity to preserve to posterity the only natural park and virgin forest within its borders will be gone forever.

Kelleysville.

The mill crews were called up to the logging woods Tuesday to fight fire. The company lost about 300 cords of chemical wood and several of their logging cars.

Mrs. Fred Rudolph and daughter Myrtle, of Newtown, were guests of Mr. and Mrs. John Blum, Tuesday.

The Salmon Creek Lumber Co. store received a car load of beef cattle from Buffalo, Tuesday.

Miss Donna Eganell, of "Storkland," arrived at the home of Mr. and Mrs. J. F. Ray, Tuesday, and received such a royal welcome that she has decided to extend her visit indefinitely.

Mr. and Mrs. Mark Wilson, of North Warren, came down Tuesday, the guests of the latter's parents, Mr. and Mrs. Wm. Silas. Mark returned to his work Wednesday, Mrs. Wilson remaining for a few weeks' visit with relatives and friends.

Mr. Bentley went to Buffalo the first of the week to consult the authorities as to the advisability of his entering the hospital there for treatment. But we are sorry to state that he returned Wednesday with an unfavorable report.

The W. C. T. U. held its regular meeting at the home of Mrs. C. Y. Datar, Wednesday afternoon.

While at work on the mill Thursday Arthur Johnson was struck by the pieces of a broken saw and his side was pierced, a gash out in his lungs and liver, and two ribs torn loose. He was taken to the home of his mother, Mrs. Chas. Johnson, and attended by Drs. Datar and Serrell. We are glad to note that he is improving and great hopes are entertained that he will entirely recover.

Dr. C. Y. Datar, W. L. Watson, Dr. H. L. Davis, F. E. Harkless and Wm. Fitzgerald drove over to Marienville in the former's auto Wednesday evening and attended lodge, returning home in the wee small hours of the night.

Mrs. Wm. Silas has been troubled for several years with a sore finger. A growth started on the bone and after having it cut out several times it healed and did not bother her for some time, but last week it became quite sore again and had to be cut out.

G. F. Watson and son, H. H. Watson, and two daughters, Mrs. Fred. Slocum and Mrs. Cora Full, came up from Tionesta Thursday in their new car and called on relatives in town.

F. J. Henderson's moved last week from the mill row into the house lately vacated by Sager Watson on Church street. Scott Smith will move into the house they vacated, and Jacob Dingle gets the house Smith leaves.

Mr. and Mrs. H. E. Murphy came down from Ridgeway Saturday and will remain the guests of the latter's parents, Mr. and Mrs. H. R. Johnson, until Thursday, the former having received a few days' leave of absence to try his luck with the fishing tackle.

Mrs. C. Y. Datar and son Fred, Mrs. M. E. Catts and Mrs. W. F. Jones, arrived in Tionesta Saturday.

Porkey.

We have all been very busy for the past week or so account of the fierce forest fires that are around us, caused by the carelessness of someone. It cost a nice some of money to fight and subdue this dangerous element. The South Penn Oil Co. lost two rigs on Minister creek and for a time it looked bad for the whole lease, but by the effort of the 200 men who backed and surrounded it we were saved. The Miller Lumber company was a heavy loser in this fire. Their mill and camp were surrounded by the fire but no damage was done to the buildings. Another fire on Hill Hill burned over to the Tionesta creek hill and devoured some chemical wood and three rigs for 'Squire Haight, who has an oil lease near this place. The wind of Saturday fanned the fires in several places, but men are watching them, and we do not fear these fires at least.

The Minister Sunday School is growing and it was necessary to divide the classes last Sunday and elect two new teachers for them. It is a pleasing sight to see our four classes again in the school, and we hope it will keep up all the time. There was also church service after Sunday school and it was also well attended, which is some encouragement to the minister, Mr. Spring.

Mrs. O. E. Rupert and two youngest children went to Sheffield Friday for a few days' visit with Mrs. Rose Bloss of that place.

Ralph Whitehill of the Salmon Creek Mercantile Co. was at Buffalo last week buying cattle for the fall killing of the butcher shop, and as the car came to Sheffield too late for the freight train it was hauled down behind the passenger train. Some of the wise guys asked what that was and our friend handed them this: "Twenty-seven Bull Moose and one sufrage." There is not even the trace of lies on our friend Thorkel.

A week ago Sunday, when the world was on fire but the dead not rising, two neighbors at Minister gave a two stanza scrap. Daring Dave and Merciless Mike came together and tore up the turf, tramped the earth and drew blood. There was no one killed and the damage was only bruises and bumps. But by the application of Barker's Liniment all wrongs, physically speaking, were cured. This will go down in history as a great battle, but not in print. The wives saw the battles and from the looks we judge they did not appreciate what great men their husbands were.

The schools here closed on Friday and the children are now enjoying this winter weather as best they can. When the large room closed on Tuesday they gave a patron-pupil picnic that was well attended. There was a large crowd of the women of the village present, and they certainly had a good time and lots of good eats. Your scribe was, as ever, present, and partook of the delicacies the lively table afforded. After placing our hungry form against the table everything came our way, but we lacked in capacity and wished for the neck of a graffe and the stomach of a sheep, but woe is me, I am built like a man.

Simon Allaire was down from Cherry Grove Friday evening and took back the girls' household goods from Minister, where they were keeping house last winter.

Guy Edulston has purchased the Burdick residence and is moving it to Mayburg to build himself a residence.

Geo. Blum has moved his family back to Porkey from Kingsley as the work will be nearer here than Kingsley this summer.

Bark peeling will begin at Fools Creek today and there will be a lot of our own men in the woods this year. This means that broken pipe lines will be reduced to the minimum.

Chas. Gilson of Barnes was down from Henry's Mills with a load of lumber for the rebuilding of the rigs destroyed by the late fires.

Claude Littlefield will build himself a residence in this place this summer and make this his future home. We are glad to see the village grow and hope more good people will locate here.

One of our men who sometimes takes his tea out of a long necked bottle came down the road last week with a reputation of this description, but everybody was looking his way and making remarks. When the truth came out it only contained a quart of vinegar that he had bought at the Fools Creek Store. He had not got religion but he is better than he used to be. Hearken! "Don't believe anything you hear and only half you see." There may be dirt in your eye.

Mountains Swept by Forest Fires. Forest fires are devastating the mountains in the vicinity of Altoona, Pa., and only the heroic efforts of several hundred men saved the town of Lloydsville, which is on the Bellwood division of the Pennsylvania railroad. The fire has burned over several square miles and great quantities of valuable second-growth timber have been destroyed.

Slashes Her Children's Throats. During a fit of temporary insanity Mrs. Mary Kulasa a Philadelphia woman, got out of bed, obtained a large carving knife and going to the bed of her two children, Agnes, three months, and Blanche, twenty-two months, slashed their throats with the knife.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

This remedy has a world wide sale and used and set at work by thousands upon. Sold by all druggists. Adv.

Dr. Anderson Gets Heavy Sentence.

Dr. S. H. Anderson, a Pittsburg physician, found guilty of having administered illegal medical treatment to Mrs. C. C. Davidson of Edgewood, which resulted in her death, was sentenced by Judge T. J. Prather to pay a fine of \$50 and serve a term of solitary confinement in the Western penitentiary of not less than four years and not more than five.

Boy Falls Intruder.

On a charge of housebreaking, Harry Thompson, aged forty-five, of Butler, was arrested at New Brighton, Pa. Some one, alleged to have been Thompson, tried to break into the house of Clarence Rarick. Mrs. Rarick let her little son down from a secondary window with a sheet and he gave the alarm. The intruder fled without any booty.

Studebaker "Yes Sir! Studebaker wagons are made to back up a reputation." "I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers." That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons. The owners never regretted that they bought Studebakers. Tested materials, accurate workmanship insure a wagon unequalled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor. Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure—and harness of every description made as carefully as are Studebaker vehicles.
