## THION SOLDIERS, SONG.

TUNE-"John Brown."

Tell Abe Lincoln that he'd better end the war, Tell Abe Encoln what we'd terme was here

Tell Abe Lincoln 'twas the Union to restore, As we go marching on. - CHORUS.

Tell Abe Lincoln to send our Hero back, Tell Abe Lincoln that we mean our Little Mac Tell Abe Lincoln to put him on the track, As We, &c.—Chorus.

Tell Abe Lincoln to let the nigger be, Tell Abe Micoln that we don't want him free, Tell Abe Lincoln that to this he did force: As we, &c.-Chorus.

Tell Abe Lincoln the Constitution is our guide, Tell Abe Lincoln by the laws he must abide, Tell Abe Lincoln to let his Proclamation slide As we, &c.—Chonds

Tell Abe Lincoln and his woolly-headed crew. Well Abe Lincoln his suspension writ won't do, Tell Miscoln we're going to put him through,

As we, &c .-- CHORUS.

Tell Abe Lincoln on Antietam's bloody dell, Tell Abe Lincoln where a thousand heroes fell, Tell the Abolitionists all to go to grass, As we go marching home. - CHORUS.

#### VIGOROUS PROSECUTION OF THE WAR.

The Abolition comment on the common sentiment amongst them is, to adopt meaenrer to divide a united North and make a divided South. They pretend to be great friends of the soldiers, and their policy is to multiply their enemies and inspire them with the energy of despair. They want to impose on the soldier in the field not the easier task of putting down armed combinations of treason, but to crush out States and populations. This is their friendship. They stay at home themselves, augment the rebellion, and throw upon him a task he didn't volunteer to accomplish, an yet claim to be the soldier's friend. We have some very near to us in the

Union army, and we think this treatment of them treacherous and cruel.

#### THE POPE DYING Extract from a letter to the London Times, dated Turin, March 16th:

"I have received from Rome some information which, considering that it comes from a brother of a prelate at that Court, I think may be regarded as reliable. The career of the Pope is fast drawing to a close The old man is fading day by day. · His own phrase is that his weeks are numbered. He declines most of the remedies which the physicians propose. A sad smile is always on his lips. He re mains for whole hours without speaking 'a word, plunged in a profound reverie. He eats and drinks very little. There has been a consultation of physicians from Paris, sent by the Nuncio, according to some -by the Ampress, according to others.But they mere pent to little purpose. 'The lamp wants oil,' said the Pope himself, but the oil of life is sanly given by God. When it pleases Him to extinguish my lamp, elican creaty. The Popers quite tranquil, and avoids as much as possible discussing any political question."

The World's Cemetery. There is but one cemetery in this wide world of ours where the rich and the poor meet together on an equality—as far as marks of distinction are concerned-and that is the ocean. In all other resting places for dead yen an advost inva-riably tell at a single glance who was the rich man and who the poor man while living. That one distinctive feature of the human race has been carried into the sacred city of the dead; hyd even into the grave itself. But not so with the ocean cemetery. There the waves have washed away all marks of distinction, and the rich and the poor are received and held in like estimation. The same snowy-crest column of tempest-tossed wave rears its head as a monument slike for both; the same sheeted wave shrouds them both, and the howling storms chant alike for

OUR LATEST IMPROVEMENT: PRINCE & CO.'S GRADUATED SWELL Patented September 17th, 1861.

Patented September 17th, 1861.

This is an entire new idea, and its want has been noticed by all acquained with Reed Instruments. The old Swell could new be made to operate gradually: the instant the pedal was touched for opening it the change would be instantaneous and abruyt.

Our NEW SWELL is constructed on scientilio principles, and we are satisfied, by our unsiring study and experiments, that it is the only one by which the tense of Read Instruments may be graduated from a mere whisper to the full power of the instrument, and vice versa. The volume of tone is also very much increased by this swell, and is now all this we could desire.

This, in connection with our DIVIDED SWELL [which we patented in 1863] will be added to all the Melodeous which we manufacture in the future, and without actra charge.

One other feature in our Melodeous is the IMPROVED VALVE OR PALLET, being a combination of cloth and leather, prepared expressly for the purpose. This valve we have used for the pest three years, and we find it to be the very thing that has been so long needed as a substitute for the India Rubber Valve, which has been in use ever since Melodeous have been manufactured, and which has eaused so much trouble by the dissolwing and sticking of the India Rubber. All of our instruments are now finished with this improved walve, and we can recommend them with confidence.

Persons unsequalated with the Melodeius and its history, will bear in mind that we are the pioneers and leading assunfacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeius in the fall of the year 1847, and since that time have finished and sold.

TWEMTY SEVEN THOUSAND

TWENTY SEVEN THOUSAND!

These instruments are now in use mostly in the United States and Osmada, but also in Europe, Asia, Airies, South America, and the West Indies, and from all these quarters we have the most dattering sestimonials of the high estimation in which they are held. At all in-ginetrial Exhibitions they have invariably been AWARDED THE HIGHESTAPREMIUM !

whenever exhibited in competition with others. We shall take pleasure in forwarding by mail lat our own expense) our Illustrated Catalogue, in which every instrument we manufacture is fully described and illustrated by segant engravings.

If All Melodeous of our manufacture, either sold by us of dadlers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repetits be necessary before the expiration of five years from the date of sale, we hold ourselves ready and willing to make the same free of charge provided the injury lastic caused by accident or design.

HOW OUR MANUFACTORY IS CONDUCTED.

As we are the pioneers and leading manufacturers of Melodeons in the world, we have, of course, the sdvantage of securing the services of the best mechanics in the business, and very many of our world have been with us since we commenced the manufacture of Melodeons has we are dependent of the seventage of security of our working of the best reschence in the business, and very many of our working that best reschence in the business, and very many of our working have been with us since we commenced the manufacture of Melodesons & We employ none but the most thorough mechanics, and have never had an apprentice in the establishment.

Dur work is divided into thirty-uine different branches; each working has his own part to perform, and is never allowed to change from man has his own part to perform, and is never allowed to change from the ment in the another. man has his own part to perform, and is never anowar to change.

The different parts are seperately impected, and passed from one to another.

The different parts are seperately impected, and passed from one to another to add to other parts, until the Melodeon is complete.

The delivering of materials and impection of work is attended by.

The delivering of materials and impected of work is attended by its foreman and impected of suning; sorth, a foreman in the vanishing department; sifth, a superintendent of the reed department.

The duties of the foreman are one-rons, it being his duty to select in give out stock, to exactfully watch the making of the different parts, keep the departments evenly belanced, and in fact, to have an eye to everything, and keep everything straight.

We have mentified the others to show that the utmost care is taken in every department.

in every department.

Our REED DEPARTMENT—Much of the good quality of the Melodeon depends on having perfect Reeds. It is necessary to have the
most perfect machinery to cut, burr, stamp, plane, &c., &s., as well
as to use the utmont gare in selecting metals, and using proper-paper
tions for the composition of reed metal.
The superintendent of this department has been with us since "we
commencement of this business, and, being a practical workman, has
originated, improved and perfected all the machinery for maining our
packs, and there are no duplicates in any other manufactory.

From the fact that our reeds are celabrasid for their uniformity,
weamness and sweetness of tone, we very often receive orders for them
or saliciations from manufacturers to supply them with what they acquite; but all we never sell any part of our Instrument separate, we
always decline to fill such orders.
In case the owners of our bleddoons should at any time he so unfortuncte as to benk a reed, they can, by informing as which it is, reedite by return and a new one preparing track and result in put infree of charge.

Agents for the sale of our Melodeous can be found in all the principal towns of the United States and Canada.

defend the Constitution of the United States, and that of this Commonwealth. It will freely and fairly discuss all legitimate subjects of newspaper comment, including, of course, and preminently at this time, all questions connected with the existing ushappy condition of our country. It will fearlessly criticise the public acts of public servants, and defend the legal and constitutional rights of individual citizens and sovereign states, against assaults from any quarter.

It will seek to awaken the minds of the people to a proper sense of the actual condition of the Republication present to them, truthfully, the fearful perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patriotic determination to apply the remedy for our national ills. Those wishing anything done in our line would do well to call soon, as the arrangement is but for a thort

11AAS & WillTE,

April 8, 1863. Near Sayers' Corner. In brief, it will, in all things, aim to be the faithful exponent of Democratic principles, and to render it-self worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and so well. The restoration of that party—the party and so wen. The restriction of that party—the party
of the Constitution and the Union—to power in the
legislative and executive governmental branches of
the States and of the Union, we believe to be necessary to avert sararchy, and the utter ruin of the Republic. To contribute to that restoration will be our highest aim.
The News, Literary, Commercial, and other depart

ments, will receive one attention, and will be so con-ducted as to make "The Age" worthy of the suppor ducted as to make "The Age" worthy of the support of the general reader.

— The many difficulties now surrounding an enterprise of the magnitude of that in which the undersigned are engaged, require them to appeal to the public for a generous support, and to ask for "The Age" a liberal patronage and extended circulation.

The present state of, the preparatory arrangements warrant the expectation, that the first number of the Daily will appear before the close of the present month (February, 1863.)
