MAUS TO DIE OCT. 23

Prisoner Barks Like Dog When in Formed—Believed Insane. Barking like a dog, John Maus, in jail at Somerset, Pa., showed signs of insanity when told that Governor Tener had fixed Oct. 23 for him to expiate on the gallows the murder of Harrison Brown, a United States mail carrier, in Beachley last September. Maus will not be electrocuted in the penitentiary as provided by a new law because he was sentenced before the law went into effect, but will be hanged in Somerset jail. Maus is becoming profane and vicious. He gives a perfect imitation of a dog's bark. An effort will be made to have him declared insane, it is expected.

Woman Drowns Brbe; Hangs Self. Mrs. Ida Hirsch, forty-two, at Monaca, Pa., drowned her infant child, five months, in a bathtub then went to the cellar of her home and hung herself. When the child was born Mrs. Hirsch, it is said, became slightly demented and for some time acted queerly. The husband is heart-broken and thinks his wife's mind again became deranged.

Little Girl Saved. A thrilling escape from death occurred at Tyrone, Pa., when Emma Snyder, aged four, stepped in front of a locomotive hauling twenty cars. She was knocked down by the engine, which with two cars passed over her body before the train could be stopped. She was picked up in a dazed condition.

The women reported the matter to the police and a search was made for the alleged ghost, which resulted in the finding of Johnson. At a hearing at the Allegheny police station Johnson was sentenced to pay a fine of \$10 or to be confined in the county jail for twenty days.

Display and Sale Hair Goods.

Madam Wray, representing the Gumbinner Co., of Chicago, will be here all week. Patrons of the store will remember the magnificent Hair Goods display made here by this firm a year ago. The extent and beauty of the display made at that time was the talk of the town and all were amazed at the little prices asked. The same prices and we are advised the assortment is bigger and better than it was a year ago.

We're prepared to show you some remarkably nice suits at those three prices. Suits that we're proud to put this store's label in and have it known that they come from the Kinter Co. as any \$25 or \$35 suit in the store.

We believe we know what constitutes rare suit value and we are at a loss to know how greater value could be crowded into those prices. For the tailoring is above reproach, the fabrics and styles conform to the latest fashion and there is nothing to be desired in the fit of them. There's some surprises in store for suit buyers who read this ad. and come.

GONE UP IN SMOKE

One-half of your coal—and it did you no good. Hard luck that. But there is a way to fix it. Here's how:

That stove of yours has seen its best days. You need a new one. You know it—but you have let things drift along.

Meanwhile, you have been losing HALF of every hod of coal you have put in it. Of course, you knew it, but you did not think of it that way. You know that half of every lump is gas. Fail to burn that gas and it is like throwing into the ditch half of every dollar you spend in coal.

Rather extravagant? Yes? The ordinary stove made of a lot of separate castings leaks air. They leak air at the wrong place. Places you can not control.

RESULT—the best part of your coal—the 14,000 cubic feet of common illuminating gas that is in the average ton of \$3.00 soft coal—goes up the flue unburned. You have lost it. It has gone up in smoke.

Save that gas—mix it properly with air and you have the hottest kind of a blue flame. But there is only one way to do this—Buy the only heater that is made tight—holds tight—stays tight.

Cole's Original Hot Blast Heater

It leaks no air. This is the heater that mixes the gas and air and gives you all the heat in the coal.

This is the heater that burns any kind of coal and makes a ton of \$3.00 soft coal do the work of \$8.00 hard coal in a high priced base burner.

This is the heater that is a joy and comfort to the housewife. It makes no dirt or smoke in the house.

This is the heater that saves labor—fix it in the morning and at night and FORGET IT THE REST OF THE TIME.

This is the heater that gives a steady, constant heat from soft coal or lignite.

This is the heater that will hold its fire untouched for a day and a half.

This is the heater we sell you under a guarantee that is as "good as old wheat at the mill." Burns soft coal, lignite, slack, hard coal or wood.

It is just the kind of a heater you want. Come in and see it.

S. S. Sigworth, Tionesta.

See the name "Cole's" on the feed door of each stove. None genuine without it
