The Best of The New Styles in Suits, Coats and Dresses.

Every through express these days is bringing some addition to the rapidly growing collection of women's appareling for spring; and many an exclamation of delight is heard as the new garments are unpacked. Customers and sales people alike, vow they have never seen anything to compare with them.

With present assortments the widest to date, it's a splendid time to view them, while the charm of newness and novelty which accompanies first fashion displays is at its height.

Wash Fabrics—Charming in Weave and Color.

Crepes and Ratines such as you've never seen before—woven in charming hollow checks, plaids, stripes, or figured patterns as exquisite as an artist could paint them—often in new colorings that you never knew could be achieved.

Lovely sheer Voiles, too, in small flowered patterns that are adorably quaint and new.

You will hardly need to be told, we think, the advantage of choosing early.

For one thing, most of the new effects are imported, and cannot be duplicated later. And there's no more convenient time than now to make ready the new frocks for spring.

AS A MATTER OF FACT

the race is not always to the swift. In other words, the man who depends on luck and chance has not the certainty of becoming financially independent which is assured to the Systematic Saver.

The Distinctive Garment Store

This Is Certainly Good News.

A Gossard Corset at \$2.00.

There are many women in this vicinity who have hesitated in the selection of a front lace corset because they did not care to invest \$3.50 in a Gossard.

The objection to price has now been removed and we are offering a new and distinctive model at \$2.00.

This corset has a medium bust flat back, long skirt with ample fullness and is designed to meet the requirements of the average figure perfectly. Office women and all other women, who of necessity must wear their corsets throughout the day, will find this garment ideal.

It is made in a splendid Everlast cloth and, like all Gossard Corsets, it is guaranteed to give absolute satisfaction in both wearing service and design.

Priced at \$2.00.

Penna Progressives Name Him For Governor

WILLIAM DRAPER LEWIS.
The Washington party conference in Harrisburg, Pa., named William Draper Lewis of Philadelphia as candidate for governor to be supported at the primaries.

WAGE PARLEY COMES TO END

Soft Coal Operators and Miners Fail to Agree

In Philadelphia the conferees representing the soft coal operators and miners of western Pennsylvania, Ohio, Indiana and Illinois failed to come to an agreement on the wage scale to take the place of the one which will expire on March 31. The men adjourned sine die.

It was announced that this action does not mean necessarily a strike, as it was pointed out that five weeks remain for the two sides to get together in another effort to reach an agreement.

It was predicted that another conference would be held before April 1 in a city within the central competitive field.

After the joint conference adjourned the miners held a meeting, at which John P. White, international president of the United Mineworkers of America, was instructed to call together the policy committee of the organization whenever he deems it necessary.

The policy committee is made up of representatives from every district of the United Mineworkers in the United States and Canada. President White afterward said he did not know when he would send out the call. All depends upon developments within the next few days, he said.

The break came on the demand which provides that local differences be settled within local districts. On this question the miners' demand was as follows:

"That all local inequalities and internal differences be referred to the various districts affected by settlement."

The operators refused this and proposed the following, which is the third paragraph in the existing agreement adopted in Cleveland in 1912:

"That internal differences be referred for adjustment to the various districts affected. It being understood that nothing shall be done in district or subdistrict conventions that will increase the cost of production or reduce the earning capacity of the men."

Die geeignete Auswahl von Brillen.

Es sind mehr Augen durch unrichtiges Anpassen von Gläsern als durch sonst etwas ruiniert worden. Hat das Auge mangelhafte Refraction, so muß das Bild aller Gegenstände nach einem Focus auf der Netzhaut durch außergewöhnliche Tätigkeit des musculus ciliaris gebracht, aber das Bild unvollkommen sein und das Resultat verunklartes Sehen mit Schwäche und Schmerz um Augen und Stirn. Dies verursacht Congestionen, welche sich durch schwere Augenlider, Rötze, Jucken oder Brennen, ein Gefühl, als sei Schmutz im Auge, und häufigen Schmerz verbunden mit Empfindlichkeit gegen Licht zeigen. Je schwächer das Auge, desto fühlbarer obige Symptome. Augen mögen physikalisch stark und gleichwohl sehr schwach sein um umgekehrt.

Um durch Gebrauch einer Brille die Mängel aufzuheben, wird die Tätigkeit der Muskeln geändert, und wenn die Schalen darüber oder durch zu stark oder zu schwache Gläser nicht aufgehoben ist, so sind die Ursachen der Congestio eher vermehrt statt vermindert. Befeitigene Refraction, muß irgend ein Handlglas den Schaden vermindern. Jeder Schwachichtige sollte sich sorgfältig wissenschaftlich unterfragen und Brillen anpassen lassen, ehe er sie in Gebrauch nimmt.

In besondern Fällen werden Gläser auf Bestellung geschliffen, in jedem Falle garantiert.
