The bills, as paid, are forwarded to Washington, and partial re-payments have already been made.

The receipts from ordinary sources of revenue for 1861 have decreased, but as payments have been made on some of them since the settlement at the end of the fiscal year, on the 1st of December, and more may reasonably be expected, in addition to the payments to be made by the National Government as hereinafter stated, the balance available in the Treasury will be largely increased. It will also be observed that it has not yet been found necessary to call in all of the loan effected under the act of the 15th of May last. In some items the ordinary revenue of 1861 was in excess of that of 1860. The loan authorized by the act of May 15, 1861, was taken at par. This is lauded as a gratifying circumstance. The operations of the sinking fund to Sept. 1st, 1861, show that the debt redeemed by stock loans, interest, certificates and relief notes to be \$300,80.

The Sunbury and Eric Rail Road, The Sunbury and Erie Railroad next receives attention. Last spring the Sinking Fund Commissioners received from the Philadelphia and Erie, (late Sunbury and Erie) railroad company, forty bonds of \$100. 000 each, and a mortgage. The company has also deposited its bonds to the amount of \$500,000,000. The Governor, on May 9th, anthorized the State Treasurer to deliver to said company one thousand of said bonds Amounting to \$1,000,000, the bonds required by law having been previviously surrendered and cancelled, and satisfaction entered. By act of April, 1858, for sale of State canals to said company, it was provided that if said company should sell said canals for a greater sum, in the aggregate, than \$3,500,000, seventy-five per m of such excess should be paid to the Commonwealth by a transfer of so much of such bonds and securities as said company should receive was \$281,250, of which \$250 has been Canal Company, bearing six per ceut. interest, secured by mortgage, given July last has not been paid, and judgments have deen obtained against the

Biddle and Seneca G. Simmons, and two companies of artillery, under the command of Colonel Charles T. Campbell, at the pressing instance of the War Department, were sent, on the 22d of June last, to the relief of Col. Western Virginia, engaged in active operations. Towards the close of July the whole corps was called for under requisition, and taken into the service of the United States. Within four days after the disaster at Bull's Run, eleven regiments of this fine body of men (armed, drilled, clothed, equipped, and in all respects ready for active service) were in Washington. The regiments and companies from Western Virginia and the remaining two regiments, making the whole number of fifteen, soon joined them there, and they are all now in service under the ccommand of Gen.
