

THE FOREST REPUBLICAN.

J. E. WENK, - EDITOR & PROPRIETOR.

WEDNESDAY, JANUARY 28, 1914

THE TAMMANY crowd are now beginning to realize how it feels to be on the outside looking in

In old times a wife was regarded as her husband's better half, but now she wants to be the whole thing

HENRY FORD, the Auto King, of Detroit, appears to have had a rush of benevolence to his carburator.

OVER 18,000,000 pounds of meat were imported from Canada, Argentine and Australia in October and November. This is three times as much as was imported during the entire year of 1912. It is up to the Democrats to tell us why meat is still high. They formerly claimed that it was the wicked Tariff.

THE burning question before this great American people just now is, when are the hens going to begin their profit sharing? Evidently the hen is in collusion with the egg trust, or she would have taken advantage of the mild weather to lay by something for a hard February to come.

It is to be hoped that President Wilson's "constitution of peace" will put a stop to the warfare between Secretary Redfield and those manufacturers who have cut wages because of the effect upon their business by the new tariff bill. By the way, the revenues from the tariff dropped off \$50,000,000 in October and November, and that, too, without as yet any corresponding decline in the prices. -Titusville Herald

THE Pennsylvania state statute which prohibits aliens from hunting game in this state and also from having in their possession either a shotgun or a rifle has been declared unconstitutional by the supreme court of the United States. Joseph Falcone, convicted of an offense against the law at Nolichucky, Allegheny county, Pa., brought the test case to the higher court, alleging the law was unconstitutional. The Pennsylvania courts had uniformly asserted the law was valid.

"THE tariff is the mother of trusts." That statement has been made in every campaign since the trust question came to be discussed on the stump in this country. It has been a Democratic slogan, and one of the principal arguments given for killing the protective principle in our tariff laws. The deed has been done effectively. Protective tariff has been put in a mummy shell - for the time being. The cause of the trusts have therefore been done away with, why bother any more about them? With that which kept them in existence wiped out, not even a message to suggest remedial legislation for them would seem to be necessary. -Derrick

Jefferson County License Court.

A dispatch from Brookville, under date of Jan. 26, says: "Declaring from the bench that he knew he had dug his political grave; but he would not sacrifice his interpretation of the law for political preference, Judge John W. Reed, in court here today granted 37 retail liquor licenses and four brewers' licenses. Judge Reed denied that he or any member of his family held stock in breweries. A petition signed by 13,000 persons had just been presented to the court asking that no liquor licenses be granted in Jefferson county."

Senator Hall to Quit.

The Philadelphia Sunday Public Ledger contained the following political gossip from this district:

"State Senator J. K. P. Hall's political friends were discussing yesterday his announcement made to them that he would not be a candidate to succeed himself in the coming primaries. Senator Hall, who has represented Elk county for the last 12 years, while saying at the Bellevue the last few days has been reviving some former statements of his to the effect that he would 'retire from politics.'" The Senator's friends said they believed he would let his latest declarations on that subject die out just as he has in the case of the others. Nevertheless, the Senator's term expires this year and he is about 70 years of age.

"Should he really retire from the Senate, it was thought most likely that he would be succeeded by John M. Flynn, of Elk county, who was the Old Guard Democratic leader in the last State House of Representatives. Mr. Flynn is one of the Senator's chief political lieutenants.

"Senator Hall, reputed to be a wealthy man, has for a long time been a conspicuous figure in the Old Guard Democracy of Pennsylvania. He was the leader of that element in the upper house of the State Legislature. He began his political career by serving as District Attorney for Elk County in the 60s and 70s, served in two sessions of Congress and then went to the State House. His full name is James Knox Hall."

Mayburg.

The Rev. Mr. Winslow, of Brookport, Pa., who has been with Rev. Mr. Bryan in a series of revival meetings for the past two weeks, returned to his home Monday morning on the 8 o'clock train.

Just two days after Mr. and Mrs. Andrew Spangler returned from their wedding trip they had word from the former's son at Perry, Pa., saying the sick had visited his home and made them grandpa and grandma. Some class to that. Not many people occupy this exalted position just two days after their wedding day.

Friends of Dr. and Mrs. Detar have word from them to the effect that they are having lovely weather down there, with no snow, but the children are not in love with Philadelphia and would rather be back in Kellektiville with the opportunity of throwing a snow ball or two.

Telepathy.

"Telepathy" is an old thing. Bacon called it "sympathy" between two distant minds. Isaac's vision in Paris of his wife and dead child, observing that "if two lutes are strung to an exact harmony and one is struck the other sounds." Scottish highlanders, who would have been puzzled by the word "telepathy," have long been familiar with the idea for which it stands. Andrew Lang quoted the case of a poor highland woman who wrote to her son in Glasgow, "Don't be thinking too much of me, or I shall be seeing you some evening in the byre."

My father once had a curious telepathic experience. He was dressing in his bedroom one morning when he suddenly saw the face of a Scotch servant girl, contorted with agony, in the looking glass before him. He went downstairs to the kitchen and found the girl writhing in a fit upon the floor, her face exactly as he had seen it in the mirror.—London Spectator.

Beneficial Exercise.

Exercise to be beneficial must do these things:

First.—It must slightly increase the strength and force of the heart beat, so as to improve the circulation and to go away with any tendency to sluggishness.

Second.—It must slightly quicken and deepen the breathing rate so that more pure air is drawn into the lungs and less impure air is left behind.

Third.—It must stimulate into normal activity the myriads of glands in the skin whose duty it is to rid the body of a part of the poisonous substances constantly being formed within us.

Practically any exercise, if carried out with the correct degree of moderation, will accomplish these results and so deserves the term "beneficial exercise." The trouble is that indulgence in past moderation almost every form of exercise can do more harm than good.—New York World.

The Greeting of Democracy.

The story that the Kaiser loses most to tell his intimates, declares Mr. William Armstrong in the Woman's Magazine, concerns the visit of his brother, Prince Henry of Prussia, to America.

The incident happened just as the prince was landing at New York. Beside him on deck stood Admiral von Tirpitz. On the dock was a dense crowd. From its midst a stentorian voice called, "Henry, Henry!"

The prince did not understand that the hall was meant for him until the admiral, smiling broadly, said, "Your royal highness. I think some one wants to speak to you."

Then Prince Henry looked over toward the human throngs, who still continued to hoot on his name. Seeing that he had caught the royal gaze, the owner of the voice shouted, "How's Bill?"

Borax in the Laundry.

The use of borax in the laundry is manifold. It is infinitely better than soda for washing purposes. It may be used in the proportion of a large handful in ten gallons of boiling water, and will effect a great saving in soap. If you are about to wash delicate laces or cambric use an extra quantity of powder. The effect of borax is to soften the hardest water, and being a neutral salt, it does not in the slightest degree injure the texture of linen or any other delicate material washed with it.—New York Globe.

Dangers of a Cold.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the colds themselves that you need to fear, but the serious diseases that they so often lead to. For that reason every cold should be gotten rid of with the least possible delay. To accomplish this you will find Chamberlain's Cough Remedy of great help to you. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold. For sale by all dealers.

Biliousness and Constipation Cured.

If you are ever troubled with biliousness or constipation you will be interested in the statement of R. F. Erwin, Peru, Ind. "A year ago last winter I had an attack of indigestion followed by biliousness and constipation. Seeing Chamberlain's Tablets so highly recommended, I bought a bottle of them and they helped me right away." For sale by all dealers.

DON'T KNOW THEY HAVE APPENDICITIS

Many West Hickory people who have chronic appendicitis, which is not very painful, have doctored for years for gas on the stomach, sour stool or constipation. The West Hickory Drug Store states if these people will try A SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-ika, the remedy which became famous by curing appendicitis, they will be surprised at the INSTANT benefit.

Excellent for Stomach Trouble.

"Chamberlain's Tablets are just fine for stomach trouble," writes Mrs. G. C. Dunn, Arnold, Pa. "I was bothered with the complaint for some time and frequently had bilious attacks. Chamberlain's Tablets afforded me great relief from the first, and since taking one bottle of them I feel like a different person." For sale by all dealers.
