Men go tagether. The ben vivani payage energious rate of interest for his over-drafts on the Bank of Digestion. A recent writer puts the case very sensibly and cleverly in the following essay: "That hen-pecked heathen, Socrates, advised his countrymen to beware of such food as persuades a man, though he be not hungry, to eat and those li-giors which will prevail with a man to drink them when he is not thirsty.' Possibly Xantippe was fond of luxnrious viands and strong-bodied wines; and hence the domestic difficulties between the stoic and the

The old heathen was right, though; all 'persuaders' to eating and drinking outrage the organs of digestion and contravene the laws of health. Bitters, cordists, diffusive stimulants of all kinds—highly-seasoned meats and hot condiments—although they may impart for the time being a spasmodic activity to the stomach, gradually weaken its solvent power, and thus tend to enteeble the system dependent upon the regular and perfect performance of its functions for proper sustenance and support.-Dyspensia is often engendered by strmulants, but never cured by them. The stomach may be forced into violent action by a dram, just as a horse may be pricked into a furious gallop by the spur, but in both cases a corresponding prostration of the over-taxed energies is the inevitable result. A heavier dram or a sharper spurring will be required to produce the same effect at each subsequent experiment, until the vital forces, exhausted by the unnatural demands made upon them, become permanently debilitated. Abstemiousness keeps the senses clear and unembarrassed, gives you the com-mand of your head, secures your health, and reserves you in a condition for business.

Some of the domestic evils of drunkenness are houses without windows, gardens without fences, fields without tillage, barns without roofs, children without clothing, principles, morals or manners.

PENNSYLVANIA NOUSE,

SECOND AND LOCUST STS. MARRISBURG, PA. ROBERT VAUGHN, Proprietor.

HUBBARD LIGHT MOWER.

Juno.10, 1863.

In again presenting to the public this superior Mower, we refer with pieasure and pride to its unparalleled success during the season of 1863; a success we have not seen equalled during many years experience is meanfacturing. Agricultural Implements. Upon its stratification to the public, it at one: took position among the very best machines of its class. During the folly-gars of its existence it has gained steadily and ramidly in public favor, and we believe that, to day, ng Agricultural implement of any class enjoys so high ar equation as the HUBBARD LIGHT MOWER. It enters upon its fifth year with all the selat of its previous unrivalled substain, and under the most favorble aussices. With most manufacturers, the close approximation to perfection obtained by the Machine in 1862, would have been contented to have made all future Machines precisely like them. Indeed, we have sectived hundreds of letters from purchasers of the Machine his express the idea that "the perfection of Mowing Machinery is reached in the LITTLE HUBBARD. It cannot be improved." But believing in progress, and weeting where improvements could be added that would make what before worked well, now work still believer. Tage decided to add them—although they combined to be the Machine of the Machine and can now confidently say that THE HUBBARD LIGHT MOWER EOR 1863 HAS ing the Machine—and can now confidently say that THE HUBBARD LIGHT HOWER FOR 1863 HAS For Price, &c., address or call on HUNT & BRADEN. Buff's Greek, Pa., Washington co., Pa.

The understand would state for the information of shore interested, that we have seen the "Hubbard Light Mewer" at work, and we are free to state that in our opinion it is equal, if not superior to any Mowing Machine we have yet seen. It is of very light draft, fully balanced, leaving no weight out the borkes, neck, and does it work weight out the borkes. THOS. P. POLLOCK.

OUR LATEST IMPROVEMENT; PRINCE & CO.'S GRADUATED SWELL Patented September 17th, 1861.

Patented September 17th, 1861.

This is an entire new idea, and its want has been noticed by all acquainted with Reed Instruments. The old Swell could never be made to opening radially; the instantishe pedal was touched to opening the to opening radially; the instantishe pedal was touched to opening the the change would be instantaneous and abrupt.

Our NEW SWELL is constructed on scientific principles, and we are satisfied, by our untiring study and experiments, that it is the only one by which the tone of Roed Instrument, may be graduated from a mere whisper to the full power of the instrument, and vice versa. The volume of tone is also very much increased by this swell, and is now all that we could desire.

This, in connection with our DIVIDED SWELL, [which we patented in 1855.] will be added to all the Melodecon which we manufacture in the future, and wifnout extra charge.

One PALLET, being a combination of cloth and leather, prepared expressly for the purpose. This valve we have used for the past three years, and we find it to be the very thing that has been in use ever since Melodecons have been manufactured, and which has caused so much trouble by the dissolving and sticking of the India Rubber Valve, which has been in use ever since Melodecons have been manufactured, and which has caused so much trouble by the dissolving and sticking of the India Rubber and we find instruments are now finished with this improved valve, and we can recommend them with confidence.

Persons unacquainted with the Melodecon and its history, will bear in mind that we are the ploneers and leading manufacturers, not only in the United States, but in the world. We cemmenced the manufacture of Melodecons in the fall of the year 1847, and since that time have finished and sold

TWENTY SEVEN THOUSAND I

TWENTY SEVEN THOUSAND ! These instruments are now in use mostly in the United States and Gaussia, but also in Europe, Asia, Africa, South America, and the West Indies, and from all these quasiers we have the most flattering festimentals of the high estimation in which they are held. At all industrial Exhibitious they have invariably been

AWARDED THE HIGHEST PREMIUM! whenever exhibited in competition with others. We shall take pleasure in forwarding by mall let our own expense) our illustrated Catalogue, in which every instrument we manufacture is fully described and illustrated by elegant engravings.

EP All Melodeous of our manufacture, either sold by us of dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of five years from the drate of sale, we bold ourselves ready and willing to make the same free of charge, provided the injury is not caused by accident or design.

HOW OUR MANUFACTORY IS CONDUCTED. As we are the pioneers and leading manufacturers of Melodeons in the world, we have, of course, the advantage of securing the servicer of the best mechanics in the business, and very many of our workmen have been with us since we commenced the manufacture of Melodeons to the employ none but the most thorough mechanics, and have never had an apprendice in the establishment. Four work is divided into thirty-nine different branches; each workman has his own part to perform, and is never allowed to change from one branch to another.

The different parts are seperately inspected, and passed from one to another to do do of the rearts, until the Melodeon is committed.

one branch to another.

The different parts are seperately inspected, and passed from one to another to a date of the parts, until the Melodoon is complete.

The delivering of materials and inspection of work is stiended by, first, the general foreman; second, a foreman of machines; third a foreman and inspector of tuning; fourth, a increman in the varnishing department; inthe a superintendent of the recel department.

The distinct of the comman are onerous, it being his duty to select the fact of the comman and the comman are one of the comman of the different parts, keep the departments evenly balanced, and, in fact, to have an eye to everything, that keep everything straight.

We have mentioned the others to show that the numost care is taken in every department.

we may mentioned the others to show that the immost care is taken in every department.

OUR REED DEPARTMENT—Much of the good quality of the Melodeson depends on having perfect Reeds I is necessary to have the most perfect machinery to cut, burn, atamp, plane, &c., ..., as well as to use the utmost care in selecting metals, and using propt. Depoperitions for the composition for read much.

The superintendent of this department has been with us since. The superintendent of this department has been with us since. The commencement of this business, and heing a practical workman, has ortinased, improved and perfected all the machinery for making our parts, and there are no displicates in any other manufactory.

From the fact that our reeds are relabrated for their uniformity, evenuess and sweetness of tone, we very other steel or their uniformity, evenuess and sweetness of tone, we very other steel or therm, or selications from manufacturers to supply them with what they require; but as we never sell any part of our Instrument separate, we always decline to fill much orders.

In case the owners of our Melodeous should at any time be so uniforming as to break a reed, they can, by informing na which it is, receive by rivings pual) a new one properly tuned and ready to put in, free of change:

Agents for the sale of our Melodeous can be found in all the principal towns of the United States and Canada.

BOOT AND SHOE AUCTION.

T. A. M'SLELLAND'S AUCTION HOUSE,

Fifth Street Masonic Hall, Pittsburgh, Penna.

AVING just been in receipt of a very large consignment of all kinds of Gents', Ladies', Misses Boys and Children's Boots, Shoes and Gaiters, would call the pericular attention of Country Merchants and dealers to the same, guaranteeing that both in regard to PRICE and QUALITY OF GOODS we can give better satisfaction than any other house in the West. One call we think will suffice to prove the correctness of the above assertion, as we are continually in receipt of goods direct from Boston.

January 14, 1862.

E would respectfully direct the attention of citizens of Waynesburg and vicinity to the vast
and universally admitted superiority of the Pianos made
by STEINWAY & SONS, New York.

The tone of these instruments more nearly resembles
the "human voice" in the prolonged and singing qualtiles of their sound; and they combine in a wonderfudegree POWER and SWEFTWESS. Both for brilliant instrumental performance, and as an accompanment to vocal music, they are altogether unrivalled.

We Challenge Comparison, and we Wanrant them superior in every respect to anything elein the shape of a Piano Forte.

RNABE'S PIANOS

Overstung, Improved Full Iron Frame, Felt Covers Hammers. &c.

Titalberg, one of the most eminent pianists in the world, says: "I have great pleasure in certifying that I have tried your Pianos, and find them equal, I not superior, to any in this country. Among their great qualities, which distinguish them, is the evenness of tone, the agreeable and easy touch, and volume of tone. Wishing you all the success you so highly deserve, I am, sir, yours truly.

C. Grobe, the well known composer, Wilmington, Delaware, says that "they cannot be surpassed by arr in the market."

H. Vieuxtemptrs writes:—"I was delighted on heading the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of one of your first classified the clear and full true of your first classified the clear and full true of your first classified the clear and full true of your first classified the your first classified th
