Lie Leve la the firmers should turn their attention to the raining of horses and mules in the anticipation of the large demand which will surely come, and at paying prices too. Here is what the Secretary of the Vermont State Agricultural Society says on the subject in his annual report:

"The number of horses in Vermont before the breaking out of the rebellion, was about 55,000, since which, nearly 10,-000 have been carried from the State for army purposes. This immense levy for horses has been made throughout the whole country. When it is considered that comparatively few of these horses will and their way back; that the number which will die of disease or become unfit for service is twenty times as great as it would be were they used for any other kind of business; that to meet this great want of the Government a large proportion of the business horses of our large cities, which have been thrown out of the service by general prostration, have been bought up; it readily appears that even during the war, horses must advance in price; and at its close, when business shall revive and trade resume its former channels, the demand for good horses must excel the supply. Reasoning from these premises, no more profitable labor can be engaged in than the production of good business

A Cure for Cancers.

Our attention has recently been called to a cure for cancers, which is of such importance, that we wish to make it known as widely as possible. Some eight months ago Mr. T. B. Mason, who keeps a music store on Wisconsin street, and is a brother to the well known Lowell Mason-ascertained that he had a cancer on his face the size of a pea. It was cut out by Dr. Wolcott, and the wound partially healed. Subsequently it grew again, and while he was in Cincinnati on business it attained the size of a hickory nut. After remaining there several weeks under treatment, he has come back perfectly cured. The prodess was this:

A piece of sticking plaster was put over the cancer, with a circular cut out of the center a little larger than the cancer, and a small circular rim of healthy skin next was exposed. Then a plaster made of chloride of zinc, blood root and wheat flour was spread on a piece of muslin of the size of the circular opening, and applied to the cancer for twenty-four hours. On removing it, the cancer will be found to have been burnt into and appear the color and hardness of an old shoe sole, and the circular rim outside of it will appear white and parboiled, as if scalded by hot steam. The wound is now dressed and the outside rim soon separates and the cancer comes out a hard lump, and the place heals up. The plaster heals the cancer so that it sloughs out like dead flesh, and never grows again. This remedy was discovered by Dr. Fell, of London, and has been used by him for six or seven years with unfailing success, and not a case has been shown of the re-appearance of the cancer where this remedy has been applied. It has the sanction of the emipenal playsicians and surgeons in London but has not until recently been used in this country, and many of the faculty, with their proverbial opposition to innovation, look upon it with distrust.—Mil. Free the survey of Lordon as the property of S. B. Lucas, William Lucas, Zebulon Cooper, G. W. Knisely, anias George W. Knisely and Peter Brown, at the suit of Dr. A. Inghram.

Infalliable Cure for Dysentery. Dr. Page; of Washington, commumicates to the Republican of that city, the following simple remedy, long known in family practice, and which was recently tried in the camp of the New York Twenty second regiment, were there were from eighty-one fundred cases daily, and with rapid eres in every case:

Recipe.—In a teacupfull of vinegar disolve as much salt as it will take p, leaving a little excess of salt at the bottom of the cup. Pour boiling water upon the solution till the cup 🀞 two-thirds or three-quarters full. A scum will rise to the surface, which must be removed and the solutions

all haved to cool. Dose.—A tablespoonful three times a day till relieved. A rationale of the operation of this

simple medicine will readily occur to the pathologist, and in many hundred trials I have never known it to fail in cases of dysentary and protracted diarrhoa.

Questionable Food for Ministers.

A good Methodist minister, who lived on a very small salary, was greatly troubled at one time to get his quarterly instalment. He had called a number o times, but had each time been put off with some excuse. At length he went to the stewart and told him he must have his money, for his family were suffering for the neccessaries of life. "Money!" replied the stewart, "you preach for money! I thought you preached for the good of Youls!" "Souls!" replied the minister, "I cant't eat souls, and if I could, it would take a thousand such as yours to make a decent meal."

Father and Daughter. There is no prettier picture in life T ETTERS TESTAMENTARY having been granted than that of a daughter reading to her aged father. The old man, while listening to her silvery notes, goes back to other times when another on at by his side; and whispered words he will never hear again; nor do wish to do so; for in the soft evening light he sees her image re-flected in her child, and as one by one gentle emotions steal over him he veils his race, and the daughter, thinking him asleep, goes noiselessly in search to their employment. Victoring over cares and little wants of old age is a spectacle fit for angels. It is one of the links balance earth and heaven, and takes from the face of the hard, and seemed world make of its harshests features. For the seements of its harshests

Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my upper lip, which soon became enlarged and sore. I used poultices of sorret, and a wash of blue vitriol, without effect.— Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it CANCER, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Davidsville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustic; but all to no purpose, as the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflamation seon inferenced. I called upon Dr. Statler, of St. Chairsville, Bedford county, who also pronounced the disease Cancer, and applied a salve stid to be a never failing remedly, but it had no effect whatever in checking the spread of the sore. In December in the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati Medical College. He pronounced the disease "a cutaneous Cancer, superinduced by an inordinate use of mercury." He applied mid zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the usin that I could not rest at night. Late in May I GOOD WAREHOUSES, on the bank of the river, convenient for boats to land, for storing all kinds of produce, for shipment to Pittsburgh, or the Eastern cities, on the most reasonable terms.

A BAD SORE LEG CURED.—Pittsburgh, September 15, 1861—I hereby certify that I have had a sore beg for over a year. It was covered with ulcers and sores so that I could not work for nearly a year. My leg swelled so that I was unable to do anything for a long time, for at least six months. I tried several of the best doctors in the city, but without any benefit; finally I called on Dr. Keyser, at No. 140 Wood street, who only attended me about two weeks, and gave me bu two bottles of medicine, and I am entirely well, and have continued well for six months. I am employed at the Eagle Engine House on Fourth street, where any one can see me.

Thomas FareEll.

READ THIS CURE.—I was afflicted with a horrid di sease in my feet and ankles, so much so that for six weeks I was confined to my bed, and at other times to my chair, where I was compelled to sit for weeks. I was in the care of both our eniment physicians for a long time, but they could do nothing to effect a cure or ease my pain. My feet and legs became very much swollen, and having heard of your Blood Searcher (although I had very little faith in in), I was induced by Messrs. Alexander & Son, agents at this place, to try it. I had not used one bottle before I began to find immediate relief. I tried another, and am now able to walk about without crutches. I have tried other patent medicines, but received no benefit. I take pleasure in recommending your Blood Searcher above all others, to those who may be afflicted as I Lave been.

CIANCER CURED.—A letter from England, Mr. JOHN POPE, of Blaenovon, near Pontypool, Monmouthshire, England, writes as follows: BLAENOVON, Aug, 1861.

BLAENOVON, Aug, 1861.

SIR:—An old woman in this place has wished me to write you respecting LINDSEY'S BLOOD SEARCHER, from which she found great benefit and wishes to have a little more. She has been suffering from a disease of a cutaneous nature for the last six or seven years. Her daughter, who is living in America, obtained it for her, and sent her eighteen bottles. She is now quite out of it, and I have written to her daughter twice and have received no answer; of course she is anxious to get more, to get completely cured. I told her I would write to you for the agency in this country, and she felt very much pleased to hear me say so. I now beg to ask you on what tenns you will supply me; you will please bear in mind the carriage, and supply me as cheap as possible. The carriage on the one dozen bottles was £1 36 dd. The medicine was a present from her daughter. I would like to have the Blood Searcher in a jar or small cask, if you can send it in that way, or in pint or quart bottles. I will send a bill through bank or registered letter, which ever will be most convenient to you, if you will send me carrier's receipt of the parcel as security. I would send you a stamp to answer this, but as its uncertain of this reaching you. the parcel as security. I would send you a stamp to answer this, but as it is uncertain of this reaching you, on account of the country being in sizes and sevens, a term which is commonly used, you will be kind enough and charge me with the postage. Yours, respectfully. [Signed.]
