I'm growing old! My growing talk of olden times, My growing thirst for early news; My growing apathy for rhymes. My growing love for easy shoes. My growing hate of crowds and noise. My growing fear of talking cold, And tell me in the plainest voice-I'm growing old !

I'm growing fonder of my staff, I'm growing dimmer in the eyes, I'm growing fainter in my laugh, I'm growing deeper in my sighs; I'm growing careless of my dress; I'm growing frugal of my gold, I'm growing, I'm growing-yes-I'm growing old! "

I feel it in my changing taste, I see it in my changing hair, I see it in my growing waist, I see it in my growing hair. A thousand hints proclaim the truth, That even in my vaunted youth, "Fin growing old !

Ah me, my very laurels breathe The tale in my reluctant ears; And every boon the hours bequeath But makes me debtor to the years: E'en flattery's honeyed words declare The secret she would fain withhold. And tells me in "How young are you!" I'm growing old!

Thanks for the years whose rapid flight My sombre muse too sadly sings; Thanks for the gleans of golden light That tints the darkness of her wings, The light that beams from out the sky, Those Heavenly mansions to unfold; Where all are blest, and none may sigh,

PACTS FOR VEGETARIANS.

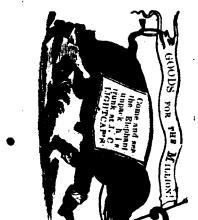

"I'm growing old !".

It is a fact worthy of remark, and one that seems never to have been noticed, that throughout the whole animal creation, in every country and clime of the earth, the most useful animals that eat vegetable food work. The all-powerful elephant, and the patient, untiring camel, in the torrid sone; the horse, the ox or the donkey, in the temperate; and the reindeer in the frigid zone, obtain all their muscular power from nature's simplest productions—the vegetable kingdom. But all the flesh-eating animals keep the rest of the animated creation in constant dread of them. They seldom eat vegetable food until some other animal has eaten it first, and made it Into flesh. Their own flesh is unfit for other animals to eat, having been itself made out of flesh, and is most foul and offensive. Great strength, fleethess of foot, usefulness, cleanliness, and docflity are, then are always characteristic of vegetable eaters.

Benefits of Dissection. Speaking of the inestimable bene-

fits surgery has derived from anatomy, Macuulay, the historian, said :-The horse of Leopold, Duke of Austria (who imprisoned our Richard Cœur-de-Lion,) fell under him and crushed his log. The surgeons said the limb must be amputated, but none of them knew how to amputate it. Leopold, in his agony, laid a hatchet on his thigh, and ordered his servant to strike with a mallet. The leg was cut off, and he died of the gush of blood. Why, there is now no bricklayer who falls from a scaffold in England, who cannot obtain surgical assistance infinitely superior to that which the sovereign of Austria could command in the tw. Ifth century!"

OUR LATEST IMPROVEMENT: PRINCE & CO.'S GRADUATED SWELL Patented September 17th, 1861.

Patented September 17th, 1861.

This is an entire new idea, and its want has been noticed by all-acquainted with Reed Instruments. The old Swell could leave be made to operate gradually; the instant the pedal was touched for opering it the changes would be instantaneous and aburpt.

So Our NEW SWELL is constructed on scientific principles, and we are satisfied, by our unstring study and experiments, that it is the only one by which the tone of Reed Instruments may be graduated from a mere whisper to the full power of the instrument, and vice verus. The volume of tone is also very much increased by this swell, and is now all that we could desire.

This, in connection with our DIVIDED SWELL [which we patented in 1836, will be added to all the Melodeous which we manufacture in the future, and without extra charge.

One other feature in our Melodeous is the IMPROVED VALVE OR FALLET, being a combination of cloth and leather, prepared expressly for the purpose. This valve we have used for the past three years, and we find it to be the very thing that has been so long needed as a substitute for the India Rubber. All of our instruments are now finished with the Suproved yalve, and we can recommend them with confidence.

Persons unacquainted with the Melodeous and its history, will bear in mind that we are the ploneers and leading manufacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeous in the full of the year 1847, and since that time laws finished and sold **

TWENTY SEVEN THOUSAND ! These intruments are now in use mostly in the United States and Canada, but also in Europe, Asia, Africa, Routh America, and the West Indies, and from all these quarters we have the most fistering sestimonials of the high estimation in which they are held. At all limits at the state of the high set invariantly been

AWARDED)THE HIGHEST PREMIUM I whenever exhibited in competition with others. We shall take pleasure in forwarding by mail at our own expense) our libustrated Catalogue, in which every instrument we manufacture is fully described and illustrated by elegant engravings.

** All Melodeous of our manufacture, either sold by me of dealers is any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of five years from the date of sale, we hold ourselves ready and willing to make the same free of charge provided the injury is not expused by accident or design.

HOW OUR MANUFACTORY IS CONDUCTED As we are the pioneers and leading manufacturers of Melodec the world, we have, of course, the advantage of securing the set of the best mechanics in the business, and very many of our world have been with us since we commenced the manufacture of Melodecast the world, we have, of course, his section of the best mechanics in the business, and very many of our workings of the best mechanics in the business, and very many of our workings have been with us since we commenced the manufacture of Melodeons. We employ none but the most thorough mechanics, and have never had an apprentice in the establishment.

B Our work is divided into thirty-mine different branches; each workman has his own part to perform; and is never allowed to change from the branch to another.

The different parts are reperately inspected, and passed from one to another; or add to other nears, well the Melodeon is committed. such ranch to another.

WILLIAM II. WELSH.

THE AGE will advocate the principles and policy of the Democratic party, and will, therefore, necessarily favor the restoration of the Uniou as it was, and defend the Constitution of the Uniou as it was, and defend the Constitution of the United States, and that of this Commonwealth.

It will freely and fairly discuss all legitimate subjects of newspaper comment, including, of course, and preminently at this time, all questions connected with the existing unhappy condition of our country.

It will fearlessly criticise the public acts of public servants, and defend the legal and constitutional rights of individual citizens and sovereign states, against assaults from any quarter.

It will seek to awaken the minds of the people to a proper sense of the actual condition of the Republication of the servants, and the stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patriotic determination to apply the remedy for our national ills.

In brief, it will, in all things, aim to be the faithful WILLIAM A. STEINWAY & SONS' PREMITY PLAKES.

WARRANTED FOR FIVE YEARS.

W E would respectfully direct the attention of citizens of Waynesburg and vicinity to the vast and universally admitted superiority of the Pianos made by STEINWAY & SONS, New York.

The tone of these instruments more nearly resembles the "human voice" in the prolonged and singing qualities of their sound; and they combine in a wonderful degree POWER and SWERTNESS. Both for briliant instrumental performance, and as a recompanion. liant instrumental performance, and as an accompani-ment to vocal music, they are altogether unrivalled. We Challenge Comparison, and we War-

Overstung, Improved Full Iron Frame, Felt Covered Hammers, &c.

Thalbero, one of the most eminent pianists in the world, says: "I have great pleasure in certifying that I have tried your Pianos, and find them equal, if not superior, to any in this country. Among their great qualities, which distinguish them, is the evenness of tone, the agreeable and easy touch, and volume of tone. Wishing you all the success you so highly deserve, I am, sir, yours truly.

with increased confidence of its merits as the best and most useful Family Sewing Machine now in use. It does equally well on the thickest and thinnest fabrics, makes the lockstich impossible to unravel, with the control advantage of being alike on both sides, forming no ridge or chain on the under eide—is simple in construction more speedy in movement, and more durable than any other machine.

We give full instructions to enable the purchaser to sew ordinary seams, stitch, hem, fell, quilt, gather, bind and tuck, all on the same machine, and warrant it for three years.
