************ The store is at the height of summer attractiveness. Its aisles are broad and cool. The cream of its summer stocks is displayed at savings most inviting. It is an ideal place at which to shop today.

The Corset Store That Prides Itself on

the Quality of Its Service.

Proper Corsets play so important a part in the toilette of the woman of today that the question of obtaining the Corset most suited to the individual figure requirement is a very pleasing one.

We specialize on answering that question. For when you decide on some particular make at our Corset section, we are not content simply "to make the sale."

An expert corsetiere is there, whose business it is to see usual tightness of money, that you get the size and style you need to fit you with a Corset the significant announcement that govso stylish, so graceful, and so comfortable, that you will at once join the constantly increasing number of friends of our Corset be placed only with banks which have Store.

Everything for Going Away Toilettes.

Whether you are bound for the mountains, the lake, or the seashore, it will mean a great deal to your comfort if you are prepared in the matter of dress; if you know that you won't suffer annoyance later by the absence of articles forgotten at the last minute.

We are ready to serve your every going away need, madam, from drinking cup to dress-at prices uniformly in keeping with this store's enviable reputation for seiling only the highest grades of merchandise at the smallest possible profit.

COMMERCIAL PAPER SECURITY

Secretary of Treasury's Order Means That Government Will Establish Precedent in Jts Financial Policy.

Twenty-five to fifty million dollars of government funds will be deposited in national banks of the south and west at once by Secretary McAdoo to facilitate the movement of crops.

Federal, state and municipal bonds and prime commercial paper will be accepted as security for the money upon which the banks will pay 2 per cent interest.

The motive of Secretary McAdoo in establishing this new policy is to anticipate the money stringency in the late summer and fall, which invariably accompanies the marketing and movement of crops, especially when the crops are unusually large as the harvest now beginning forecasts. He intends to take time by the forelock and prevent or minimize the

In a statement the secretary made ernment bonds would be accepted at par as security for the new deposits and that the additional money would taken out at least 40 per cent of

their authorized circulation. The United States 2 per cent bonds serving as security for most of the national bank circulation, have been

depressed recently to a new low market record, 95%, in the last few days. The secretary's willingness to accept these bonds at par as security for the 25 to 50 millions of promised deposits and the inducement to the national banks to increase their circulation up to the 40 per cent limit is expected to help in restoring the parity of the depressed 2s by creating a new market for them.

For the first time in history the government will accept prime commercial paper as security for deposits, This privilege will be granted, announced the secretary, in order to make these special deposits available to the banks on securities readily within their reach.

"The commercial paper submitted," Mr. McAdoo added, "shall first be passed upon and approved by the clearing house committees of the cities in which the banks offering

such paper may be located. All com mercial paper and bonds must finally be passed upon and accepted by the secretary."

Approved commercial paper will be accepted as security for the deposits at 65 per cent of its face value, and high-class state, municipal and other bonds, exclusive of government bonds, at 75 per cent of their market value.

The additional deposits will be placed with the national banks in the two or three principal cities in each

Lemonade a Germicida Lemonade made with soda water, seltzer or carbonic water is one of the most perfect germicides that can be taken into the body, according to the London Lancet.

"It has long been known that water charged with carbonic acld gas loses after awhile what bacteriological activities it possessed." says that authoritative medical paper. "This ob-

servation has been confirmed, the evidence showing that the germicidal effects are greater as the pressure of gas is increased. It would seem to follow that deep natural waters charged

with carbonic acid gas must be sterile. at all events before they reach the surface, and numerous examinations have shown that natural aerated waters exhibit a freedom from active germs. In

the case of lemonade, however, there is present, besides carbonic acid gas, the citric acid of the lemon, and citric acid. even in weak solutions, is a germ destroyer.

> He Didn't Fit the Suit. "I have always been convinced that New York takes the lead in most things," said the comedian, "but I was unaware until lately that the clothing salesmen here are expert anatomists

"I had occasion to visit a downtown business office, where I heard a clerk telling the other employees of a suit of clothes which he bought and paid for, but which did not fit properly. He decided to return the suit and insist upon receiving another in place of it. Acting upon this decision, he left the office. Shortly afterward be reappeared with the same suit of clothes and a disgusted look.

"'What is the trouble?' was asked. " 'Confound It!' he exclaimed, pointing to his chest. 'After taiking to the salesman I discovered that I am too flat here, too thick here and my legs

are too short."-New York Times. A Spendthrift Duke.

The sixth Duke of Devonshire, son of the "Gainsborough" duchess, came into a colossal fortune on attaining his majority. The whole of his property was in his own hands. The entail had been cut off, and his father's death had interfered with the resettlement. "There was, therefore, no curb on his extravagance," says his biographer, "and so great were the inroads that his mode of life made on his wealth that toward the end of his life he felt constrained to sell the Yorkshire estate of Londesborough." This famous and foolish duke believed in keeping up the dignity of his position and would drive to race meetings in a coach and six with twelve outriders. When sent as ambassador extraordinary to St.

Petersburg for the coronation of Nicholas 1. he spent £50,000 in excess of the sum allowed him by the govern ment.-London Globe

Keep Pots and Pans In Sight. The efficient kitchen should be so ar ranged that it is not necessary to hide all the pots and pans under doors and

in cupboards away from sight. Did you ever visit a factory or large establishment where the boilers and the caldrons and the beiting and the thousand tools were stuck away from sight when not in use? Your kitchen equip ment should be so attractive and good that it looks well and doesn't need to be tucked away. Every time a pot is treasures is a volume of pleces for pushed into a shut closet we increase viola da gamba, written by English of the states where harvesting is in the dangers of uncleanliness, and it composers of the sixteenth century and progress and where the demand for takes us twenty unnecessary motions the first half of the seventeenth cento stoop to place it in a low cupboard and fish it out again. Hang up, place on shelves, put knives in strips of canvas, screw eves on small pieces, use no closet doors if possible and let your kitchen be a real workshop .- Philadel phia Ledger.

The Navy of Today,

The transformation from the sail propelled man o' war to the complicated mass of machinery known as the modern battleship is not one bit more pronounced than the improvement which has taken place in the personnel of the men who compose the human working parts of these great machines. Time was when the navy was looked upon by many as a sort of reform school, a last resort to which young the villa is built presented many diffimen could be sent who were not quite bad enough to be put in jail and not good enough to roam at large. Such conditions have, fortunately, passed away, and the American cavy today is composed of brains and muscle of the highest order and a personnel of which the country can well be proud --Popular Mechanics.

A Gigantic Neptune At Monterossa, near Spezia, Italy, there is an architectural curiosity, a gigantic figure of Neptune, constructed of cement and used to support the extreme end of a terrace for a seaside villa. The house is the Villa Pastine, says the Wide World Mugazine, and the statue is the work of the Signor Arrige Minerhi, a talented sculptor of Rome. The small promontory on which culties to the architect, but he finally succeeded in building there a very commodious and comfortable villa The statue is wonderfully lifelike and is eleven meters in height. The body, which, like the head, is built of reenforced cement, is hollow and contains a spiral staircase. Considering the nature of the material with which Signor Minerbl had to work, he is to be congratulated on the result of his

There are many echoes in the world, but few voices.

labors.

noney for moving the crops most conveniently can be met. The secretary said it would not be practicable to scatter the deposits among the smaller cities, especially in view of the character of securities necessary. The banks will be required to re-

turn the money to the public treasury when the crops have been moved. The present suggestion is, Mr. McAdoo said, that 15 per cent be repaid in December, 30 per cent in January, 30 per cent in February and 25 per cent next March. "Steps are being taken to carry out

the plan," the secretary added, "so that the funds may be promptly available for the movement of the crops,"

GREEN APPLES ARE FATAL

One Child Dead and Two Others May Die from Eating Them. At Kane, Pa., James, the three

year-old son of Mr. and Mrs. Earl Campbell, is dead and two other children, William, thirteen, and Christine, six, are in a critical condition with little hopes entertained for their recovery as the result of eating green apples. The little children took the apples

off a tree near their home and not knowing they were injurious ate many. James, who was the youngest of the three, lived but two hours.

AGREEMENT IS SIGNED

Miners Went Back to Work Monday In Cabin Creek, W. Va.

For the first time in a year opera tions in the Cabin creek district, W. Va., were resumed on Monday withut interruption or fear of interruption.

with one exception all the local union organization in the district had ratified the agreement reached through the efforts of local business men, coal operators and representatives of the United Mineworkers of America.

Sheet Men Get Advance.

The American Sheet and Tinplate company at Sharon, Pa., has announced an increase of 5 per cent to heaters on tin mill crews and an advance of 10 per cent for doublers and matchers on sheet mill crews. The increase was made voluntarily and affects thousands.

Tht Conquest of Disease.

The wonderful achievements wrought by bacilli cultures and the preparation of preventive serums place modern physicians in a position surpassing that of the ancient magi or medieval alchemists and render their services to mankind more striking than the proudest exploits of Alexander or Cyrus. In the campaign against virulent diseases the qulet microscopist in his study, be he a Pasteur, Flexner or Carrel, is unostentatiously warring with armies the conquest of which outmatches the

military feats of a Caesar or a Charlemagne.-Philadelphi: Press.

Haiti's Mysterious Booms.

"Gouffre" is a term applied in Halti to mysterious acoustic phenomena probably of subterranean origin, be longing to the class of sounds known as "broatidi" or "broatides," reported from various parts of the world. They seem to be much more varied in character than the typical brontides of Italy or Belgium. Sometimes they resemble the boom of cannon, but again are deacribed as deep rumblings, howlings, a rushing sound as of wind, a deafening crash, "as if a mountain of glass were

shattered." They have been known in Haiti from early times.

Rats In Tokyo. A price is set on the head of the rat in Tokyo, and, according to the Far East, "the sight is frequently seen in

the side streets of the city of some blooming damsel gingerly conveying a small rat, suspended by a string tied to its tail, to the police box. Here an official receipt is given for the rat, which entitles the holder to 5 sen, and so the plague is combated and the people protected against foul epidemics."

Ham Patties.

Mix one pint of cooked and finely chopped ham with two parts of bread crumbs, and wet with milk; put the batter in gem pans, break one egg over each, sprinkle the top thickly with cracker crumbs and bake until a delicate brown. A nice breakfast dish .-National Magazine.
