BY D. M. D. Here the blinding mists have gathered, Holding hyman minds apar:, There is 'll meet my cherished darling, Face to face and heart to he :rt ;-In the peerless light of heaven, Face to face and heart to heart.

Dreamings dark may here deceive us. Here our hearts we cannot know; Soon we'll leave these scenes of durkness, Undecsived where we shall go-To the peerless light of heaven, Undecrived where we shall go.

True, deception may deceive us, Hearts now trusted may be wrong, But we're going to that Being-Who will do us never wrong, In the peerless light of heaven

Who will do us nothing wrong. We may bear and we may suffer From the cruel gossip's tongue, Envy hath, in ages always, All her poison darts wide flung; But the peerless light of heaven Antidotes the darts she's flung. Pittsburgh, Pa.

WELL PUNISHED.

Dr. Abel, in one of his lectures, related a very striking anecdote of a Nowfoundland dog in Cork. This dog was of a nobie, generous disposition; and when he left his master's house was often assailed by a number of little noisy dogs in the street. He usually passed them in apparent unconcern, as if they were beneath his notice. But one little cur was particularly troublesome; and at length carried his petulance so far as to bite the Newfoundland dog in the back of the foot. Thic proved to be a step in wanton abuse and insult beyond what was to be patiently endured, and he instantly turned round, ran after the offender, and seized him by the skin of his back. In this way he carried him in his mouth to the quay, and holding him sometime over the water, at length dropped him into it. He did not seem, howevel, todesign that the culprit should be punished capitally, and he waited a little while, till the poor animal, who was ninsed to that element, was not only well ducked, but near sinking, when he plunged in and brought him out safe to land.

RELIEF OF NEURALGIA.

As this dreadful disease is becoming more prevalent than formerly, and as the doctors have not discovered any method or medicine that will permanently cure it, we simply state that for some time past a member of our family has suffered most intensely from it, and could find no relief from any remedy applied, until was naw an article which recommended the application of bruised horse-radish to the face for toothche. As neuralgia and tooth-ache are both nervous diseases, we thought the remedy for the one would be likely to cure the other, so we made the application of horseradish, bruised and applied to the side of the body where the disease was seated; it gave a most instant relief to the severe attack of neuralgia. Since then we have applied it several times, and with the same gratifying results. The remedy is simple, chean and may be had within the cheap, and may be had reach of every one. - Laurensnille | JAMES BELLAK. Herald.

PRINCE & CO.'S GRADUATED SWELL Patented September 17th, 1861.

Patented September 17th, 1861.

This is an entire new idea, and its want has been noticed by all acquainted with Reed instruments. The old Swell could never be made to operate gradually: the instantaneous and about to operate gradually: the instantaneous and about.

Our NEW SWELL is constructed on schemific principles, and we are satisfied, by our undiring study and experiments, that it is the only one by which the tone of Reed Instruments may be graduated from a mere whisper to the full power of the instrument, and vice versa. The volume of tone is also very much increased by this swell, and is now all that we could desire.

This, in connection with our DIVIDED SWELL [which we patented in 1855,] will be added to all the Melodeous which we manufacture in the future, and without extra charge.

One other feature in our Melodeous is the IMPROVED VALVE OR PALLET, being a combination of cloth and leather, prepared expressly for the purpose. This valve we have used for the past three years, and we find it to be the very thing that has been so long peeded as a substitute for the India Rubber Valve, which has seen in the second of the past three years, and we find it to be the very thing that has been so long peeded an as unbettime for the India Rubber Valve, which has seen the substitute of the dissolving and sticking of the India Rubber. All of our instruments are now fluished with this improved valve, and we can recommend them with confidence.

Pernous unacquainted with the Melodeou and its history, will bear in mind that we are the ploneers and leading manufacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeous in the fall of the year 1847, and since that time have finished and sold

TWENTY SEVEN THOUSAND! Those instruments are now in use mostly in the United States and Canada, but also in Europe, Asia, Africa, South America, and the West Indies, and from all these quasars we have the most flattering testimonials of the high estimation in which they are beld. At all Inguistrals Exhibitions they have invariably been

AWARDED THE HIGHEST PREMIUM!

whenever exhibited in competition with others. We shall take pleasure in forwarding by mail at our own expense our libustrated Cut-shouse, in which every instrument we maintacture is fully described and illustrated by elegant engravings.

All Melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of five years from the date of sake, we hold ourselves ready and willing to make the same free of charge provided the injury is not caused by accident or design.

· HOW OUR MANUFACTORY IS CONDUCTED.

HOW OUR MANUFACTORY IS CONDUCTED.

As we are the pioneers and leading manufacturers of McIodeons in the world, we have, of course, the advantage of securing the service of the best mechanics in the business, and very many of our worl me have been with us since we commenced the manufacture of McIodeons. We employ none but the most thorough mechanics, and have never had an apprentation in the establishment.

Our work is divided into thirty-nine different branches; each workman has his own part to perform, and is never allowed to change firsu one branch to another.

The different parts are apperately inspected, and passed from one to another to add to other parts, until the McIodeon is complete.

The different port parts, until the McIodeon is complete.

The different port parts, until the model on the intended by, first, the general foreman; eccoud, a foreman of machine; third a foreman and inspector of tuning; fronth, a foreman in the variables departments (iffith, a superintendent of the great departments.

The duties of the foreman are our-ons, it being his duty to acket the properties of the foreman and the part of the different parts, keep the departments every balanced, and, in fact, to have an eye to everything, and keep overything straight.

Ve have mentioned the others to show that the utmost care is taken in every department.

Our REED DEPARTMENT—Then of the good quelity of the Melodeon depends on having perfect fixeds. It is necessary to have the
most perfect machinary to cut, burn stamp; plane, &c.,..., as well as to use the utmost care of the chetting metals, and using proper respontions for the composition of reced met; has been with us since.

The superatment of this department has been with us since commencement of this business, and, being a practical workman, has
out mated, improved and perfected all the machinery for making our
rowls, and there are no duplicates in any other manufactory.

From the fact that our rocks are celebrated for their uniformity,
evenues and swecthess of fore, we very often receive oftens for them,
or solicitations from magnificturers to rapply them with what they regular; but as we never sell any part of our landsumment separate, we

"THE AGE."

A National Democratic Newspaper to be Published Daily and Weekly in the City of Philadelphia, Penna., BY A. J. GLOSSBRENNER, & CO., A. J. GLOSSBRENNER, FRANCIS J. GRUND. WILLIAM II. WELSH.

THE AGE will advocate the principles and policy of the Democratic party, and will, therefore, neces-sarily favor the restoration of the Union as it was, and defend the Constitution of the United States, and that defend the Constitution of the United States, and that of this Commonwealth.

It will freely and frirly discuss all legitimate subjects of newspaper comment, including, of course, and preeminently at this time, all questions connected with the existing enhappy condition of our country.

It will fearlessly criticise the public acts of public servants, and defend the legal and constitutional rights of individual critizens and sovereign states, against assemble from our quester. aults from any quarter.

It will seek to awaken the minus of the people to a proper sone of the actual condition of the Republic—to present to them, Truthfully, the fearful perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would check our downward progress—and to inspire them with patriotic determination to apply the remedy for our nationalitic. and alls.

In brief, it will, in all things, aim to be the faithful exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and 50 well. The restoration of that party—the party of the Constitution and the Union—to power in the legislative and executive governmental branches of the States and of the Union, we helieve to be necessary to avert anarchy, and the utter ruin of the Republic. To contribute to that restoration will be our high-

it. To contribute to that restoration will be our highest aim.

The News, Literary, Commercial, and other departments, will receive due attention, and will be so conducted as to make "The Age" worthy of the support of the general reader.

— The many difficulties now surrounding an enterprise of the magnitude of that in which the undersigned are engaged, require them to appeal to the public for a generous support, and to ask for "The Age" a liberal patronage and extended circulation.

The present state of the preparatory arrangements warrant the expectation, that the first number of the Daily will appear before the close of the present month (P-bruary, 1863.) The Weekly will be issued soon thereafter.

W E would respectfully direct the attention of characters of Waynesburg and vicinity to the vast and universally admitted superiority of the Pianos made by STEINWAY & SONS, New York.

The tone of these instruments more nearly resembles the "human voice" in the prolonged and singing qualities of their sound; and they continue in a wonderful degree POWER and SWEKTWESS. Both for brilliant instrumental performance and as a reconstitute of the control of th tiant instrumental performance, and as an accompani-ment to vocal noise, they are altogether unrivalled.
