Victory For Administration

NO PUBLIC HEARINGS GRANTED

On Amendment to Open Doors For Discussions Only Two Democrats Forsake Party, Vote Being 41 to 36.

President Wilson has control of the

situation in the senate and the way now seems to be open for a notable victory for him on his tariff program. This is the interpretation put on the first test vote on the Underwood bill. By a division of 41 to 36 the senate refused to grant public hearings on the bill and thus sustained the motion of the Wilson leaders in the upper branch of congress. Only two Democrats left the party reservation. They were Ransdell and Thornton of Louislana, who are expected to vote against the tariff bill on its final passage.

The Democratic forces in the senate were recruited by one vote, that of only avowed Progressive or third party man in the senate.

Senators Walsh of Montana and Newlands of Nevada, who have led Mexicanized in forty-eight hours." the Democratic insurgent movement on free wool and who have been classed as doubtful, declared they in-So significant were the developments in the senate that Senator own will. That is the law of war." Clarke of Wyoming, a Republican, admitted on the floor that the Underwood bill was practically certain of passing. Pointing his finger at the Democratic side he accused Democratic senators of bowing submissively to the yoke of the party caucus in the face of the fact that their personal agreement was that the present tariff bill is not a proper measure.

in the role of a free trager. Replying, Senator James declared that the pending bill was not a free trade measure; that it would raise \$300,000,000 in revenue; and that the fact that the president was in favor

of free sugar did not convict him of being a free trader. He accused Ransdell of inconsistencies, saying Ransdell did not consider himself a free trader when he voted as a member of the house for free boots and shoes free bread and meat and other articles in the farmers' free list in the last congress. Mr. Ransdell replied: "If the senator

from Kentucky can demonstrate to me that any of the industries whose products I voted for to put on the free list last congress would be destroyed by removing the duty, then I will join him in voting for a duty."

Kern's Resolution Still Unsettled. In the debate over Senator Kern's resolution for an investigation of mining conditions in West Virginia the senate discussed the authority of the governor of West Virginia to issue an order declaring martial law which closed the civil courts and substituted therefore the court-martial. Senator Goff maintained that this act was apheld by previous decisions of the supreme court of the United States and the supreme court of Pennsylvania.

"If in such cases," Senator Borah declared, "the governor of the state can close the doors of the courts and deny the right of trial by jury when Senator Poindexter of Washington, the the courts are able to proceed with cases under their jurisdiction and we, the United States, are forced to sit idly by and see it proceed we become

In a riot among 300 Slavs attending a funeral in Bridgeport, O., two men were wounded, perhaps fatally, and another was beaten. The house reconsidered the action of last week by which the Moore bill, framed by the state banking department, was defeated and passed the measure by a vote of 123 to 46. The bill would provide that the commissioner of banking should have the power to act as receiver and wind up the business of banks and building and loan associations which the banking department believed insolvent.

The house passed without debate the administration "blue sky" bill, to provide for the licensing of stock brokers.

Senator John O.
