The sublime and affecting production was but lately discovered among the remains of our great epic poet, and is published in the recent Oxford edition of Milton's Works :

I am old and blind!
Men point at me as smitten by God's frown;
Afflicted and deserted of my kind;
Yet I am not cast down.

I am weak, yet strong;
I murmur not that I no longer see;
Poor, old, and helpless, I the more belong,
Father Supreme! to Thee.

O merciful One!
When men are farthest, then Thou art most near;
When friends pass by, my weakness shun,
Thy chariot I hear.

Thy glorious face
Is leaning toward me; and its holy light
Shines in upon my lonely dwelling place,
And there is no more night.

On my bended knee
I recognize Thy purpose, clearly shown;
My vision Thou hast dimmed, that I may see
Thyself—Thyself alone.

I have nought to fear;
This darkness is the shadow of Thy wing;
Beneath it I am almost sacred; here
Can come no evil thing.

O! I seem to stand
Trembling, where foot of mortal ne'er hath been,
Wrapp'd in the radiance of Thy sinless hand,
Which eye hath never seen.

Visions come and go;
Shapes of resplendent beauty round me throng;
From angel lips I seem to hear the flow
Of soft and holy song.

It is nothing now.
When heaven is opening on my sightless eyes—
When airs from paradise refresh my brow,
The earth in darkness lies.

In a purer clime
My being fills with rapture—waves of thought
Roll in upon my spirit—strains sublime
Breathe over me unsought.

Give me now my lyre!
I feel the stirrings of a gift divine,
Within my bosom glows unearthly fire,
Lit by no skill of mine.

Catching Monkeys.

In a French paper, on recent discoveries in Africa, the following fact is recorded :—

"The inhabitants Senar, make use of a singular method for taking monkeys alive. They place under a tree well-peopled with monkeys, a wooden pitcher full of a sort of beer mixed with honey. The creatures come down, take a long draught of the liquor, which completely intoxicates them; the monkey-catcher appears, and carries off all those whom he finds lying drunk on the ground."

Are not *men and women* sometimes caught in the same way, in England? —*British Workman.*

OUR LATEST IMPROVEMENT:

PRINCE & CO.'S GRADUATED SWELL

Patented September 17th, 1861.

This is an entire new idea, and its worst has been noticed by all acquainted with Reed Instruments The old Swell could never be made to operate gradually; the instant the pedal was touched for opening it the change would be instantaneous and abrupt.

Our NEW SWELL is constructed on scientific principles, and we are satisfied, by our untiring study and experiments, that it is the only one by which the tone of Reed Instruments may be graduated from a mere whisper to the full power of the instrument, and vice versa. The volume of tone is also very much increased by this swell, and is now all that we could desire.

This, in connection with our DIVIDED SWELL, (which we patented in 1853,) will be added to all the Melodeons which we manufacture in the future, and without extra charge.

One other feature in our Melodeons is the IMPROVED VALVE OR PALLET, being a combination of cloth and leather, prepared expressly for this purpose. This Valve we have used for the past three years, and we find it to be the very thing that has been so long needed as a substitute for the India Rubber Valve, which has been in use ever since Melodeons have been manufactured, and which has caused so much trouble by the dissolving and sticking of the India Rubber. All of our instruments are now finished with this improved valve, and we can recommend them with confidence.

Persons unacquainted with the Melodeon and its history, will bear in mind that we are the original movers and leading manufacturers, not only in the United States, but in the world. We commenced the manufacture of Melodeons in the fall of the year 1847, and since that time have finished and sold

TWENTY SEVEN THOUSAND!

These instruments are now in use mostly in the United States and Canada, but also in Europe, Asia, Africa, South America, and the West Indies, and from all these quarters we have the most flattering testimonials of the high estimation in which they are held. At all Industrial Exhibitions they have invariably been

AWARDED THE HIGHEST PREMIUM!

wherever exhibited in competition with others. We shall take pleasure in forwarding by mail [at our own expense] our Illustrated Catalogue, in which every instrument we manufacture is fully described, and illustrated by correct engravings.

☞ All Melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of five years from the date of sale, we hold ourselves ready and willing to make the same free of charge, provided the injury is not caused by accident or design.

HOW OUR MANUFACTORY IS CONDUCTED.

As we are the pioneers and leading manufacturers of Melodeons in the world, we have, of course, the advantage of securing the services of the best mechanics in the business, and very many of our workmen have been with us since we commenced the manufacture of Melodeons

We employ none but the most thorough mechanics, and have never had an apprentice in the establishment.

Our work is divided into thirty-nine different branches; each workman has his own part to perform, and is never allowed to change from one branch to another.

The different parts are separately inspected, and passed from one to another to add to other parts, until the Melodeon is complete.

The delivering of materials and inspection of work is attended by, first, the general foreman; second, a foreman of machines; third a foreman and inspector of tuning; fourth, a foreman in the varnishing department; fifth, a superintendent of the reed department.

The duties of the foreman are onerous, it being his duty to select and give out stock, to carefully watch the making of the different parts, keep the departments evenly balanced, and, in fact, to have an eye to everything, and keep everything straight.

We have mentioned the others to show that the utmost care is taken in every department.

OUR REED DEPARTMENT—Much of the good quality of the Melodeon depends on having perfect Reeds It is necessary to have the most perfect machinery to cut, burr, stamp, plane, &c., &c., as well as to use the utmost care in selecting metals, and using proportions for the composition of reed metal.

The superintendent of this department has been with us since the commencement of this business, and, being a practical workman, has originated, improved and perfected all the machinery for making our reeds, and there are no duplicates in any other manufactory.

From the fact that our reeds are celebrated for their uniformity, evenness and sympathy of tone, we very often receive orders for them, or solicitations from manufacturers to supply them with what they require; but as we never sell any part of our Instrument separate, we always decline to fill such orders.

In case the owners of our Melodeons should at any time be so unfortunate as to break a reed, they can, by informing us which it is, receive by return mail a new one properly tuned and ready to put in, free of charge.

☞ *Agents for the sale of our Melodeons can be found in all the principal towns of the United States and Canada.*

STEINWAY & SONS'

PREMIUM PIANOS,

THE BEST PIANOS IN THE WORLD.

WARRANTED FOR FIVE YEARS.

WE would respectfully direct the attention of citizens of Waynesburg and vicinity to the vast and universally admitted superiority of the Pianos made by STEINWAY & SONS, New York.

The tone of these instruments more nearly resembles the "human voice" in the prolonged and singing qualities of their sound; and they combine in a wonderful degree POWER and SWEETNESS. Both for brilliant instrumental performance, and as an accompaniment to vocal music, they are altogether unrivalled.

We Challenge Comparison, and we Warrant them superior in every respect to anything else in the shape of a Piano Forte
