

The Smart and Silberberg Co.

Centre Street at Elm, Oil City, Pa.

THIS STORE

Is clean and cool and full of fine new goods; its service is right now at its best; its saving possibilities were never more numerous than they are at present.

A SPECIAL LOT OF TRIMMED PANAMAS.

Hand Woven Panamas, tastefully trimmed, \$5.90. Just at present genuine Panama Hats are very scarce and hard to get. These are of a very superior quality, our own importations from orders placed by us some time ago. At \$5.90 they cannot be duplicated anywhere hereabouts. Genuine Panama Hats, in a number of good styles, charmingly trimmed, very special today and tomorrow at \$5.90.

ARE YOU ACQUAINTED WITH CORSET SECTION?

Under New and Efficient Management It Is Making Strong Claims for Attention.

A short time ago we were fortunate enough to secure the services of a former resident of Oil City, and a corseteer of many years' experience, as head of our corset department.

Today this important section of the store is better able to serve you than ever before in its history.

It allows you to select from almost every good make, in a variety of styles that insure your absolute comfort and fit, and a price range to suit the requirements of every pocketbook. Among them:

- Modart Corsets, Redfern Corsets, La Vida Corsets,
- W. D. Nuform Corsets, La Greque Corsets,
- Rengo Corsets, Calma Corsets, Warner Corsets,
- Kabo Corsets, Milla Corsets.

And our expert corsetiere will be glad to aid with advice and suggestions.

Oiling Gettysburg Roads.
 The Pennsylvania state highway department's working forces began to oil the roads in the vicinity of Gettysburg in anticipation of celebration of the semi-centennial of the battle July 1 to 4, and it is intended to have 120 miles of highway treated in the next fortnight.

Engineer Knocked From Locomotive
 S. J. Croxley, thirty-eight, an engineer, was severely hurt at Bradenville, Pa. While inspecting his engine while in motion he collided with a fence along the tracks. Several ribs were broken and he was cut and bruised about the head and body.

Harrisburg Fire Loss \$35,000.
 Fire, supposed to have been started by boys playing in an empty stable, caused the destruction of eight frame buildings and a loss of \$35,000 at Harrisburg, Pa.

Sunday's Methods Upheld.
 Evangelist Billy Sunday and his methods were upheld by the Methodist Protestant ministers of Pittsburgh at their regular weekly meeting.

Vets to Be Cared For.
 The state department of health has made elaborate plans to safeguard the 45,000 veterans and other visitors at the Gettysburg (Pa.) celebration.

Report of the Forest County S. S. Convention Held at West Hickory, June 9th and 10th, 1913.

The 18th annual S. S. convention of Forest county, was held June 9th and 10th at the M. E. church, West Hickory, Pa. The first session was opened at 2:00 p. m., with the president, Hon. A. R. Mechlins, presiding. Rev. W. W. Dale, of West Hickory, had charge of the devotional service which was followed by an address of welcome by Dr. W. G. Morrow, of West Hickory. A very pleasing response was given by Rev. W. Rex Wheeler of Endeavor. A discussion on Opening and Closing the Sunday School was opened by Rev. W. S. Barton of Tionesta. An address by Geo. G. Doney, State Worker, Scranton, Pa., on The Teacher Studying, was most helpful and inspiring. Every lesson, said Mr. Doney, contains three primary elements: First, something said; second, something done; third, somebody speaks or acts. Every lesson contains one central truth, duty, danger, truth or hope. The central truth of each lesson is either a duty to be performed, a danger to be avoided, a truth to be believed, or a hope to be indulged. Mr. Doney further enlarged upon his subject by showing that the teacher's general preparation of the lesson included: First, his general fund of knowledge, gathered from all sources, science, art history, etc.; second, the necessity of replenishing this fund by reading and other methods of instruction; and third, only the best material should be used in the preparation. Mr. Doney made a plea to the teachers to read and hear only the best, as everything they hear or see, as teachers, will bear directly or indirectly on the lesson. Three thoughts on the special preparation of the lesson were given to collect, cull and concentrate, the teacher seeking ever to graft into the lesson the elements of attractiveness, instructiveness and persuasiveness. Mr. Doney concluded his address with a quotation from 2 Timothy 1-15: "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." The afternoon session was concluded with enrollment and appointment of committees.

The Monday evening session was opened at 7:30. Rev. H. A. Bailey of Tionesta, had charge of the devotional and song service. This was followed by a brief explanation of the purpose and plan of the graded lessons, by Mr. Doney. After congregational singing, Mr. Doney gave a most helpful address on The Great Opportunity.

The Tuesday morning session was opened at 9:30 a. m., with Rev. W. R. Wheeler of Endeavor, presiding. Rev. Henry Smallenberger of Kelletville, led a most earnest devotional meeting, everyone taking part in an enthusiastic song service. The first address of the morning was by Rev. W. W. Dale, on the subject, Adult Bible Class. His talk was followed by a discussion of the subject in which many interesting points on class organization were brought out. After a brief song service, the report of the state delegate, Mrs. Ellen Catlin, was read by Mrs. Henderson, Kelletville. This report was exceedingly interesting and inspiring. A discussion on Teacher Training Class was opened by Rev. Bailey of Tionesta, who took the place of Mrs. L. E. Fenton, who was absent. Rev. Bailey made an earnest plea for more careful training for teachers, more bible teaching, and less outside instruction. He placed himself on record as being opposed to the graded lessons, and gave as his reason the belief that the bible affords ample field for instruction, and sufficient examples for teaching all subjects connected with Sunday school work. His talk aroused a heated discussion in which Rev. Springer, Rev. Dale, Mr. Ritchey and others took part. In the absence of Mrs. Myrtle Huling, Rev. Burton of Tionesta, opened the subject of Temperance Work in the Sunday School. He made a plea for the teaching of temperance, not on quarterly occasions, but regularly, as a part of each day's work. Teach children to hate the liquor business, and when they grow older they will be temperance workers. Mrs. Huling, who meantime had come in, gave an interesting talk. She told how she taught the temperance lesson in her class. Mrs. Huling's talk was so inspiring that she was given the only applause of the morning. A business session followed, in which reports of the district superintendents were taken up. Before adjournment, Mr. Frank Kehrl, County Mission Sunday School Union, was introduced to the convention and made a few well chosen remarks.

Tuesday afternoon session convened at 2:00 o'clock, Rev. J. A. Ballade of Kelletville, presiding. In the absence of Mrs. Ida Small, Rev. G. E. Springer of Minister, Pa., led the devotional. Rev. Henry Smallenberger introduced the subject Rally Day. He expressed himself as opposed to Rally Day as generally observed, by neglecting the work of the entire year and bringing it into one day. Rally day, every Sabbath, was his idea. His talk was followed by a heated discussion by both ministers and laymen. In the absence of Hon. F. X. Kretler, the laymen were called upon to discuss the question, How to Secure Church Attendance from the Sunday School. Various ideas were brought out as to why the church does not attract the Sunday school. The opinion was that the Sunday newspaper, Sunday ball and various other amusements claim the attention of the young people. Mr. T. F. Ritchey gave an interesting and instructive talk on Teaching in the Sunday School. This was followed by a paper on Beginners, by Mrs. Mabel Henderson. After the program, a business session was held in which reports of committees and election of officers, were taken up.

The officers for the ensuing year are: President, Hon. A. R. Mechlins; vice president, Rev. J. F. Scherer; recording secretary, Mrs. J. G. Jamieson; corresponding secretary, C. P. Cloak; treasurer, Mrs. Ellen Catlin. Department Superintendents—Teacher training, Mrs. Lyman Cook; home department, Mrs. Ida Small; cradle roll, Mrs. Mabel Henderson; temperance department, Mrs. Lena Heasley; adult bible class, Ralph Fogles. Executive Committee—Melvin Sibble, Mrs. Orion Niggins, F. V. Hendrickson, Hon. F. X. Kretler. Delegate to State Convention, F. F. Ritchey; alternate, Mrs. Orion Niggins.

Tuesday evening session was called at 7:30, Irvin Kelley of Tionesta, presiding. After the devotional, a short business session was held. Frank Kehrl, County Missionary S. S. Union gave the address of the evening. Personal work for Christ was his theme. The mission of each department of the Sunday school was defined. The convention adjourned to meet at Claridge, Pa., the following year. Most of the Sunday schools of the county were represented by delegates. The sessions throughout were well attended, and it was the sentiment of all that a most interesting and profitable convention had just closed.

NEW PROBE OF MONEY OCTOPUS

Sought by Representative Henry in House Resolution

CAUSES FLUTTER IN CONGRESS

Texas Democrat Begins Hostilities on Administration Program—Henry Resolution Will Mean Real Scrap.

The Democratic camp in Washington was thrown into confusion Friday when Representative Robert L. Henry of Texas, chairman of the house committee on rules, presented a bill designed to pave the way for a renewal of the inquiry into the so-called money trust.

In a statement accompanying the bill Mr. Henry declares that Wall Street conspirators are back of the present movement for banking and currency legislation and that "their only aim is to pass the Aldrich bill veneered over so as to fool the people."

Whether Mr. Henry intended it or not, his bill and the accompanying statement are accepted as a declaration of war by radical Democrats on the administration plan to put through a banking and currency revision bill at this session of congress.

The bill introduced by Mr. Henry gives committee power over national banks and other financial institutions exercised by the courts and the comptroller of the currency.

The leaders are hostile to a renewal of the money trust investigation and will do everything possible to have the Henry bill pigeonholed in the banking and currency committee to which it was referred. Mr. Henry announced, however, that he would make every effort to have the bill reported.

Probe of Lobbies to Go Deep.
 A probe into the working of lobbies and lobbyists will be the next move of the special subcommittee now investigating President Wilson's allegations that powerful and insidious influences have been working against the tariff bill.

This was indicated by developments at an executive session of the committee. Thus far the committee has confined its efforts to the sugar and wool lobbying on the tariff bill, but it believes that there are more interesting fields for inquiry.

Senator Jacob H. Gallinger of New Hampshire, a Republican and "father of the senate," furnished a sensation while on the stand.

He supplemented the attack made a few days ago upon President Wilson by Senator Townsend and told the committee he thought the influences were not superior in force to the influences asserted by the opponents of tariff reduction by the publicity campaign, the endless chain letters and every other phase of outside influence.

Chairman Overman, quite upset by the trend the examination was taking, inquired:

"Do you think a member of the house or senate could be intimidated?"

"Oh, I hope not," said Senator Gallinger.

In answer to a question by Senator Reed the witness replied:

"When a man says that he would 'hang someone as high as Haman' if that person did not do certain things, and that an industry which proposed reduction of wages and did so would be investigated, I think that is about the worst kind of influence I can imagine."

Senate Committee Favors Suffrage.

Senator Ashurst submitted the report of the women's suffrage committee recommending passage of the Chamberlain resolution for a constitutional amendment extending suffrage to women.

In considering whether the vote should be granted the report sets forth the important considerations for granting equal franchise and concludes that the woman applicant is entitled to her share in running the government.

Progressing With Underwood Bill.

Senator Simmons, chairman of the senate committee on finance, is hopeful of completing work on the Underwood tariff bill and having it ready for the party caucus next Wednesday. Senator Simmons believes that the Democratic caucus will not require more than a week to dispose of the bill, which would bring it into the senate before the end of the week beginning June 23.

Berry Given Federal Job.

The senate confirmed the nomination of William H. Berry of Chester as collector of customs for the port of Philadelphia. This nomination was held up by the Pennsylvania senators because they objected to the way in which the Republican incumbent of that office had been ousted by Secretary McAdoo.

AVIATOR KILLED IN OHIO

Drew Falls 200 Feet While Flying at Lima.

Andrew Drew, a Chicago aviator, fell 200 feet while making a test flight near the Lima (O.) State hospital and was killed.

Drew, with Frank Shaffer, conducted aviation school here. He had made numerous flights in Ohio.

Four Buildings Burned.

Four buildings were destroyed at Claridge, Pa., and for a time it was feared that greater destruction would result as there were no means of fighting the flames except by hand extinguishers. The damage was estimated at \$8,000.

Plant Is Burned After Explosion.

The large upholstery and feather renovating plant of Marshall C. Conroy and his barn which adjoined the plant at Bradford, Pa., were destroyed by fire causing a loss of \$6,000.

Shirts made to order \$2.00 and upward.

Suits made to order \$15.00 and upward.

His Extradition to Italy For Wife Murder Ordered

PORTER CHARLTON.

CHARLTON MUST GO BACK

Ordered Extradited to Italy to Stand Trial For Wife Murder.

The supreme court of the United States handed down a decision ordering the surrender of Porter Charlton, who is now confined in New Jersey, to the Italian officials for extradition to that country. Charlton is charged with having murdered his wife in Lake Como.

The court's decision is the last step, so far as this government is concerned, in this remarkable murder case. The murder was committed in June, 1910, and the efforts of Italy to extradite Charlton have been stubbornly contested ever since.

PITTSBURGERS HAPPY

Ore Rate Decision Has Big Affect on Steel District.

Pittsburg blast furnace men are glad over the interstate commerce commission decision regarding freight rates on iron ore from the lake ports to Pittsburg and on coke in the Connellsville region to points east and west, in which the existing charges were reduced to such an extent that Pittsburg has at once taken a forward step in the iron and steel world.

The decisions were on the complaint of President Rowe of the Pittsburg Steel company that freight rates on iron ore to the district should not be higher than to the Wheeling (W. Va.) district. This complaint was approved. The Wheeling rate has been sixty cents a ton and to the Pittsburg district it has been ninety-six cents a ton, thus a saving of thirty-six cents a ton on iron ore results.

In addition to local interests the producers in the Shenango and Mahoning valleys benefit by the coke rate order, which is about a 12 per cent reduction.

MOROS ARE ROUTED

Six American Soldiers Are Killed in Battle in Philippines.

With an American loss of six killed and twelve wounded Brigadier General John J. Pershing, commander of the department of Mindanao, Philippine Islands, captured the entrenchments of the rebellious Moros under the command of the Sultan of Jolo. The fighting was fierce and the resistance of the natives who were cornered was desperate.

In the last few minutes of the engagement the Moros threw themselves upon the bayonets of the American soldiers. The victory was complete. All the entrenchments of the Moros were taken with the exception of a small stronghold further up in the mountains.

With the vanquish that General Pershing has obtained, however, it will be an easy matter to storm that little fort. Its capture will be effected in a day unless the Moros surrender.

Water to Enter Canal This Week.

Water from the Atlantic will be let into the lower level of the Gatun locks, Panama canal, this week. Dredges will then complete the excavation from the ocean to the locks, which will amount to about 2,000,000 cubic yards.

Anniversary Sale

Starts Friday Morning,
 June 20th, Ends Saturday Evening, June 28th

Picture Shows Collision on New Haven Road

The wooden shell of a Pullman carrying thirty passengers was crushed by the impact. Only four persons escaped uninjured.

FIVE DIE IN WRECK

New Haven Road Has Another Bad Accident in Connecticut.

Five persons are dead and fifteen seriously injured as the result of a rear-end collision on the main line of the New York New Haven and Hartford railroad, opposite the passenger depot in Stamford, Conn., when the second section of the Springfield express crashed into the first section, just leaving the station.

The engine of the second section plowed ball way through a Pullman car, the last on the first section. In this car were thirty-one passengers. Practically all of them were injured. According to an official statement by the engineer of the second section ran by both the distant and home signals.

PLENTY OF MONEY READY

McAdoo Would Distribute \$500,000,000 to Banks to Relieve Uncertainty. Secretary of the Treasury McAdoo gave impressive evidence of the administration's willingness to do every-

thing to relieve any feeling of uncertainty in the business world that may exist on account of the present conditions or fear of the tariff legislation.

Mr. McAdoo announced he "would not hesitate" to issue \$500,000,000 of new national bank notes under the Aldrich-Vreeland emergency currency act if the banks desired them. This announcement, it was made clear, was given out merely for the purpose of removing any uncertainty that may exist in the minds of bankers as to what Secretary McAdoo's attitude would be upon applications of this character. Mr. McAdoo explained that no applications for emergency currency had been received from national banks and that his statement was not prompted by any special developments in the business world.

ACTIVITY KEEPS UP

Dun's Review Reports That Retail Trade Is Well Sustained.

Dun's Review of Trade says this week: "While reports regarding retail trade conditions indicate that activity is well sustained at many leading centers, some recession is noted at others and wholesale buying is, on the whole, rather cautious. The European political situation improved somewhat during the week and was reflected in a stronger tone at all the leading financial centers.

"The government report of crop conditions, although showing a decline in winter wheat, indicates that the yield will be next to the largest on record and points to a season of prosperity throughout the vast region where that cereal is the dominant factor. While unbled iron and steel orders of the leading interests for May showed a heavy reduction, consumption continues large and a new buying movement is anticipated."

Cave-in Kills Thirteen.

Thirteen men working in a New York subway were caught in a cave-in. Eleven were killed.
