Republican Ticket.

District Attorney, M. A. CARRINGER, Tionesta Borough.

If you are in favor of good roads say so by your vote next Tuesday.

The Pittsburgh Chamber of Commerce, one of the most influential organizations in the state, passed resolutions Monday night strongly endorsing the good roads proposition.

REMEMBER, if the good roads proposition is voted down now it will be about nine years before the question can again be submitted to a vote.

MARK a cross (x) in the square opposite the word "yes" in voting for the good roads amendment, which is the first or No. 1, on your ballot.

LIKE all other questions there are two sides to the good roads proposition. One is to carry the amendment and secure the best roads possible for absolutely no cost to any individual taxpayers.

A VOTE for M. A. Carringer is a vote to retain a careful, painstaking and efficient man in the District Attorneys office.

Don't Fail to Vote "Yes" on Amendment No. 1.

The Adams Express company has offices and does business at over twenty-five different points in this county.

At a number of them it clears more money each year than any half dozen of the best farmers in the county does.

At all of them it has a clear profit on every dollar's worth of business it does.

It has horses and wagons, and possibly other property, but not a cent's worth of its property is represented on any tax duplicate in the county.

Not a penny of tax for either road, school, poor or other local purposes does it pay or has it ever paid.

If an assessor makes a mistake and values its horse or wagon as he does that of the farmer or drayman, application is at once made to have it stricken off the assessment on the ground that this property goes to make up the values of its capital stock that cannot be taxed for local purposes.

And if it comes, and you can't find the name of the Adams Express company on any tax duplicate in Centre county, or in the State of Pennsylvania.

And it's the same with the Pennsylvania railroad, the Telephone companies, the Electric Light concerns or any other corporations whose wealth is represented by "capital stock."

And yet when a proposition is before the people to so amend the Constitution that these corporations can be required to help build our roads there are farmers and others, who are taxed on every dollar's worth of property they possess, who refuse to vote for such amendment, and by such refusal, assist in exonerating these corporations from the payment of local taxes of any kind.

Mr. Voter, are you one of these?

Don't you think that these corporations ought to be taxed in some way that will help lessen the burden that is being imposed upon you?

If you do make a cross (X) in the square opposite the word "Yes" at amendment No. 1, on the ballot that you will vote on election day.—Belefonte Watchman.

The same is true in a greater or lesser degree in every county in this state, including our own county of Forest. Think of this when casting your ballot next Tuesday.

The Return of Chadman.

I have just read in the REPUBLICAN that the game season is open for ruffed grouse and I sure am homesick to go up back of Judge Irwin's place and bag one of those big cocks that has fattened himself on berries and nuts and wild grapes.

But no one who has not spent a year or so in this climate can believe what luxury there is in these cool, clear, transcendent nights, and these never falling balmy, sunshiny days.

The citrus crop is a little below the average in this immediate vicinity, but farther up Peace river, and along the Caloosahatchee and its tributaries, the trees are heavily laden, and hundreds of thousands of boxes of fine oranges and grapefruit will be shipped to the markets of the big cities.

PATCHWORK ROADS

If we depend on each Legislature to appropriate from one-twentieth to one-fourth the amount necessary to take care of the main highways a large part of it will not only be wasted in needless repairs every year to roads unsuited to our needs but each county will get just one-twentieth to one-fourth the amount it should have.
