The Marlin "Pump" Action REPEATING RIFLE

Without change of mechanism it handles .22 short, long or long-rifle cartridges small game up to 200 yards. The deep Ballard rifling develops maximum power and accuracy and adds years to the life of rifles.

The solid top in protection from defective cartridges—prevents powder and gas from being blown back. The side ejection never lets ejected shells spoil your head and allows quick, accurate repositioning. With simple take-down construction, removable action parts—least parts of any .22—it is the quickest and easiest to clean. Just the gun you want! Ask any gun dealer.

The 12 gauge Marlin catalog will help you decide what rifle best suits your individual desires. Send 3 stamps for it today.

Railroads' Prayer for Freight Rate Increase Partly Granted

DECISION AFTER LONG DELAY

In the territory between Pittsburgh and Buffalo and the Mississippi river and north of the Ohio river, known as the Central Freight association territory, the commission finds that the carriers are entitled to an increase not exceeding 5 per cent on all-class and commodity rates on shipments wholly within that territory, except the rates on coal, coke, iron ore, cement, brick, tile, clay, starch and plaster, as to which the carriers did not sustain their burden of proof.

The commission recommends that the practices of granting free transportation of passengers and private cars should be further restricted by the carriers and calls attention to the fact that the passenger miles represented by trip passes alone would have yielded in passenger revenue \$18,529,000.

The commission suggests that properties acquired by the carriers which are not used for transportation purposes be sold, adding: "It appears that the aggregate cost of such investments was more than \$684,000,000, included in these are properties of the aggregate cost of \$183,146,569, from which no net income whatsoever was received in the year 1913. These investments, through increasing the amount of capital required to be raised, imposed in many cases a great and unnecessary strain upon the carriers' credit, with the result of an increased charge on all new capital secured and preventing improvements which would have yielded transportation economies."

The commission suggests that all existing contracts with sleeping car companies should be carefully reviewed. The decision says further: "The contention of the railroads that their revenues are inadequate is sustained. The operating income of the railroads in official classification territory, taken as a whole, is smaller than is demanded in the interest of both the general public and the railroad.

"The present financial difficulties of the railroads are recognized as a problem not only of the railroads, but of the public, which it is the duty of the commission to help to solve.

"It is our purpose to aid, as far as we legally may, in the solution of the problem as to the course carriers may pursue to meet the situation."

The three great trunk lines, the Pennsylvania, the New York Central and the Baltimore and Ohio, have each a large mileage in Central Freight association territory, so that their revenues will be augmented by rate increases in that territory. Thus, of the New York Central system's 12,699 miles of line, 9,938, or more than two-thirds, are in association territory. Nearly one-half of the Pennsylvania's mileage is also in that territory and more than one-half of the Baltimore

Judging From The Success of The Opening of Our

"Don't Shoot Sale"

T. A. P. The "army worm" has not affected the human family yet.

Making no attempt whatever to be egotistical we announce the business done Saturday, August 1, to be greater by far than we had anticipated. It was a wonderful success, and will continue to grow greater as it goes along because big reductions will be made from day to day on all broken lots, odds and ends, etc. However, don't defer your buying too long as the sizes are liable to be gone when you want them.

WOMAN SLAYER GOES FREE

French Jury Acquits Mme. Caillaux of Murder.

Mrs. Joseph Caillaux, who deliberately murdered Gaston Calmette, editor of the Paris Figaro, because she feared he would publish some of her private letters (it having been clearly shown at the trial that Calmette had no such letters), was adjudged not guilty in the assize court.

Cheer after cheer greeted the prisoner on her release, while sympathizers with the Calmette family, who "booed" the acquitted woman, were saved from mob violence by the extra guard of gendarmes which was on duty.

SOCIALIST KILLED IN PARIS

M. Jaures Was Leader in French Chamber of Deputies.

Jean Leon Jaures, the Socialist leader in the French chamber of deputies, was assassinated in Paris.

M. Jaures was sitting in a cafe when a young man entered and fired several shots at him. Two of the bullets took effect in the head of the Socialist leader and he expired in a few minutes.

The police have withheld details, but it is understood the assassin, who is reported unknown, resented an anti-war statement made by Jaures.

LIFE FOR MRS. WAKEFIELD

Connecticut Woman Found Guilty of Second Degree Murder.

Mrs. Hattie J. Wakefield was found guilty of murder in the second degree by a jury in New Haven, Conn. This degree of murder carries a penalty of life imprisonment.

At her first trial last November a verdict of guilty in the first degree was returned and she was sentenced to be hanged. Errors found by the supreme court, which held that too much evidence had been admitted bearing upon the actual killing of Wakefield by James Plew, obtained her the second trial.
