Wear Gossard Corsets.

They Lace In Front.

The approval and continued recommendations of Gossard Corsets, by the greatest designers and fashion authorities, is interesting.

To have doctors and trained nurses advocating them in the same breath with Fashion creators is a wonderful tribute to a garment which has done much to "unage women."

The improvement shown in these average figures is not an "ideal," but a reality, which you may achieve through a correctly fitted Gossard Corset.

PERMITS MENTAL HEALING

New York Legislature Passes Bill Allowing Christian Science Methods.
The McClelland-Thorn bill permitting Christian Science treatment of the sick passed the New York state senate after a sharp fight by a vote of 79 to 50. It has passed the house and goes to the governor for approval. The bill permits treatment of the sick by mental or spiritual means without the use of any drugs or material remedy.

The passage of this bill ends a fight of many years' standing.

A statement was issued by the bill's supporters declaring the passage of the bill "has enabled New York to take her rightful place among other progressive states in protecting by statute the medical as well as the religious rights of their citizens."

WON'T JOIN UNIONISTS

East Liverpool School Teachers Refuse to Stand on Dignity.

One hundred and twenty-five East Liverpool (O.) school teachers, the majority women, told J. T. Duffey, a labor organizer, that it would lower the dignity of their profession to become affiliated with the American Federation of Labor.

The teachers, who assert that many of their profession get less wages than the school janitors, met here to form an organization in a campaign to secure a material increase in their salaries. Their salaries at present range from \$42 to \$70 per month. They told the labor organizer that they appreciated the interest evinced by the federation, but they had decided to form an independent organization.

Die geeignete Auswahl von Brillen.

Es sind mehr Augen durch unrichtige Anpassung von Gläsern als durch sonst etwas ruinirt worden. Hat das Auge mangelhafte Refraction, so muß das Bild aller Gegenstände nach einem Focus auf der Netzhaut durch augerichtete Tätigkeit des musculus ciliaris gebracht, oder das Bild unvollkommen sein und das Resultat verunklartes Sehen mit Schwäche und Schmerz im Auge und Stirn. Dies verursacht Congestionen, welche sich durch schwere Augenlider, Rötthe, Jucken oder Brennen, ein Gefühl, als sei Schmutz im Auge, und häufigen Schmerz, verbunden mit Empfindlichkeit gegen Licht zeigen. Ist schwächer das Auge, desto fühlbarer obige Symptome. Augen mögen physisch stark und gleichwohl schwach sein um umgekehrt.

Um durch Gebrauch einer Brille die Mängel aufzuheben, wird die Tätigkeit der Muskeln geändert, und wenn der Schaden vorüber oder durch zu stark oder zu schwache Gläser nicht aufgehoben ist, so sind die Ursachen der Congestion eher vermehrt statt vermindert. Beseitigt gemessene Refraction, muß irgend ein Handeßglas den Schaden vermehren. Jeder Schwachichtige sollte sich sorgfältig wissenschaftlich untersuchen und Brillen anpassen lassen, ehe er sie in Gebrauch nimmt.

In befondern Fällen werden Gläser auf Bestellung geschliffen, in jedem Falle garantiert.
