Subscribers in the West.

We have a large number of subscribers in the West to whom we sent accounts several months ago, and who have, as yet, given them no attention.

Hon. Jesse Lazar, P. Donley, Esq., Geo. V. Lawrence, and James Stockdale of the Maryland House of Delegates, have our thanks for important favors.

ENGLISH PRINCIPLES AND POLICY.

Recent foreign advices go to confirm the apprehensions, gravely entertained for some months, of British interference in the struggle now waging by the American people for the preservation of their unity and nationality.

The measure was clearly unconstitutional, and the plea of necessity was the only one urged for its adoption. While we would be sincerely gratified to see the public credit maintained and ample means afforded for the vigorous prosecution of the war, we cannot but deprecate such a palpable infraction of the Constitution as this measure involves.

We are glad to see that our Representatives, Gen. LAZAR, has put himself right on the record by voting against the project. It has not yet come before the Senate, and may be defeated.

RECORD YOUR DEEDS.

Persons holding Deeds should have them recorded, if they want to retain an indisputable title to their property. Disputes without number, and expensive and tedious law-suits in many instances, grow out of not having conveyances recorded.

In establishing and extending her Eastern empire, in forcing opium upon China, and in a hundred ways and on as many occasions, the moral sense of Christendom has been shocked by the tyranny and absorbing selfishness of the British nation.

AN OLD HORSE.

"A horse died a few days ago, on Nathaniel Brownfield's farm, near Uniontown, which was forty years old. He was purchased out of one of the 'Line teams' by Mr. Brownfield in 1832, for a ten year old horse, and has been extraordinarily useful until the last two or three years when he was permitted to take times easy."

How Government contractors overlooked the venerable animal above-mentioned is matter of surprise to us. Perhaps the Democratic politics of his owner kept him out of the "service."

One of our old friends and subscribers writes us as follows from Peoria, Illinois: "GENTLEMEN:—Enclosed you find \$5, please place to my credit. Although I have been living out of my old native county nearly fourteen years, the local news in the columns of the Messenger affords me great pleasure. Besides, I find you sound on the political issues of this country or it is none."

Impossibilities, like vicious dogs, fly before him who is not afraid.

GLORIOUS NEWS!

The news from the Burnside Expedition and from the South-west, this week, is truly encouraging to the friends of the Union. A few more such blows to the Rebellion will hopelessly cripple it, or we are neither a judge or a prophet.

AUDITOR GENERAL.

Col. ALEXANDER, of the "Clarion Democrat" responds to our suggestion of Mr. PAULEY for the Auditor Generalship in the following decided and cordial terms:—

WM. T. H. PAULEY.

We most cheerfully subscribe to the move made by the Waynesburg Messenger, in favor of Wm. T. H. Pauley, Esq., for Auditor General.—It is due to the county of Greene that her claims be respected. In the person of Mr. Pauley, we have a gentleman in all respects qualified for the position. Western Pennsylvania has the right to a choice and no county in the State is better entitled to the man than Greene. If Democratic little Clarion is led by any in a political point of view it is by Greene alone. Her valiant Democracy never falters, never gives heed to isms or factions, but on all occasions rolls up a majority that strikes terror to the hearts of the enemy.—Give us friend Pauley as nominee with another as popular for Surveyor General, and the tried and true Democracy of the State, now united, will march onward to victory that will insure the Old Keystone true to her former standing as the most reliable among the Democratic States of the Union.

The following article from that staunch organ of the party the Waynesburg Messenger, speaks in praise of Mr. P., as his merits deserve.

[Here follows our editorial on the subject.]

CONSUMPTION—ITS CURABILITY.

The curability of Pulmonary Consumption is no longer disputed. In its earliest stages it is by no means unmanageable, and frequently yields readily to appropriate and energetic remedial agents. It is true there is no specific against it, but there are "systems of treatment to be followed in order to conquer the pathological states which constitute the disorder." Phthisis, thus treated, is often cured, and oftener still life has been greatly prolonged, and suffering mitigated. Among the eminent physicians who have made Pulmonary affections their speciality, and who treat them with eminent success, Dr. J. H. SCHENK, of Philadelphia, ranks with the very best and ablest. Himself for many years a Consumptive, and given up to die by his physicians, his attention was directed to the powerful therapeutical agents he now employs in its treatment, and under their operation he entirely and permanently recovered his health, and when we last met him was as vigorous and healthful in fact and appearance as the most robust farmer of our acquaintance. Though his complaint was hereditary, and his father, mother, brother and sister all fell victims to Consumption, the Doctor survives them, and illustrates in his person the curability of the disease and the marvelous efficacy of his own remedies. A regularly educated physician, and a courteous and high-toned gentleman, he is not to be classed with the miserable empirics who undertake the cure of formidable diseases without understanding their pathology or treatment, and who kill much oftener than they cure. The Doctor is perfectly candid, and excites no hopes he is not confident the invalid may properly indulge in an early and complete recovery. Our personal knowledge of his professional character and of his treatment of Bronchial and Pulmonary Affections, leads us to recommend Dr. SCHENK to Consumptive patients as among the most successful Lung physicians in the United States, and as a gentleman entitled to their respect and confidence. The Doctor can be consulted by letter and in person at his office No. 39, North Sixth street, Philadelphia: or on the first Monday and Tuesday of each month at the Drug Store of Dr. Geo. H. Keyser, No. 140 Wood Street, Pittsburgh. He also frequently visits patients in distant localities who are too ill and feeble to travel.

THE COUNTY TREASURER.

Mr. RANDOLPH informs parties interested, through an advertisement in another column, that he will be at his office in Waynesburg on the 1st and 3d Mondays and Tuesdays of each month to attend to his official duties. This will be a great convenience to persons having business with the Treasurer.

"LEGISLATIVE CORRUPTION."

"We have a very sensible article on the above subject, from one of our correspondents, which we are compelled to defer till next week. It will lose none of its interest by the postponement.

Friday last was Valentine's Day.—Some Abolition donkey sent us his portrait. His ears are of the usual length, and the likeness throughout is no doubt a capital one. If the fellow calls as badly of "Sambo" as most of the nigger-loving genus do now-a-days, we would not care much about having him pass between us and the wind.

The Albany Argus truly remarks that "the treason of Abolitionism is daily becoming more and more rampant, as President Lincoln shows a disposition to prosecute this war on the platform of the Constitution. The issue is becoming daily more clearly defined between the President and the friends of the Constitution, on the one side, and those who desire to revolutionize the government of our fathers, on the other. Let Democrats and conservative men stand by the President, so long and so far as he stands upon the Constitution."

THE KICKERBOCKER FOR 1862.

IN THE beginning of the last year, when its proprietors assumed control of the Kickerbocker, they were fully aware that it was not only a pleasure to place it in its true position as the leading literary and scientific journal in America, but that it was a duty to the Republic, and to the cause of truth and justice, to give it a new lease of life, and to make it a more useful and valuable medium for the dissemination of knowledge and the promotion of the public good.

The proprietors have endeavored to do this, and they have succeeded in making it a more useful and valuable medium for the dissemination of knowledge and the promotion of the public good. They have done this by publishing articles of interest to the public, and by giving it a more liberal support than it has hitherto received.
